HOOD RIVER SUIT OUSTED

Supreme Court Reverses Cases in Controversy Over Ferry Landing.

HOOD RIVER, Or., April 27.—(Special.)—Unusual interest is being manifested here in the decision this week of the Oregon Supreme Court in its action relative to the controversy which arose here four years ago over the right of vessels navigating the Columbia River to land on private property which was overflowed during the Summer freshet. The suit which reached the highest court of the state, as Dean vs. Washington Navigation Company, was reversed and the suit dismissed, the opinion holding that a petitioner for ferry license must show his ownership or control of the ground in Oregon

where his ferry lands, and that the County Court in such matters, acts as a court of limited jurisdiction, and every fact essential must affirmatively appear.

In the other suit, Chapman vs. Dean, also reversed, the opinion holds that appellants are entitled to an injunction against the respondents restraining them from trespassing upon appellants' land.

Japs Free American Subjects.

WASHINGTON, April 27.—The two Californians, Richardson and Fletcher, arrested in Japan as spies, because they photographed the Matsuru Naval Station, have been released, and the State Department has been notified by Ambassador O'Brien. An investigation disclosed that they inadvertently directed their cameras toward a forbidden zone in getting a picture of the harbor from the deck of a steamship.

END SENATE, SAYS BERGER

Socialist Proposes to Abolish It and Presidential Veto.

WASHINGTON, April 27.—Victor Berger, of Milwaukee, the Socialist member of Congress, in a resolution introduced today, not only proposes to abolish the Senate, but aims to strike from the hand of the President the veto power and take from the courts authority to invalidate legislation enacted by the House of Representatives. All this is proposed as an amendment to the Constitution, which if petitioned for by 5 per cent of the voters in each state, shall be submitted to a general referendum.

"The Senate has run its course," said Mr. Berger, after his threatening document had been dropped into the hopper on the Speaker's desk.

"It must come day, as with the Brit-

Wilds to Be Searched for Body.

KLAMATH FALLS, Or., April 27.—(Special.)—Hoping to be able to find traces of B. B. Bakowski's snowshoes in the Crater Lake National forest, H. E. Homyer, Sr., will make another trip into the wilds in search of the body of the Bend photographer. Bakowski left Klamath Falls last January for Crater Lake to photograph winter scenes. Searching parties found his shovel and sled but no trace of him. Mr. Homyer thinks that by going to Crater Lake about the time the snow melts down to the height it had reached when Bakowski left his camp he may be able to locate his tracks and follow his snowshoe prints to where he lost his life.

PRIVATE BOXES DOOMED

Boxes Ordered Removed From Restaurants in Dallas.

DALLAS, Or., April 27.—(Special.)—The City Council has passed an ordinance compelling the removal of private booths from restaurants in this city. The reason for such action was the practice of taking liquor into these boxes that was being indulged in quite freely. Persons not able to purchase liquor at the saloons could get some one to take it to these restaurants for them, and thus get around the provisions of the most stringent regulation of saloon ordinance in force in this city.

Dallas was one of the first cities in the state to pass a model license saloon ordinance. The promoters of that

ordinance are seeing that it is enforced. Since the city has been "wet" there have been but very few arrests for drunkenness, and most of them were of out-of-town persons.

Klamath Wants Shade Trees.

KLAMATH FALLS, Or., April 27.—(Special.)—A committee of three from the Good Government League, composed of G. W. White, banker; O. A. Stearns and M. Mahaffey, was appointed to meet with the Chamber of Commerce and City Council to interest those bodies in plans to beautify the city. One of the first steps to be taken is the matter of planting trees. It was decided to urge property owners to plant shade trees. A mass meeting has been called for next Tuesday evening, when G. S. Ehle, a tree and shrubbery expert, will address the people on that phase of city beautifying.

RUM ON SHIP EXPLODES

One Man Killed in Fire Which Destroys French Steamer.

POINTE-A-PITRE, Guadalupe, April 27.—While the French steamer Maroni was loading rum and sugar at the docks here yesterday, fire broke out in the cargo and before it could be put out caused an explosion among the barrels of rum, which killed one fireman. The monetary loss is considerable. Following the explosion, it was impossible to stay the flames and the vessel was towed out in the harbor and abandoned. The cargo already on board consisted of 4000 barrels of rum and is also a total loss.

Germany will establish a record this year by launching six new dreadnoughts.
