

GIBBONS OBSERVES GOLDEN JUBILEE

Catholics Do Honor to Prelate on Fiftieth Anniversary of Priesthood.

COAT OF ARMS PRESENTED

Cardinal Urges All Citizens to Uphold Government and Give Thanks for Liberty Without License He Enjoys.

NEW YORK, May 10.—In the manner observed at Rome, six pages in uniform, bearing lighted torches, met His Eminence, Cardinal Gibbons, at the doors of the Catholic Club here tonight, and escorted the distinguished prelate to the grand ballroom, where he was welcomed by a large gathering of leading Catholics.

The occasion was the golden jubilee of the prelate's ordination to the priesthood and the silver jubilee of his elevation to the cardinalate. A coat of arms carved in basswood, five by four feet, and set in a gold frame, was presented to the cardinal by friends of the Priest community. The shield was designed by William Laurel Harris, of the Paulist fathers, and is said to be the first of its kind attempted by an American. It is an elaborate production of the design recently adopted by the cardinal as a prince of the church.

No Citizen Should Be Drone.

Archbishop Farley, supreme council; V. J. Dowling and F. K. Canno, president of the club, delivered welcoming addresses.

"No citizen should be a drone in the social beehive," Cardinal Gibbons said in his response. "No man among you should be an indifferent spectator of the moral, political and economic questions which affect the welfare of the commonwealth."

"As you are well protected in your life and property by the strong arm of the Government, so should you all be united in upholding the hands of the officers who are charged with the administration of the commonwealth."

American Liberty Praised.

"Thank God, we live in a country where there is liberty without the toleration of license and authority without despotism, and where the Government holds over us the wings of its protection without interfering with the individual right of conscience."

The remarkable growth of the Catholic Church in America was outlined by Judge Dowling. In 1861, he said, the church had but two bishops and 69 priests, while today there are 13 archbishops, 79 bishops, 17,984 priests, 12,441 churches and a membership of 18,000,000.

CHEHALIS CLUB IN HOME

New \$4000 Rooms Dedicated With Big Housewarming.

CHEHALIS, Wash., May 10.—(Special.)—Last night was a "red-letter" occasion in the history of the Citizens Club of Chehalis. The new \$4000 club rooms were dedicated with a housewarming that attracted an attendance of 115 business and professional men and other citizens of the town. The Chehalis orchestra furnished music during the evening and there was a clever vaudeville sketch given. E. T. Duffield sang a solo. The regular programme included an address of welcome, by President A. A. Hull; an address on "Things in General," by Vice-President A. E. Judd; "History of the Citizens Club," by Dan W. Bush; "The Relation of the Citizens Club of Chehalis to the Southwest," by Secretary J. E. Barnes; and "The Relation of the Citizens Club of Chehalis to the Northwest," by Secretary J. E. Barnes; "Laying Foundations," by Dr. G. W. Kennicot.

The club has more than \$8000 in sight with which to pay for its new quarters and carry on its work during the coming year. Friday evening will be given over to the fair sex, when the trustees and their wives will receive all the members and their wives, and the women of the city in general at the new quarters.

MAN OF MYSTERY IS DEAD

California Woman Denies Pendleton Carpenter Is Brother.

PENDLETON, Or., May 10.—(Special.)—A man of mystery lies dead at a local undertaking parlor with the secret of his past life unrevealed while a woman in Santa Rosa, Cal., alleged by him to be his sister, denies his identity. The man was a carpenter, gave the name of Green and had been employed here for some time.

To none did he confide his secret, which apparently preyed on his mind and caused him to welcome death. Just before the end he requested his nurse to notify his sister, Mrs. Albert O. Erwin, of Santa Rosa. This was done and the woman replied that she had no such brother. Among his effects was an unmailed pathetic letter to Mrs. Erwin in which he repeatedly referred to his past life and the disgrace he had brought upon his family. He spoke of his endless search for a refuge from the past, which relentlessly pursued him. A picture and complete description have been sent to the supposed sister in the belief she will yet be able to identify him as her brother.

DECALOGUE IS PLATFORM

Christian Party Asks Congress to Make It Basis of Laws.

WASHINGTON, May 10.—The decalogue and the golden rule as standards for laws and government are recommended to Congress in a joint resolution prepared today by Representative Pepper, of Iowa, at the request of the Christian party.

Arizona Official Shoots as He Dies.

BIRREH, Ariz., May 10.—Deputy Sheriff Frank Trask was killed last night at Benson by an unidentified man whom he was attempting to arrest. As he fell Trask drew his revolver and fatally wounded his assailant.

CLASS TO BE FIXED

Western Railroads to Settle Many Points in Rates.

RATINGS MAY BE REDUCED

Western Classification Committee to Meet in July and Settle 1000 Doubtful Points in Class or Other Details.

