This launch is used solely by the Biblic clubs, and a regular schedule will be made out, so that the boat will be in use evenings of every school day and mornings, afternoons and evenings

and mornings, afternoons and evenings on Saturdays.

Several of the clubs are planning to take special trips this Spring. One group will spend three days at Multnomah Falls, another will go down the Columbia, and a third will go up the Clackamas. On all of these outlings some time is spent in Bible study or in listening to short talks along the lines of right living.

to reconsider.

"I am in hearty sympathy with the purposes of the East Side Business Men's Club," said Mr. Dorres yesterday, "but I am net in accord with its policy with reference to the freight depot and freight facilities, and besides I cannot give the time necessary. My own business occupies all of my time, and yet people have been coming to see me three and four times a day for conessions or assistance which they sup posed I was able to give them because of being president of the club. It took too much time from my business. I accepted the office with much reluct-ance and only on the assurance that I should receive the full support of the members and the old officers, and in that I was disappointed to some ex-

great mistake in not favoring concessions and vacation of streets needed.
The offers submitted by the railroad
company seemed to me to be reasonable, and the people are amply protected by overhead viaduct and other
rights. The East Side needs the freight
depot and freight facilities.

City Takes Over Private Enterprise at Woodmere.

BULL RUN SUPPLY GIVEN

Committee Reports That Price of \$50,000 Is Fair Both to City Converted Promptly.

Purchase of the private water plant of George W. Brown, at Woodmere, for \$50,000, was ordered by the City Water Board at a special meeting held yesterday afternoon. A report, signed by Theodore B. Wilcox, J. C. Alnsworth and W. B. Mackay, recommending the action indicated. The Commissioners were designated to investigate some time ago. Formal year was taken and time ago. Formal year was taken and

time ago. Formal vote was taken and the plant was bought:

Purchase of this plant insures to the residents of Woodmere and the surrounding districts a full supply this Summer of Buil Run water, which could not be furnished in any other way. not be furnished in any other way. It was shown that it would take several years to construct a system of city years to construct a system of mains to handle the situation there.

Price Regarded as Fair.

As chairman of the committee which As chairman of the committee which investigated and recommended the purchase of the plant. Theodore R. Wilcox said that the price paid was reasonable. He said that the mains and pumping station, towers and all equipment connected with the system aggregated a cost of \$124,000. The city has no need for the pumps and will not need the towers when a 10-inch main is connected with the private system to

need the towers when a 10-inch main is connected with the private system to furnish sufficient pressure.

"This plant furnished water to the amount of, \$15,000 in 1909 and \$24,255 in 1910," said Mr. Wilcox. "This was under its own system of rates, which were a little higher than the city's schedule. Last December, after this Board had caused to be connected with the private system a small main to Board had caused to be connected with the private system a small main to furnish Bull Run water, the receipts were \$1834. This was under city rates. Now it will be seen that the city is getting an excellent bargain when it purchases the mains in this system for \$50,000, when it would take about 2½ years to get its money back.

Committee Is Unanimous.

"I consider this an excellent purchase and I also feel that the city is doing a fair thing by Mr. Brown. This is the sentiment of the entire committee. the members of which are unanimous in making the report favoring the purchase at the figure stated."

Mr. Wilcox expressed pleasure in the fact that the city will be able to pro-vide an ample supply of Bull Run water to the Mount Scott districts this Summer. For years the people in these places have been without an adequate supply, being unable during the Summer season to secure enough from their faucets at times to bathe or to sprinkle their lawns, to say nothing of fire pro-

The Board ordered the engineer to proceed at once with the extension of a 10-inch main to connect the city's system with the new addition. It will be completed by June h

## JURY HAS BLOCK S CASE

PRICE AGREEMENT DENIED Dr. Smith Declares Block S Was Not Up for \$500,000.

Absolute denial that an agreement had ever been made with C. K. Henry to offer block S as a Postoffice site at \$500,000 was made by Dr. Andrew C. Smith in an interview yesterday. Dr. Smith said that when the two parcels in the block were offered to the Government first, the aggres to the Government first, the aggres of the west half and \$215,000 for the west half and \$215,000 for the cast half.

"When we saw that efforts were being made to boost other property and that Mr. Henry was butting into the case, we decided to reduce the price to \$200,000 for our half of the block," said Dr. Smith. "The \$5000 demanded by Mr. Henry was not a legiti-

block," said Dr. Smith. "The \$5000 de-manded by Mr. Henry was not a legiti-mate commission, although we were willing to pay it in case we obtained our original price. When we reduced the price to \$200,000 Mr. Henry can-celed the contract for \$5000 and at our request butted out of the deal. We never offered to sell the property at \$150,000 as he testified. He told us at that time that he thought the prop-erty was a good buy at \$200,000."
