

PORTLAND IS BEST

City Held in High Esteem by Whole Country.

ADVANTAGES ARE SEEN

Conservation Wins Respect, Water Level Is Appreciated and Underdeveloped Country Is Asset, Says Mr. Eckhardt.

After spending two months examining conditions of trade in the Eastern cities, with a view of comparing Portland methods with those of New York and Chicago, A. E. Eckhardt, cashier of the Meier & Frank Company, returned yesterday, convinced that Portland is the most promising city in the whole country.

Mr. Eckhardt, "that Portland was held in high esteem. Bankers, who talked with one of the coming cities of the country, I remember meeting two prominent bankers in New York City. They wanted to know all they could of Portland, its possibilities and its resources. In each case I found their opinion of the city was based upon the idea that first, Portland is a very conservative town—that idea prevailed everywhere; second, that it is a water-level town, and that meant there was no grade to carry the goods over; and third, that it had the largest undeveloped area back of it of any city in the United States. These three things made them believe that the city had a great future."

"All department stores in the country that are up-to-date have offices in New York for the purchase of goods. Eugene, as there for all houses and the opportunities are the same for all. It makes the impression strong that the country is about the same wherever you go. However, it certainly gave me a qualified pleasure to find that Portland is just as good as New York when it comes to the sale and delivery of goods."

"One thing I noticed when East was that things are regarded as 'black.' There was not the hustle and bustle I found on previous visits, and it was said that it was due to the possible disturbance of the tariff schedules, the pending decisions of the Supreme Court and the coming Presidential election. All three things have their effect on the general money market. The banks never had so much money on hand, but it seems that it is not being lent to any considerable extent for development work."

CRIME CAUSES DISCUSSED

Mothers Told That Prenatal Influence Is Strong Factor.

That prenatal influence and child environment are direct causes of increase in crime was the topic of Dr. L. Gillespie's address on "Criminology" before the Oregon State Congress of Mothers at the annual meeting yesterday. He spoke of the home circle as the most important social unit and declared that mothers should begin early to study their own and their children's dispositions and to accommodate one to the other.

"She should always be supreme in control during the life of her child and keep in perfect harmony his surroundings," said the speaker. "Most important of all, she must study his tendencies and propensities, to lead wisely and affectionately those that are good and to overcome evil qualities."

The congress was otherwise busy yesterday with its annual election of officers, the ticket presented, and the chosen being accepted unanimously. The officers elected are: State president, Mrs. R. Tate; vice-presidents—for Portland, Mrs. W. J. Hastings, Mrs. C. Clark, Mrs. W. R. Litzberg; for Salem, Mrs. A. M. Bush; Eugene, Mrs. C. M. Collier; Pendleton, Mrs. J. C. Smith; The Dalles, Dr. Belle Ferguson; Forest Grove, Mrs. Charles Hines; Librarian, Mrs. J. D. Sullivan; auditor, Mrs. E. M. Welch; corresponding secretary, Mrs. William Hayhurst; secretary, Mrs. W. S. Brandt; treasurer, Mrs. E. L. Hart.

The congress endorsed a petition for a Carnegie library at Montavilla.

DETAILS LEFT FOR MOORE

Portland Must Be Made Clean, Moral City, Cox' Successor Is Told at First Conference With Executive.

With no "strings" attached to him and under instructions to take orders from no one but the Mayor, Acting Chief of Police Moore yesterday morning went from the City Hall to take up his new duties at police headquarters, succeeding A. M. Cox, who is under indictment by the grand jury for malfeasance in office in permitting disorderly houses to operate.

Mayor Simon had a long conference with Chief Moore, who called at his office early yesterday morning, for the first time after being designated as head of the department. The Mayor gave Chief Moore a detailed account of his ideas of how to keep vice down to the minimum, especially the social evil and gambling, and made it clear that he wants his policy executed now without any deviations.

"I instructed Chief Moore to suppress all forms of vice," said Mayor Simon, "especially the social evil and gambling. I told him to check the disorderly element with vigor, to allow no gambling of any sort and to make Portland a clean, moral city. I assured him that I would support him in whatever action he might see fit to take in carrying out my policy and that he would be unfeared and that no 'strings' were attached to him in any way. He is free to exercise his judgment on all subjects coming under his jurisdiction and is at liberty to enforce the laws fully and fearlessly."

W. R. Roberts Gives Talk Before Rotary Club Members.

Roberts, Deputy Fire Marshal of Portland, declared that Portland's opportunity to secure a general configuration rested in the automobile row at the head of Alder street, the shacks on the river front and in the warehouse district.

It must be understood that the necessities of the hour are as great now as they have been anytime in the past. The death toll to women, extent with the recent fire in a New York shirtwaist factory in which 140 lives were lost, and explained that the death toll was due purely to lack of fire escapes, although the building was of good construction. He favored introducing fire drills in all of the factory buildings of the city. He believed that in the introduction of these methods of making the working people acquainted with the way to get out of the building their lives would be saved should a fire break out. He told of the fire drill in one school building where the pupils to the number of 1500 got out of the building in 70 seconds. He called attention to the increase in the paid fire department of the city during the past 2 years. In 1902 the city had 51 paid firemen and 8 engines. Today it has 279 paid firemen and 17 engines.

