On Baby's Face, Head and Shoulders—Parents Decided He Could Not be Cured—Cuticura Made His Skin Perfectly Clear.

"Our boy was born in Toronto on Oct. 12, 1908, and when three months old a slight rash appeared on his cheeks. What appeared to be a water blister would form. When it broke, matter would run out starting on his blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. Other parts of his body were affected, but not to such an extent. We did not know what to do. The doctor prescribed for him and told us to bathe the baby in buttermilk. This did not do any good, so we took him to a hospital. He was treated as an out-patient twice a week and he got worse. If anything, he then called in another doctor and inside of a week the boy was in all appearance cured and the doctor said his work was done. But the very next day it broke out as bad as ever."

"We decided that it could not be cured and must run its course so we just let his arms hang to his side to prevent his scratching. We left Toronto and shortly after our arrival in Duluth, the Cuticura Remedies were recommended. We started using them in March 1909, and soon the cure was complete. You would not think he was the same child for Cuticura made his skin perfectly clear. There has been no return this time. We still use only Cuticura Soap for baby's. Robert Mann, Proctor, Minn., May 3, 1910."

Cuticura Remedies sold throughout the world. Free literature for the Cuticura Remedies. Mailed free, latest book on Treatment of the Skin.
