the Democratic candidate.

With ten Republicans seeking the nomination of Councilman from the Seventh Ward, the result was in doubt until the vote was counted. Allan R. Joy, who received the nomination, has resided in the ward from which he was nominated 17 years. He is a lawyer and last year took an active part with Judge McGinn in opposing on the stimp all Assembly nominess. The race for the Republican nomina-tion for Councilman from the Eighth

"WHALEN DAY" PLANNED

CURTIN WOULD GIVE PER-CENTAGE TO PITCHER.

Jimmy's Leg Is Broken in Four Places and Ball Magnates Will Assist Little Player.

SAN FRANCISCO, May 7 .- (Special.) —if Bill Curtin, one of the owners of the Sacramento club, has his way, there will be a Jimmy Whalen day all over the Coast League circuit at some time in the future, when a stated per-

centage of the receipts will be given to "De Whale," who is helplessly crip-pled and in need of assistance. Curtin believes that the scheme of giving a percentage of the receipts of one of the regularly scheduled games will be a far better plan than to have a benefit wame on some Monday aftera benefit game on some Monday after-noon. To that end he has addressed telegrams to the directors of the league.

"Jimmy Whalen is badly crippled," said Curtin, "and I made the trip to San Francisco particularly to talk over this matter. His leg is broken in four places and the doctors hardly knew where to start in on him. He knows nothing else but baseball and he gave up his best years to the Pa-cific Coast League."

been taken out many times.

It is doubtful whether Lane could be forced into the The general impression is that the only reason Lane did not go into the primaries for the Democratic nomination was because, if Rushlight would be named by the Republicans, he, if selected by the Democrats, would be averse to opposing Rushlight in the election. Had Rushlight been defeated in the primaries there exists a strong uspicion that Lane would have agree to run against either Lombard or Wer lein as an independent. Now that Rushlight has been nominated it is not believed Lane could be induced to run.

PORT WAR COMPLICATED

CONSOLIDATION OF ORGANIZA-TIONS IS FAVORED.

Commercial Club's President Is Among Advocates of Concentration of Waterfront Authority.

Consolidation of the Port of Port-land and the Dock Commission under one head is favored by a number people and may be accomplished after the legal controversy now being made between the old and new Ports of Portland is decided.

Harry Beckwith, president of the

Portland Commercial Club, said yester-day that he believed the plan of con-solidating the two organizations should receive the serious consideration of the public, as more could be accomplished by the concentration of authority on lines so much related as are the Dock lines so much related as are the Dock Commission and the Port of Portland. Judge Munly, who has taken an active interest in the organization of the new Port of Portland, said he be-lieved the consolidation of the two organizations could not be accomplished until the amendments to the constitu-tion that enter into the legal con-troversy over the Port of Portland have en finally interpreted by the State Supreme Court,
"It seems to me to be a proper thing

to combine two organizations with work so much in common as the Port of Portland and the Dock Commission." said Mr. Beckwith. "The success of al-most any business project is the con-centration of effort and this, I think, should apply as well to municipal af-fairs as to private affairs. There can be no harm, at any rate.

in having the matter seriously con-sidered. I think the public should look into the suggestion thoroughly, with a view of making the consolidation, if found practicable."

It is contended by the old Port of Portland that the constitution of the state, as amended within the last few years, prevents the Legislature from governing it, and that it is to be considered as a municipal organization, subject to the initiative of the voters within its boundaries. If the Supreme Court holds this view of the law, then it will be left entirely to the voters it will be left entirely to the voters of the Port of Portland and the City of Portland to determine if the Port shall be reorganized, or consolidated with the City Dock Commission. Should the Supreme Court decide that the Port of Portland is under the direc-tion of the Legislature, then it cannot be consolidated with the Dock Commission until some future session of

Young Mothers

No young woman in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both she and her coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby too is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. RULING AFFECTS STATE

DECISION OF JUDGE KELLY WOULD REDUCE REVENUES.

He Holds That Foreign Corporations Can Bring Suit in This State Without Paying License.

SALEM, Or., May 7 .- (Special.)-A question of prime importance to the collection of indirect revenue for the state has risen here, following the ruiing of Judge Kelly, in the Circuit Court, to the effect that foreign corporations are not required to pay a state license fee to maintain a suit in Oregon. This opinion was given in the case of Foley & Co. vs. Rutherford & Doc.

Under the ruling foreign corpora-tions doing an interstate business are affected and the court holds that the law of 1907 is in contravention to the Federal Constitution, as it interferes with interstate business.

with interstate business.

Should the lower court be affirmed by the Supreme Court, it means that it will be unnecessary for any corporation engaged in an interstate business to pay its license fee, as attorneys state that practically the only reason that foreign corporations pay such license fee is to give them, wight to make ee is to give them a right to mainusands of dollars in fees from foreign corporations are annually re-ceived by the state and these will be

lost if the higher court interprets the law in the same light as the lower court. Justice Burnett, of the Supreme

Court, when he was on the bench of the Circuit Court in this district, passed

on practically the identical point as Judge Kelly, but took an opposite view. The number of climpers killed in the Alps from October 31, 1909, to October 31, 1910, was 90, while 80 other climbers were seriously injured.
