

WASHINGTON HIGH ATHLETES BEST

Portland Wins Interscholastic Track Meet at University Town.

PENDLETON TAKES SECOND

Dayton School Carries Off Third-Place Honors, With Salem and Oregon City Boys Following.

UNIVERSITY OF OREGON, Eugene, May 12.—(Special.)—Washington High School of Portland, with 24 points to its credit, won the finals in the interscholastic field meet today, and will carry home the two trophy cups offered by the Sigma Chi and Beta Theta Pi fraternities.

Washington finished far in the lead of its two closest competitors, Pendleton and Dayton, which had 19 and 15 points respectively.

The weather cleared in the afternoon and the track soon hardened into good condition so that the time in all the finals was much faster than it had been in the preliminaries in the forenoon.

Portland Academy Beaten.

The best event of the day was the relay in which the Pendleton team won by a short yard from Portland Academy, carrying off the Sigma Nu cup and the relay medals given for the last time by the Beaver Club.

Medals for three places in each of the events were given by the various clubs and fraternities and a pennant for each of the competing teams was donated by the women of the different societies of the varsity.

Excepting Dayton and Pendleton, which won third and second respectively, the great majority of the points were carried away by teams from the high schools and preparatory schools of Portland.

Preliminaries on Heavy Track.—The preliminaries were pulled off here this morning, with the exception of the distance races which were deferred until afternoon.

LONG RELAY IS TODAY

Y. M. C. A. AND CHEMAWA RUNNERS WILL CLASH.

PORTLAND BOYS WHO WON IN ALL-OREGON TRACK MEET YESTERDAY AT EUGENE.

Crickmore, W. H. S., Sprinter. Wilson, W. H. S., Miller.

SEATTLE HAS FLOAT

Sculptor Completes Model for Rose Festival.

GOLDEN POTLATCH SHOWN

Finn H. Frolich's Design Is Symbolical Representation of Arrival of First Gold-Laden Ship in Sound From Alaska.

SEATTLE, May 12.—(Special.)—Planning a decorative float to add to the beauties of the Portland Rose Festival parade, the Seattle carnival association in charge of Seattle's first Golden Potlatch '97, July 17 to 22, today sent Finn H. Frolich, sculptor and designer to Portland.

Mr. Frolich did a large part of the designing and decorative work at the Alaska-Yukon-Pacific Exposition, and he has made a design which promises to be one of the prettiest creations in potlatch pageants, the idea being to bring the float to Seattle for the Potlatch after it has been used in the Rose Festival parades.

The design portrays a Seattle in an idealistic state as the Queen City. In one hand the statue bears a replica of the steamship Portland, gold-laden from the North, and in the other a horn of plenty from which golden nuggets are dropping.

Seated on the edge of the float and around this idealistic statue will be live figures—pretty women modestly gowned, who, as the float passes through the crowds which throng the line of march will throw handfuls of miniature Potlatch nuggets from horns of plenty to the people.

CONTRACTOR WANTS FURNITURE AND HIS WIFE.

Tacoma Man Begins Action for \$10,000 Damages and Has Exciting Time.

TACOMA, Wash., May 12.—(Special.)—Isaiah Polier, a contractor, alleges that John J. Gilmore not only stole his wife during his temporary absence in Vancouver, B. C., but all the Polier furniture as well.

Returning from Vancouver recently to find his wife gone and their home at 223 East Twenty-eighth street dismantled, he says he finally learned that she was with Gilmore.

Water from Selo's city plant has been piped to the grounds and during the dry season part of the grounds is to be kept sprinkled that the grass may be green for the fair.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses.

URICOL THE CONQUEROR OF RHEUMATISM

If you have tried every other known remedy for rheumatism do not despair. You still have Uricol, the practical certainty of CURE, and the absolute certainty of material and lasting benefit to fall back on.

Records are in our possession of not one but many cases where the joints of the fingers were so thickened as to be practically useless; where the hip or the knee joints were so filled with the deposits as to render the victim wholly unable to walk; yet the patients were completely restored to health and activity by the systematic use of Uricol.
