It is believed the rebel force which engaged in the fighting at La Colorado a few days ago, had divided, one section going around to the west of Hermosollo from the south, under command of Jesus Rivera. The other half, under command of a leader named Loysien, marched to the east and north, joining Juan Cabral and 129 mounted rebels who had gone south from Carbo.

The robels a few days ago ceased cutting the telegraph wires, and instead tapped the wires and caught the government messages. The government sent decoy messages which threw the insurrection off in their calculations. Rebels at San Rafael, near Ures, were joined by Giron and a force from Sahvarina and the combined force under uaripa and the combined force under command of Leyren took up quarters in the old Federal barracks.

Rabago reached the outskirts of Chihuahua after a weary struggle. His 225-mile march through the heart of the insurrecto country to relieve Chibuahua was harassed almost everymile by the firing of insurgents hidden in the mountains and brish. The bridges which he rebuilt in the hope that trains might follow him were blown up behind him. Twice he was reinforced, until the remnant of the 100 with whom he started from Juarez was increased to 1100. Dozens of his men were killed and buried along the railroad tracks.

Alveolar Dentistry

Alveolar Dentistry

In a majority of our advertisements we lay great stress on our specialty, Alveolar dentistry, replacing missing teeth without a plate or bridge work, and the curing of Pyorrhaa (loose teeth). The work is so remarkable in its character that it is apt to overshadow those other cases which come to us—the simple cases. We don't want the idea to obtain that we are Alveolar specialists alone. We are that, but something more—general practitioners of the first class. We do dentistry in all its branches from the simple piece of filling up. It's a boastful statement to make, but we can do anything that is possible in dentistry and what we do is always of the very highest class. Our booklets, Alveolar Bentistry and examinations are free. There are 12 Alveolar Dentai Co. offices in the West. About 50,000 people are wearing our Alveolar teeth. About 2000 people in this city and state have been supplied by this office. 99 per cent—if not every single one—will tell you if asked that it's the best investment they ever made in dentistry. In many cases where bridgework is impossible and all cases where it is possible, we can replace your teeth with beautiful, artistic, comfortable, cleanly and everlasting teeth that we will defy any one, dentist or layman, to tell from natural teeth.
