

PARTIAL VETO IS CAUSE OF ANXIETY

Idaho Fears Governor's Act May Invalidate Appropriations in Entirety.

UNIVERSITY IS AFFECTED

Other State Institutions Menaced. Says ex-Governor McConnell, by Arbitrary Scaling Down of Amounts Allowed.

Idaho is laboring under the impression that Governor Hawley has invalidated the legislative appropriations for its educational institutions to such an extent that all funds now being drawn from the state treasury for maintenance are illegal...

Right of Reduction Questioned. "If he can cut and slash to suit his own opinion he has ample authority to make the laws of the state. Not only did he do this with the university, but he did the same with the Academy of Idaho, Lewistown State Normal school, Albion State Normal school, Insane Asylum at Blackfoot and the Northern Idaho Insane Asylum.

When my attention was called to the act of the Governor in cutting down the items of the appropriation bill I wrote a letter to the Secretary of State, Wilfred L. Gifford, making inquiry with regard to it and I received a reply saying that the appropriation bill was signed with this wording: "The bill received by the Governor on the 4th day of March, 1911, at 11:30 P. M., and approved on 14th day of March except as to items disallowed and disapproved as a whole and allowed in part as shown in the annexed message."

Position Declared Unique. "I wrote to the Governor regarding the position he had taken and asked if he could explain upon what theory he acted as he did. He answered by saying: "As to the right of the Governor to scale down appropriations, I consider it an open question. Under a constitution similar to ours, the Supreme Court of Pennsylvania has affirmed the right of the Governor to do this, so far as the legislative enactments are concerned the court holds that he is a part of the law-making power. While this decision is a very high court is not binding upon us here, and while I doubt very much whether our Supreme Court would affirm that doctrine, I concluded it would be better to follow such a rule than to strike out any appropriations in their entirety or to call a special session of the Legislature. I apprehend no difficulty on this score, however, as the courts would undoubtedly hold the entire item was disapproved if it were contained before them that the Governor did not have the right to reduce."

This is certainly a unique position for the Governor to take in a form of support of committing an illegal act is based upon the fear of the friends of the university to raise the question in the courts. In other words, the friends fear they will lose what little the Governor allowed of the appropriation should they go to the courts. The Governor with a frankness that might be admirable in any other situation admits that he did wrong and naively suggests in substance, if not words, "what are you going to do about it?"

POWER SITES ASSESSABLE

Washington Tax Commission Gives Ruling on Important Matter.

OLYMPIA, May 1.—(Special.)—Power sites in Washington are assessable says the State Tax Commission in a formal letter to the Assessor of Klickitat County. The Assessor wrote in to the effect that he could find nothing tangible to assess although there are many undeveloped water sites held in the White Salmon and Klickitat valleys.

"Water power is not assessed as a water power, but 160 acres of land which has upon it a very desirable and valuable water power and which makes that 160 acres of land worth from four to 40 times as much as the adjoining 160 acres of land, should be assessed at from four to 40 times higher than the adjoining 160 acres," writes the Tax Commission.

This means that the holders of water sites must develop them or pay a high tax for the privilege of retaining them in Washington. Up to this time these rights have been assessed in taxation for the reason that the Assessors were able to find nothing to levy upon, but the Tax Commission has straightened the matter out.

OREGON "U" WINS SHUTOUT

Washington State College Team Goes Down to Hard Defeat.

UNIVERSITY OF OREGON, Eugene, Or., May 2.—(Special.)—Six runs driven in during the seventh and eighth innings won by a 6-0 score for the University of Oregon the first game of the second series against Washington State College, played here today.

Annunzio began the scoring in the seventh, driving a two-bagger to left field with two men on bases. A wild throw by the Washington left fielder made it possible for him to stretch his double into a home run. The other three points were scored in the eighth. Jami-

son, pitching for Oregon, shut out the Washington team, striking out 13 and allowing only four hits. Patton pitched a consistent game for Washington and, barring the errors that let in the runs for Oregon, was well backed by his team. The brilliant features of the game were the flawless work of Word and Annunzio for Oregon and second and shortstop, respectively. The second game will be played tomorrow.

