

PEACE IN SIGHT, DECLARES MADERO

Insurrecto Leader Expects Diaz Government to Make Reply Today.

MEN HOLD CONFERENCE

Provisional President Gives Im- pression That If Federal Govern- ment Does Not Accede, War Will Be Prosecuted to End.

GUAYMAS, Mex., May 15.—Provisional President Francisco Madero, Jr. at the conclusion of a conference with Judge Carbajal, the Federal peace envoy, at 9:30 o'clock tonight announced that there was a strong probability that peace would be restored in Mexico within a short time.

Judge Carbajal brought some propositions which Madero and I made some modifications in our original proposition. These concessions, slight though they may be, were made to show our willingness to meet the government half way.

Senior Madero declared that he would have another conference with Judge Carbajal tomorrow night by which time the latter will have received a reply from Mexico City to the propositions discussed with Senior Madero today. Senior Madero admitted that the next move was up to the government but he talked as if tomorrow would bring a reply from the government that would end the revolution.

There was evident, on the other hand, a determination to prosecute the war should the government refuse to accede to his wishes. The impression that the matter had reached the point of an ultimatum and that the die would be cast tomorrow.

CARRAL LETS RAILROADS RUN

Cananea Holds Celebration and Rebel Leader Makes Promises.

CANANEA, Sonora, Mex., May 15.—Epes Randolph, manager of the Mexican lines of the Southern Pacific, was given assurance today by Senior Carral, the rebel leader, at a conference in Del Rio that the railroad lines would not be molested further provided they did not transport federal troops. Carral said that as soon as the lines were repaired he would have them repaired if necessary.

A great celebration was held today, 1000 citizens marching to the plaza. A. Guadalupe, the new judge of the first instance, urged them to give support to their officials, adding:

"If they don't do their duty, this revolutionary army will replace them with others who will."

When he asked if each man would appoint himself a special officer to see that there were no disorders, the crowd answered with an affirmative yell. Carral himself issued a signed manifesto declaring that the insurrectos intended to show the world by their conduct and a fair application of the law. He sent a set of officials to Nasa today to reopen the customs-house and establish provisional government. G. M. Bernstein, of Cananea, will be collector of the port.

FEDERALS QUIT HERMOSILLO

Evacuation Leaves Garrison at No- gales Hopelessly Cut Off.

HERMOSILLO, Mex., May 15.—Hermosillo, the capital of the State of Sonora, was evacuated today by the federal troops.

General Luis Torres, military governor of Sonora, departed on a special train with the garrison of 500 men for Guaymas.

Eight hundred rebel Yaqui and several insurrecto bands from Pinar and districts to the south and west are outside the city. These are expected to enter the abandoned capital before night.

Rebels advancing on Hermosillo evidently were not expecting the federal evacuation, and Governor Torres and his troops reached Hermosillo at the scene of rebel activity in this vicinity without having been attacked. The evacuation of Hermosillo leaves a federal garrison marooned in Nogales and hopelessly cut off. This is now the only federal force in all Sonora, from Yaqui River north to the American line.

Oroco Pledges Loyalty.

GUAYMAS, Mexico, May 15.—In a letter eloquent in its expression of loyalty to Provisional President Madero, General Pascual Oroco today denounced the reports of his encounter with the Provisional President last Saturday as greatly exaggerated and the work of "our political adversaries." General Oroco assured Senior Madero of the continued fealty of himself and his men.

WOMEN READY FOR BATTLE

tion of the convention. Accordingly, at the time selected, Mrs. Waters advanced to the front of the platform and, facing an auditorium in which there was not even standing room, announced she had decided upon its absolute constitutionality.

The wild applause from the suffrage contingent indicated that they regard it as the first victory. The troubled waters were thus temporarily smoothed, but what the real storm tomorrow will bring forth no one can tell. It may even mean the disruption of the great organization of women.

Three Towns Represented at Altar.

