RECIPROCITY BILL IS THROUGH HOUSE

Nearly All Democrats, but Less Than Half Republicans Support It.

ALL AMENDMENTS KILLED

Republicans Propose to Tack on Farmers' Free List and Democrats Dare Them to Support It as Separate Bill.

WASHINGTON, April B .- President Taft's Canadian reciprocity agreement. supported by all but a handful of Democrata and opposed by a majority of the Republicans, passed the House of Representatives this afternoon by a vote of

With nearly 200 Democrats in control and their action indersed by many Re-publicans, the bill was adopted with no amendments, and in almost identically the form in which it passed the House

The bill seeks to put into effect the formal agreement reached between President Taft and members of the Ca-nadian Cabinet for a reduction of tariff rates on many articles and free trade in many others across the Canadian border. Added to it by the Democratic leaders is a section which "authorizes and requests" the President to make further efforts to secure still freer trade relations with Canada, in the form of additional reciprocal relations.

All Amendments Voted Down.

The passage of the bill marked the close of a fight that had raged in the House for six days. In that time the safety of the measure was at no time safety of the measure was at no time threatened; but the Democratic and Re-publican lenders, working for its pas-sage, conceded all the opportunity de-sired by its opponents for debate and protest. Following the same policy, they admitted amendments in the House for almost every section of the bill, and in

almost every section of the bill, and in each case they were rejected by an overwhelming vote given by the friends of the measure. Ten Democrats voted against the bill on its passage, while 197 Democrats voted for it.

As when the bill passed at the preceding session, a majority of the Republicans were found against it, the party vote being 57 for and 75 opposed. Berger of Wisconsin, the Socialist member, voted for it, and Akin of New York, who ranks as an independent, voted against it. The negative vote was:

The attempt to amend the agreement began with the final reading of the bill at 3 o'clock. The threats of Repub-licans opposed to the measure to make crais vote against amendments for free meat, free lumber and free agricultural machinery were car-ried out, but as their leaders declared that any amendment would defeat the

that any amendment would defeat the whole trade agreement, they cheerfully voted the amendments down.

The Republicans, who taunted them with opposing free admission of these important products, were met with the assertions that the Democrats would lay the new "farmers" free list bill" before the House next week and that an opportunity would then be given to vote for free meat, machinery, lumber and other things. This defense was and other things. This defense was met by Republican standpatters with the charge that the Democrats knew the free-list bill could not pass the Senate nor secure the President's ap-

Longworth of Ohio, pointed out that any reduction of duties, as proposed in the free list amendments, would vio-late the relations between the United States and all other countries as it States and all other countries, as it would give Canadian goods a special preference in the American markets.

Underwood Plays Prophet.

"I challenge the statement that we are going to pass the free list bill later with the expectation that it will not become law," said Underwood, the Democratic leader, in reply to state-ments from opponents of the bill. "The free list bill will become law or the Republican Senate that kills it or the Republican President that vetoes it will never be heard from magain."

In reply to a statement made by Cannon in a recent speech, to the effect that the United States Steel Corporation favored reciprocity, he said:

"I am in receipt of a telegram saying that the United States Steel Corporation has stepped work on important mills in my district, throwing 2000 men out of employment, and giving as their reason that I stood here advo-

posed me because I favored the reduc-tion in the steel tariff and they threat-ened to turn me out of Congress If I voted for such reductions. I voted for them just the same and they failed in their efforts to turn me out of Con-

duced the sisters of that institution and a local physician to offer their services free. It developed yesterday that Shaver was a miser and possessed of considerable wealth.

The first intimation that Shaver was not a pauper was given out yesterday by Charles Bond, of the local clothing firm of Bond Brothers, who said the old man had recently left \$300 at the store for safe keeping. Other sums were lo-cated soon and it is now believed that the savings of a lifetime which Shaver had hoarded will amount to several

thousand dollars. Shaver worked as a laborer and by always dressing in rags gave out the impression that he was penniless.

Mrs. Ivy May Henry, the fair di-vorcee, for whose sake Kelley, her 50year-old affinity, and Cochrane are in the County Jall, is ill at her apart-ments at the Savoy Hotel, as a result of the trying ordeal of the recent trial. So she is unable to visit and cheer up

The authoritative character of the contents of the New Edition of the Encyclopaedia Britannica in all questions of fearning and research is paralleled by its practical utility as a work of reference in ordinary emergencies. How closely it is designed to meet modern requirements in this respect is reflected in the following classification of contributors:

To grasp at first thought the varied utility for study or for reference of so vast and original a work as the Eleventh Edition of the Encyclopaedia Britannica is impossible. To consider the most obvious uses which any intelligent reader will make of it is to look ahead for years. Yet, unless the question of the price to be paid is altogether disregarded, the decision to examine the details of the present limited offer with the idea of becoming a subscriber on the most favorable terms possible must be immediate.

In fact, the present occasion may be regarded in the light of a twofold opportunity. In making his application now the reader will (1) receive the benefit of the "advance of publication price," (2) obtain early delivery of his set. All orders are being filled in rotation. Early subscribers will accordingly receive their books far in advance of the thousands who delay entering their orders until next month.

The New (11th) Edition of this Encyclopaedia Britannica is a Fresh and Original Survey of Human Thought, Learning and Achievement to the Year 1910. The work, in 28 volumes and Index, is in two forms:-

(1) On INDIA PAPER (very light and opaque) in Three Styles of Binding: CLOTH, FULL FLEXIBLE SHEEPSKIN, and FULL FLEXIBLE MOROCCO, the volumes to be ONE INCH THICK (960 to 1060 pages). The India paper impression bound in either Full Sheep or Full Morocco is strongly recommended.

(2) On ordinary book paper in Three Styles of Binding: CLOTH, HALF MOROCCO, and FULL MOROCCO, the volumes to be 23/4 inc. thick (960 to 1060 pages).

\$4.00 A VOLUME

is the before-publication price for the Cloth-bound copies on ordinary paper (each volume being a large quarto, of from 960 to 1060 pages, and containing an average of 1,500,000 words), and \$4.25 is the price for India paper, bound in Cloth (each volume but 1 inch thick), and containing exactly the same contents.

To Be Increased to \$7.50 a Volume

It is intended that after May 31st the price shall be increased, the first increase to go into effect from that date, and the work will continue to be sold on an ascending scale of prices of which the ultimate price will be \$7.50, the same as that of the 9th Edition.

Terms of Payment

After delivery, the cash price (at the special rate of \$4.00 a volume for ordinary paper, and \$4.25 a volume for India paper), may be paid in full, or at a slight increase may be divided into 4, 8 or 12 monthly payments. Payment will also be accepted in monthly installments of \$5.00 only.

The New Edition is sold direct to the public or through the leading booksellers and no agents or canvassers are recognized

or employed. Illustrated Prospectus (40 pp.), 56 specimen pages on India paper, 4 specimen plates, and form of application showing the special advance terms, will be sent by return of post upon receipt of name and address.