NEGRO HEAVYWEIGHT DEAD

Hank Griffin, Who Got Decision Over Johnson, Succumbs to Fever.

ANN ARBOR, Mich., May 2.—(Special.)—Hank Griffin, a well-known negro heavyweight pugilist, died at his home here yesterday after an attack of typhoid fever which lasted nearly a month. Griffin who was 41 years of age, had been conducting a school of instruction in boxing and gymnastics in Ann Arbor.

He was best known for his battles with Jack Johnson and Jim Jeffries. Griffin had three fights with the present

CHIEF CLERK OF STATE SECRETARY WHO HAS RESIGNED

H. H. Corey.

SALEM, Or., May 2.—(Special.)—Chief Clerk H. H. Corey, who has resigned under Secretary Ben W. Olcott, is planning to make an active campaign for election to the office to succeed Mr. Olcott. He is a resident of Baker and has been employed in the Secretary's office for a number of years. Mr. Corey, in his younger days, was employed in a saw mill and engaged in other kinds of laborious occupations. He is married and is the father of four children.

Mr. Olcott stated today that he has not decided who shall be the successor to Mr. Corey.

heavyweight champion, getting a decision over Johnson in 20 rounds on one occasion and later drawing in 15 and 20 rounds.

SEWAGE LAWS NEEDED

STATE HEALTH OFFICER SAYS WILLAMETTE OPEN SEWER.

Scarcity of Fish in Lower River Due to Fact Water So Foul They Cannot Survive in It.

EUGENE, Or., May 2.—(Special.)—Declaring that the Willamette River is an open sewer, and that there must be immediate legislation forthcoming to prevent the depositing of unpurified sewage in it, Dr. Calvin S. White, State Health Officer, created a mild sensation in an address delivered before the Municipal League Monday night.

Dr. White stated positively that the scarcity of fish in the lower river is not due to the fact that they have been caught, but in because the water is so foul that they cannot survive in it, and in support of this statement he pointed out a number of Eastern rivers where the fishing industry has been completely destroyed by city sewage.

In addition to legislation, Dr. White stated that the need is imperative for the establishment by the river cities of plants for the purification and disinfection of their sewage.

Electrolysis was suggested by him as the cheapest and most efficient means to this end, and he urged upon the city the necessity of unifying its sewer system in such a way that the discharge could be made through a single outlet, thus preventing the necessity of duplication of disinfecting plants.

According to Dr. White, the foul condition of the Willamette River is a menace to the health of the entire Valley, and the betterment of the condition of its waters is a matter of state-wide interest.

PANAMA FILMS FEATURE

Star Theater Will Show How Labor on Canal Progresses.

At the Star Theater today will be exhibited for the first time the great picture "Panama in 1911." This was shown privately at the Press Club in Portland, Newberg, Independence, Eugene, Salem and other cities in the Willamette Valley. The meeting will be held under the auspices of the Yamhill Auto and Commercial Club's Good Roads Association, the purpose being to complete plans for an active campaign for the building of good roads throughout this section as far north as Portland.

One of the first stretches of roads it is planned to improve lies in the west end of Washington County, running between Rex and Tigardville. This is a connecting link between the system of good roads in Multnomah and Yamhill counties, and is considered one of the worst pieces of road between Portland and the Upper Willamette Valley. It has received but little attention from Washington County for the past decade for the reason that it passes through a sparsely settled district and does not lead to the important trade centers of Washington County.

The people of that county have become interested in the movement to improve that road, and it is announced that they will give the project strong support. Surveyors are now at work estimating the cost of the proposed improvement. The Yamhill County road enthusiasts have been active the past week in soliciting funds and have more than half of the money needed already subscribed.

"This is one of the most important better road movements that have been started," said George E. Waggoner, president of the new organization. "We are meeting with much success in raising funds and I have no doubt that we will have the money available within the next few days to meet the entire cost of rebuilding the eight-mile stretch of road in Washington County. That county will appropriate about one-third of the amount necessary to build the road. We also have assurance of assistance from the Portland Automobile Club and the Oregon Association for Highway Improvement."