CHICAGO, May 10.—(Special.)—One of the most important classification meetings ever held is to take place in July, it was announced today, when the Western classification committee will convene in Milwaukee to revise the schedules in Western territory. This will be the first meeting held since that of January, 1910, in San Antonio, Texas.

Though usually a meeting is held every six months, those of last July and January were postponed on account of the unsettled condition prevailing because of the freight rate controversy and packing requirements. In the Summer and it is stated that already about 1000 subjects are on the docket, while new ones are coming in daily. On July 11 a preliminary hearing will be held in Milwaukee to hear the representations of shippers and the public and also points on that the railroad men's deliberations being disturbed by frequent calls from their own offices.

As most of the petitions being received are from the shipping interest, it is expected that a majority of subjects on the docket will involve reductions in ratings or changes in descriptions or packing requirements. In the 18 months since the last meeting, also, many new articles have been added to commerce and specific ratings will be sought for these, which have been handled until now by analogy with articles already classified.

SIX CHINESE ARE GUILTY

PRACTICING MEDICINE WITHOUT LICENSE CHARGE FILED.

Jury in Judge Morrow's Court Convicts Half-Dozen Orientals Following Municipal Court Action.

Six Chinese doctors were found guilty of practicing medicine without a license by a jury in Judge Morrow's court yesterday.

The Chinese were first convicted in the Municipal Court. Before the trial began, in the Circuit Court, it was agreed between them and the District Attorney that the case of the state against Chong Wong Wo, one of the convicted, should be used as a test case, and if the jury should find him guilty or innocent of the charge against him, the same verdict should be considered applied to five other Chinese who had been convicted in the Municipal Court for that offense.

In the order of the court, in which it is stated that Chong Wong Wo is to be sentenced on May 15, at 2:30 in the morning, it is also specified that the other Chinese defendants should be sentenced at the same time. Two men hired by the State Board of Medical Examiners to serve as detectives were the witnesses for the state in the case yesterday. Each testified that he went to Chong Wong Wo, who felt the pulse in each hand, looked at the tongue and diagnosed the case. They paid him for his work and for the medicine he gave them, and he offered to treat them for a specified amount per month. In his own defense Chong testified that he was not practicing medicine, but was conducting a sort of Chinese drug-store, making charges only for

"ANTI-WHITEWASH BILL" IS DEFEATED

Ohio Senate Quickly Turns Down Measure Destroying Immunity.

GOVERNOR INDORSES IT

Although House Passed Green's Bill With Alacrity, Upper Branch Will None of It—More Indictments Are Expected.

COLUMBUS, O., May 10.—The Senate today by a vote of 22 to 22 defeated the Greeves "anti-whitewash bill," which would have annulled the immunity provision of the law for inquiries by committees of the Assembly. This is the measure the House passed hurriedly yesterday.

In the course of the debate, Senator I. K. Andrews, of Ironton, one of those indicted last week, denounced the detectives whose testimonies had brought about the indictments. It is known that the "anti-whitewash bill" had the indorsement of Governor Harmon, who has declared himself as one who is in favor of giving immunity to those willing to testify, or to anyone else for that matter. The Governor is anxious to have a thorough investigation of the charges of bribery against members of the Legislature.

There is some talk among the members of both Houses of trying for a recess of the Legislature for three weeks or until such time as the members under indictment have either been found guilty or acquitted. It is argued that it is improper for the Legislature to enact laws for the people until the bribery scandal has been thoroughly probed.

There are hints of some interesting developments in the grand jury today but no new indictments were returned. It is not unlikely, judging from hints which have fallen from time to time, that the next batch of indictments will contain the names of lobbyists who have paid or furnished money with which to pay money to corrupt Legislators.

SPOKANE TO HOLD PLAGE

NORTHERN PACIFIC WILLING TO MEET FREIGHT-RATE ORDER.

Road Official, However, Declares Inland City Wont Be Hurt in Its Jobbing Center Position.

TACOMA, May 10.—Declaring any reductions ordered by the State Commission in freight rates from Tacoma or Seattle to Spokane would be met by the Northern Pacific in making equal cuts from the East to Spokane, J. G. Woodworth, of St. Paul, traffic manager of the entire system, testified today that nothing, which may result from the present hearing, will be allowed to disturb the position Spokane now holds as a jobbing center in relation to the Puget Sound cities.

Spreading before the Commission an estimate that the Northern Pacific's operating revenue for the fiscal year, ending next June, will show a decrease of between \$5,000,000 and \$9,000,000, compared with 1910, Mr. Woodworth also pointed out that the Railroad Commissions of the six states traversed, and the interstate body, to co-operate in the various efforts at regulation, in order that the stockholders in the line may be protected in their holdings. Woodworth was examined the entire morning and resumed the stand in the afternoon for cross-examination by Attorney J. N. Zeig representing Tacoma and Seattle, two of the cities complaining against present rates.

