The offi-cer further added that he knew of Willlams' career for only one day, and when the judge suspended the sen-tence he made no demur.

Learning that opposing statements had been made, Judge Taxwell called Day to him, yesterday morning, and asked why he had not been informed that Williams was implicated in a serious offense. Day asserted that he had done so. Taxwell denied it, and the storm broke. A citizen ran into Captain Moore's office and told him what was occurring. Moore hastened to the scene and called Day away. Judgs Taxwell said yesterday that he was considering the advisability of placing charges against Day for his burst of temper.

## FIRE PREVENTION IS AIM

SCHOOL BOARD ORDERS DEFEC-TIVE CHIMNEYS FIXED.

Suggestion by Fire Chief Campbell for Uniform Drills Is Warmly Received.

The Board of Education at its meeting in the Tilford building yesterday afternoon ordered that defective chimneys at Lincoln High School and other places be repaired; that uniform fire signals and drills be given in all schools; that Architect Jones report on the firerooms of all schools as to whether or not they are fireproof, and that School Clerk Thomas find how

have been left in chimneys unattended to for some time, and it remained for Fire Chief Campbeil personally to visit the schools and report to the Board their condition. The Board thanked Mr. Campbeil for his report.

Mr. Campbeil said last night he found cracks in the plaster of the chimney at the Lincoln High School, and as he could not tell whether the bricks were also cracked, making it dangerous to build a fire in the furnace, he reported to the School Board and asked that the matter be investigated at once. He said he also found trash strewn about the furnaces in some of the basements of schools, and in some instances found the woodwork above the furnaces unprotected. He recommended that metal lath be put on.

What the Board of Education regards as the most advantageous thing recommended by Mr. Campbell, however, is the uniform fire drill. He suggested that the signal for fire be the same in all schools, so that a pupil moving from one part of the city to another would be familiar with the signal. I. N. Fleischner, a member of the Board, said he thought the fire hose in the schools ought to be used by the pupils under the direction of the principal occasion-

In spite of his recommendations, Mr.
Campbell said last night he does not think the danger to Portland schools from fire is great. "We found conditions excellent in the most of the schools," he said.

Saturday night, March 18, the base-ment door of Woodstock School was forced, according to a report of A. J. Prideaux, principal of the school. He said he reported the matter to the police, but that no evidence could be secured to enable them to capture the culprit. F. E. Harrigan, principal of the Hol-

T IS wonderful how much satisfaction can be deltained from a talk over the Bell Telephone.

A letter earries words, but the Bell Service has been brought up to such a point of perfection that the modulations of the voice are clearly heard.

The cheery tones show that the talker is well and in good spirits. The call may come from a suburban village or a distant city, but within the limits of the carrying power of the voice the Bell Service carries the tone as well. You get a personal interview with a friend hundreds of miles away.