"The Carroll bill has yet to be negotiated by the House for concurrent action and must be signed by Governor Deeney before it goes upon the statute books.

CITY MAY SEE FIGHT FILMS

If Carroll Bill Passes Ban on Pictures in Chicago Will Lift.

CHICAGO, May 2.—(Special.)—The revival of boxing in Chicago, if it comes, will raise the ban from prize-fight pictures, in the opinion of Mayor Harrison, who will have to pass upon that proposition. The passage of the Carroll bill by the State Senate yesterday, legalizing six-round bouts, brought the question up in City Hall circles today. Incidentally, Chief of Police McWeeny declared in favor of the boxing game.

The Carroll bill has yet to be negotiated by the House for concurrent action and must be signed by Governor Deeney before it goes upon the statute books.

PORTLAND MEN TO ATTEND WOODMEN ARE GATHERING

Washington State Convention Is Well Attended at Tacoma.

TACOMA, May 2.—(Special.)—Wearing the red, white and green ribbon of the Modern Woodmen of America, between 1500 and 2000 delegates, representing almost every camp in the state of Washington, will assemble in Tacoma tomorrow and Thursday in a two-day state encampment, which promises some interesting features both to the Woodmen and the general public.

KLAMATH FALLS, May 2.—(Special.)—The steamer North Star, owned by Burk Wilson, burned to the water's edge on Upper Klamath Lake, Sunday night. The fire is believed to have been incendiary as no one was on the steamer at the time it caught. When the fire was discovered, the ropes holding the steamer to the dock had been burned in two and the craft was drifting out into the lake. She was valued at about \$2000 and was used for freighting. There was no insurance.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in convenient and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English, or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, cloth-bound, sent for 31 one-cent stamps, to cover cost of wrapping and mailing only. Address: Dr. R. V. Pierce, Buffalo, N. Y.

CHANGE GIVEN CONVICTS

WEST PLANS EMPLOYMENT IN STATE INSTITUTIONS. Saving of \$200,000 Annually and Opportunity for Reform Urged in Consideration.

SALEM, Or., May 3.—(Special.)—Another new prison policy was announced by Governor West today. Convicts are being sent gradually to the various state institutions to act as employees. In this capacity they will be unguarded and will have virtually the same privileges that are extended to the other employees. They will probably be paid 25 cents a day as spending money or to be placed to their credit against the time of their release.

"If 100 men at the prison can be placed at some employment which will be of value to the state, a great saving can be made," said the Governor. "Estimating the labor of these men as valued at \$2 a day, it would mean a saving of nearly \$200,000 annually."

"I am now working on plans whereby I hope to accomplish just this thing and place at least 100 men at work. A new contract with the Loewenberg & Going Company will make such a move possible and I believe it can be accomplished."

"In the meantime as many men, as I can possibly find room for will be placed at the institutions and have decent labor to perform. I am satisfied under the conditions that they will need no guard and will be on a quicker road to reform than under the former system."

Hilarious Travelers Quelled.

Harbormaster Speler saved passengers on the steamer Bear from annoyance yesterday by ordering into custody two unruly travelers destined for California, well laden with intoxicants. It required the persuasive powers of Policeman Grism to subdue the roustabouts and instead of heading downstream they received transportation in

WHAT ORVILLE WRIGHT SAYS

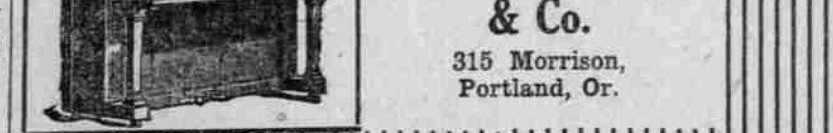

ABOUT AIRSHIPS

Is conclusive—it is the opinion of an expert.

What Josef Hofman says about Pianos is equally convincing. It is the judgment of a master. Listen to what Hofman says about the Steinway:

"Only when I play on the Steinway do the critics, musicians, and the general public comment on the beautiful singing qualities of the Piano."

Pianos of All Makes Taken in Exchange. Sherman, Clay & Co. 315 Morrison, Portland, Or.