ADMEN TO HAVE DEBATE

Merchants and Their Hosts Will Discuss Value of Advertising.

Resolved: That the spoken word is more efficient as a selling force and a business getter than the written word. Five minutes will be allowed to each of half a dozen speakers at the weekly luncheon of the Portland Ad Club today to discuss the momentous facts involved in the question given above. The topics will be chosen for the purpose of elucidating the value of advertising and to show that it was even a better thing than the best salesman. The speakers have had the question up before their various "help meetings" in their stores and it has been discussed pro and con.

Business-getting as a science is regarded by many of the Portland merchants as worthy of a course of study in the public schools and at the large stores have weekly meetings of their executive staffs as well as of the forces of men working for them. All manner of topics are discussed which would lead to a broader consideration of the sales end of their business. For the affirmative J. Fred Larson, sales manager for Umbdenstock & Larson; Louis A. Colton, sales manager of the Pacific Paper Company, and Dwight Edwards, manager of the Dwight Edwards Company, will speak in opposition and maintaining that the "written word" is of immense value and the real seller of goods. D. O. Lively, vice-president of the Peninsula Industrial Company; Frank A. Ryder, of the Chapman Advertising Company, and W. L. Campbell, of the Pacific Railway Advertising Company, will present their personal views.

The judges selected to pass on the merits of the discussion are Frank A. Spencer, of Alice Lewis; William D. Wheelwright, of the Pacific Export Company, and Charles B. Merrick, postmaster. Julius L. Meier and J. S. Jessely will serve in dual capacity, as chairman. Incidentally they are on the programme to tell what each knows about the other.

LOCAL WORKERS TAKE LEAD

Campaign for Y. M. C. A. Funds in South Conducted by Portlanders.

One important building campaign for the Young Men's Christian Association has just been closed in San Diego, Cal., and a similar campaign, for a considerably larger amount, will soon begin in Los Angeles. The Portland association is especially interested in both movements, as former residents of this city took a leading part in the San Diego campaign, and H. W. Stone, general secretary here, will participate in the movement at Los Angeles. San Diego, in a 15-day campaign, succeeded in raising \$155,000 for a new central building. It is the last city of importance on the Pacific Coast to erect a modern Y. M. C. A. home. The campaign there was led by Louis J. Wilde, formerly a Portland banker, who was assisted by I. W. Larrimore, once physical director of the local association.

The Los Angeles campaign will open on May 15 and its object will be to raise \$500,000 in 10 days. Los Angeles now has a single building on the coast that is not indebted. The money to be subscribed now is for the construction of branch buildings throughout the city. Mr. Stone will go south in time to be present at the banquet which will open the campaign and he will address several meetings of business men before his return to Portland. Los Angeles is one of the strongest Y. M. C. A. cities in the country.

FLEET ASKED TO ATTEND

Order for Warships at Rose Festival Is Requested.

A request was sent to the Secretary of the Navy yesterday, by the trustees of the Portland Chamber of Commerce, that he order the Pacific Coast fleet to visit Portland the week of the Rose Festival. It was pointed out that the trip is a step on the depth of water being ample. Rear-Admiral Chauncey Thomas has charge of the fleet, and it is believed that he will have considerable to say in granting or denying of the request. It is known that the fleet will be at the mouth of the Columbia in the festival season.

Many Americans prefer beer in a light bottle. Most brewers follow the course of least resistance. Light starts decay even in pure beer. Dark glass gives protection against light.

The first Schlitz was brewed in a hut over 60 years ago.

Uricsol NOT ONLY CURES ALL FORMS OF RHEUMATISM, BUT IT DOES WHAT NO OTHER REMEDY HAS EVER ACCOMPLISHED—IT DISSOLVES AND ELIMINATES DEPOSITS IN THE JOINTS, WHERE THEY HAVE ACCUMULATED FOR YEARS. IT ACTUALLY RENEWS YOUTH!

A Groceryman Cured. Atlanta, Ga., Nov. 6, 1902. Uricsol Chemical Co., Los Angeles, Cal.—For the benefit of suffering humanity, I desire to state that I suffered severely with Muscular and Sciatic Rheumatism for five years. During this time I tried various of so-called remedies, as well as the prescriptions of several physicians, which afforded me very little, if any relief. The pain in my back, hips and legs was agonizing and almost unbearable. I could hardly walk and thought I would be obliged to abandon all business.

A friend of mine advised me to try URICISOL, which I did reluctantly, and greatly to my surprise one bottle cured me of my ailment. I cheerfully recommend it to all who suffer as I did. It is also a very fine Tonic. It increases the appetite, aids digestion and builds up the general health. You can use this if you think best. Very truly, W. B. DELOACH, 211 Auburn Ave.
