CITY IS AWAKENED

Tom Richardson Takes Boom Methods to Baltimore.

PORTLAND'S WAY IS CITED

Staid City of South Plans Vigorous Campaign to Annex Trade Territory—Rock of Conservatism Is Shaken.

Tom Richardson is holding what he calls "commercial meetings" in Baltimore. He started two weeks ago to raise \$50,000 for the Greater Baltimore committee. His methods are new to Baltimore people. Never have they had such a revival. For a century Baltimore has been regarded as the rock of conservatism. Business was conducted along old and staid lines. The first thing Richardson did when he landed was to refer to the town as having "cobblestones." He suggested that the way to get rid of "cobblestones" was to "root your own horn." He urged the staid bankers who had never attended a "live" meeting to "make a noise." It was something decidedly new, and so funny to them it felt good. Then when Richardson added: "Blow your whistle and let the world know your living." It was such an eye-opener that the bankers began to sit up and take notice. The result is that the Portland professional "booster" is beginning to see a good prospect of raising the \$50,000 for advertising the city's resources.

Portland's Example Cited.
While Mr. Richardson was doing all this he stopped long enough to give the citizens some idea of what he was accomplishing in Portland. For he told them: "We have tremendous shops in Oregon; some of them occupy an entire city square; and time after time they give their great windows to be filled with 'Made in Oregon Goods.' Occasionally these windows are filled with the great apples for which my state is famous. Do you know anything about Portland? Do you know that we have nine months of roses; that we have the most glorious sunshine in the world; that we never

have a hot night; and that the water is clear as crystal and as cool as anyone could desire. Every Oregonian loves his state. And our children are as enthusiastic as are the grown persons. If you ask a little girl or boy if he loves Portland he answers fervently, 'Thank God I do.' Patriotism is a religion with us."

As a result of his appearance before civic organizations he has been occupying the chief attention of the leading daily newspapers of Baltimore. He has appeared in one of the cartoons, his picture is printed almost daily and much space is given to his methods as an industrial evangelist. One of the novelties introduced by Mr. Richardson was the announcement that he would deliver a long-distance telephone address to the leading merchants in all the cities and towns of the south which Baltimore regards as the natural tributary. He has outlined the following order for the Greater Baltimore committee:

All this is the result of a getting-together a few weeks ago of several leading citizens of Baltimore, who decided that Baltimore was not forging ahead as rapidly as its dormant possibilities ought to justify. They sent for Tom Richardson to prescribe a boom campaign for the city, and he arrived there two weeks ago to begin a campaign for a big fund with which to develop the trade territory to the south which Baltimore regards as the natural tributary. He has outlined the following order for the Greater Baltimore committee:

That the members of the executive committee be authorized to call on the chairman of each subcommittee at option of subscriber.
Auxiliary committee of not less than 1000 people to address public school children on the advantages of the Chesapeake Bay, West Virginia and the South.
Offering of prizes to the children for the best essays about Baltimore and surrounding territory.
Have school teachers instruct children about various features of city.
Have one or two active commercial evangelists tour the South, preaching the gospel of Baltimore.
Preach the "Bug-in-Baltimore" doctrine.
Have preachers deliver sermons on special day on Baltimore.
The placing of Baltimore newspapers in every commercial club of all the large cities of the country.
The inducement of jobbers and retailers to trade in Baltimore.

Indian Liquor Selling Case Up.
Hugh Hough, charged with selling liquor to Logan Pompey and Morris Lougley, two Indians on the Klamath Reservation, will be tried tomorrow. Judge Bean signed an order yesterday providing that witnesses in his behalf

be subpoenaed by the Government, as Hough made affidavit that he had not the necessary funds to pay them. They will testify that he was out hunting for a little girl or boy if he accused of having sold the liquor. Testimony will also be given that the two Indians went to Ed Hall's place, both drunk, before Hough had seen them.

CITY TO BEAR COST

Auditor to Mail Titles and Texts of Initiative Bills.

EACH VOTER TO GET COPY

Barbur Sets Precedent Although Authorized by Charter to Send Measures and Lists of Candidates to All Electors.

Every voter in Portland will be supplied with complete copies of every measure to be voted on June 5, including the ballot titles and texts of all initiative bills. City Auditor Barbur is responsible for this innovation. He is authorized by the charter to publish and mail a list to the electors if he chooses, and this time he is determined to do so.

There will be about 100 pages in the book that will be printed for free distribution through the mails, and this will be mailed to the electors, numbering some 35,000. It will be sent out from the City Auditor's office at the City Hall eight days before the primaries, which will occur May 8.

With the ballot titles and texts of all measures to be voted on, will go the names of all candidates and their declarations and platforms. In this manner it is proposed by Mr. Barbur to furnish every voter with full information as to what bills are to be voted on June 5, giving them more than a month in which to study the measures.

"While it will cost something to publish and mail these booklets," said Mr. Barbur, "I shall do so nevertheless, for after studying over the situation, as to the importance of the measures to be submitted, I have decided that the public should have the benefit that will be afforded by the publication of them. I will therefore have 35,000 booklets printed and will mail one to every voter in the city. In this manner, every one who cares to vote on any or all of the proposed amendments will be placed in a position where he can do so intelligently.

"There are so many proposed measures to be voted on," continued Mr.

Barbur, "that I am convinced the average voter cannot properly inform himself on their contents by glancing over the ballot titles, and many of them are of great importance, so that I feel justified in making the extra expenditure at this time."

This is the first time that the City Auditor has availed himself of the authority given in the charter, and his act will therefore set a precedent. By sending out the booklets so soon, the voters will have ample time at least to inform themselves on some of the provisions of the proposed amendments.
