Display and Sale Bird Houses Built by Boys in the Manual Training Classes of Schools

The Bird Houses which have been brought in up to the present time would do credit to the old-fashioned German woodworkers. The styles are unique and original, worth going a long way to see. Exhibition will be under the direction of W. L. Finley, president of the Audubon Society. Come and encourage the boys, and see for yourselves some of the good work being done in this department of our public schools. Boys' names will be published later.