MINE OWNER SHOT DOWN

DISPUTE OVER PROPERTY BELIEVED CAUSE OF KILLING.

Louis McAllister, of Ochoco Gold Mine, Near Howard, Slain—Man Named Robinson Is Held.

PRINEVILLE, Or., May 10.—(Special.)—Louis McAllister, who has owned the Ochoco gold mine near Howard, was shot and instantly killed yesterday at the mine by a man named Robinson, who is in the custody of the Sheriff. The trouble is said to have been caused by a dispute regarding the mine. McAllister was a large land holding near Sisters, and long had been prominent in the vicinity.

DEMOCRATS WORRY TAFT

(Continued From First Page.) ing the bill "if it had not been for this combination in restraint of trade." The witness contended that the "purpose of the alleged newspaper trust was to monopolize news through the incorporated Associated Press."

Judge C. F. Moore, of New York, for the book manufacturers, characterized the measure as a "sterilized variety of reciprocity that really does not reciprocate."

T. T. Carry, president of the International Brotherhood of Paper Workers, and Bernard Benson, of Kalamazoo, Mich., opposed the bill on behalf of paper mill workers. Guy Cunningham and Thomas Carroll, of Gloucester, Mass., filed a brief in opposition to the bill on behalf of the fish industry. Frank E. Cabell, of New York, on behalf of wire cloth manufacturers, told the committee that they would be seriously injured and the customers, the American paper manufacturers, would lose trade. Annexation of Canada instead of reciprocity with that country was advocated today by George E. Ladd, of the Massachusetts State Grange, in the Senate Finance committee hearing on the Canadian reciprocity bill. Mr. Ladd argued against any trade agreement, declaring, if one were made, it should be by annexation, so Canada might share the burdens of the United States as well as enjoy its benefits. N. P. Hull, master of the Michigan State Grange, presented written protests against the bill, in which thousands of Democratic and Republican farmers pledged themselves never to

vote for any legislator who worked or voted for the agreement. In closing the hearing Mr. Hull referred to a list of the farmers' representatives on President Taft, whose attitude he described as "indifferent," and thanked the Senate committee for its courteous hearings.

FARMERS' CONGRESS OPPOSED

Reciprocity Will Injure American Agriculturists, Says Agent.

CHICAGO, May 10.—John M. Stahl, legislative agent of the Farmers' National Congress, announced today that the alliance, which is represented in its membership in nearly all the important farming states, would oppose reciprocity with Canada.

"Before taking a stand on the Canadian reciprocity agreement," Mr. Stahl said, "the Farmers' National Congress has taken time to investigate all the industrial and economic conditions. There can be no doubt that the Canadian trade agreement would seriously injure millions of our farmers. The prices of grains and farm animals are much less than a year ago. This reciprocity means that nearly all the profits of the farmer have been wiped out."

"The price of hogs on the Illinois or Iowa farm in the last 30 days has been only 60 per cent of the price in the same period of 1910, but the prices of meats to the city consumer are nearly as high as then. The farmer is not the one to strike at because of high prices of foodstuffs to city consumers."

"The proposed agreement with Canada is unfair and unequitable. It will hurt our farmers seriously. And what injures the farmers will lead to injury to others."

The Farmers' National Congress is composed of about 6000 delegates, appointed by the state Governors on the recommendations of agricultural organizations of the various states.

\$2 CASH REGISTER 'COMES

Los Angeles Inventor Patents Low-Priced Contrivance.

LOS ANGELES, May 10.—(Special.)—Oscar Grimm and Julius Schneider were informed today that a patent has been granted them on a remarkable cash register, invented by Schneider. They say that for a long time they have encountered bitter opposition in the Patent Office from owners of patents under which the present high-priced registers are made. Schneider's invention is simple and differs from any one in the market. Brass checks, indicating the amount of purchases, are inserted, and operate as a key to open the cash drawer. The amount of each check is indicated until the next one is inserted. The checks travel to a drawer separated from the cash, which can be opened only by the proprietor's key. It is asserted the register can be manufactured for less than \$2 and that it will do the work of machines that now cost 50 times this amount.

Necessity was the mother of this invention, Schneider devised it for use in his barber-shop because he could not afford an expensive machine. He insists that fewer mistakes are made with it than with the costly registers.

BAKER, Or., May 10.—(Special.)—At a meeting of the board of directors of the Commercial Club W. A. Harmon was elected president of the organization to succeed F. B. Bodinson. E. F. Cranston was elected vice-president, Senator C. C. McCullough secretary, and R. H. Wallburn treasurer.

Methodists Discuss Unity.

CHATTANOOGA, Tenn., May 10.—The joint commission of the three great branches of Methodism that is in session here considering plans for unionization of the denomination today examined different proposals for federation offered by a sub-committee.
