iens for Rose City Park School ing Drawn by Joseph Jacoberger - Ellis F. Lawrence Has Proposal From Board.

T. J. Jones, who for many years has employed as architect by the Portland Board of Education, may be dismissed. Up to the present Mr. Jones has drawn specifications for all grammar school buildings that have been erected. Now, however, the Board has commissioned one outside architect to draw

sioned one outside architect to draw plans for a grammar school, and is negotiating with a second architect concerning a similar commission.

Members of the Board last night admitted that they had discussed doing away with Mr. Jones' services altogether. The subject was brought up at a closed session of the directors hat Friday afternoon. The Civic Council and others who have been fighting the Board of Education have directed much criticism at the Board for the employment of Jones, asserting that he is incompetent and criticistog him personally.

Architect Jacobberger Engaged.

Joseph Jacobberger has been ongaged by the Board to draw plans for the new eight-story, reinforced concrete school-house for the Rose City Park district. Negotiations are under way, also, for the employment of Ellis F. Lawrence, an-other architect, to draw plans for the

other architect, to draw plans for the new Fernwood school.

The reason advanced by Board members as its basis for the employment of Jones is that he has charged only 3 percent of the cost of construction for his work, while the usual architect's fee is 5 per cent. The Board did not employ him, however, to draw the plans for the Jefferson High School or for the Lincoln High School, and one of the members of the Board admitted last night that there is a question whether or not Architect Jones would be capable of doing the work upon the large and complicated structures satisfactority. Architects Whitehouse & Foullhoux are doing the work upon the structures just work upon the structures just

New School to Be Fireproof.

Mr. Jacobberger expects to have the plans for this building ready for the inspection of the Board within 20 days. This will be the first fireproof grammar school building erected in the city, and when completed will cost in the neighborhood of \$80.000. It will be built on the same block as that on which the present building is located, in Syndicate Addition, near East Fifty-seventh street. Two members of the Board recently

Addition, near East Fifty-seventh street.

Two members of the Board recently yisited Mr. Lawrence and asked if he would be willing to draw plans for the Fernwood school. He submitted a propesition, which was considered at the last meeting of the Board. It was not wholly satisfactory, so School Clerk Thomas was instructed to make a counter proposition to Mr. Lawrence. This the latter has not yet received. Should be achas not yet received. Should be accept the Board's terms, the deal will be closed at the meeting to be held Friday afternoon. The plan has been to put up a four-story building for Fernwood, but this may be modified.

## WIRING ALLEGED FAULTY

Electrical Workers Assert Public Service Corporation Negligent. be no especial hurrah in the building of this railway out Molalla way, but good, steady work from now till the road is finished.

Preliminary to a full adjudication of the initiative ordinance passed in 1908, regulating electric wiring, six charges against Joseph B. Middleton, manager of the Home Telephone Company, were taken up in Municipal Court yesterday. The complaints were filed at the instance of the Electrical Workers' Union and allege disregard of the ordinance in six instances where guy wires leading to the company's poles are said to be improperly insulated. C. A. Jordon, business agent of the union, was the prose-

ness agent of the union, was the prose-cuting witness.

All of the public service corporations are more or less negligent in regarding the ordinance, say the complainants. The Portland Railway, Light & Power Com-pany has put up new construction in ac-cord with the ordinance, but its old wiring has not been changed, say the union men. For a time the Pacific Tele-phone Company compiled, but it is not foling so now, they say.

The proceedings yesterday morning were formal, with a view to preparing a record. The court entered a finding of guilty on two of the charges and held the others in abeyance, subject to an ap-peal, notice of which was given. The defendant company will attack the ordi-nance as unressonable, requiring expennance as unreasonable, requiring expen-diture out of proportion to the necessi-ties of the case.