VANCOUVER, Wash., May 15.—(Special.) Judge McMaster, of the Superior Court, today performed a double wedding, the principals being from Chicago, San Francisco and Portland. Edward McCarron, of Portland, married Miss Alma Bergnes, of Chicago. Ernest Sigmund, witness, being from San Francisco. Ernest C. Sigmund, the witness, then married Miss Anna Marks, of San Francisco.

Dynamite Wrecks Flat Building.

CHICAGO, May 15.—An explosion partially wrecked a three-story flat building at 771 Banker street early today, and drove 22 families into the street. Windows were shattered for blocks around, and a large section, thickly populated by Italians, was terror-stricken. Labor difficulties are believed to have been at the bottom of the explosion.

REBELS TO MARCH

Peace Negotiations Forgotten in Thirst for Battle.

MANY RECRUITS GAINED

Troops May Set Out From Juarez Today, First to Capture Chihuahua and Then to Storm Mexi- co City—Federals Alarmed.

CHIHUAHUA EXPECTS SIEGE

Rebel Army of 2000 Approaches and Rahago Is Cut Off.

CHIHUAHUA, Mexico, May 15.—This city now is in fear of immediate attack and many citizens feel that resistance is hopeless. The 2000 insurrectos approaching from the south today reached Escalacion, a few miles below Jimenez, tearing up the railroad to prevent pursuit.

The federal troops south of here all are retreating to this city, having found it impossible to stem the onward march of the insurrectos.

An armed train filled with federal troops, which went south to open the railroad, returned with the report that the enemy were in overwhelming numbers and to attack from the train would have meant annihilation.

It is believed the insurrectos will attack the city in conjunction with part of Madero's forces to be sent from Juarez. The 1500 federals here are regarded as being effectively bottled up. General Rahago's 400 men, who returned here by an insurrecto band which came in behind him. The only way federals can be reinforced might be brought in from Monterey, after ten days' march.

The situation in the city is becoming more desperate daily. Supplies are scarce. All train and telegraph communication has been cut off for two weeks. The Associated Press correspondent found it impossible to open up communication to El Paso by a series of relays connecting with Casas Grandes. Governor Ahumada today issued an order forbidding the removal from the city of any provisions, despite the scarcity of many surrounding mining camps.

BOURNE TO EXPLAIN

Oregon Senators Must Give Objections to Colwell.

STATEMENT IS DEMANDED

Mere Fact That Confirmation of United States Marshal Is "Ob- noxious" Is Not Enough for Senate Committee.

OREGONIAN NEWS BUREAU, Wash- ington, May 15.—The Senate judiciary committee today gave consideration to the protests of Senators Bourne and Chamberlain against the confirmation of Elmer H. Colwell as United States Mar- shal for Oregon, and decided, before making a report, to request both Sen- ators to set forth explicitly grounds on which they base their objections to Col- well.

CORPORATION BOOKS OPEN

Supreme Court Says They Must Be Produced in Evidence.

WASHINGTON, May 15.—The Supreme Court of the United States today approved the recent sentence for contempt imposed in the New York courts against Christopher C. Wilson, president of the United Wireless Telegraph Company, because of the refusal to permit examination of the books of the company. By this decision the Federal Government won a far-reaching legal battle, in that officials of corporations cannot refuse to give up possession of corporation books for examination by grand jurors, lest they themselves be incriminated thereby. In 1910 a subpoena addressed to the United Wireless Telegraph company and not to any individual, as is usually the case, was served on an official of the company, directing that certain books of the company be produced for examination by the grand jury, which was investigating "an alleged violation of the statutes of the United States by Christopher C. Wilson."

The value of the output of meats from the 13 establishments in Queens during 1909 was \$1,000,000.

Postal Banks Bettering.

OREGONIAN NEWS BUREAU, Wash-
ington, May 15.—Postal savings banks
West continue to grow in popu-
larity. The bank at Klamath Falls has
moved up into 47th place and now has
dividend accounts averaging \$177.24, in-
total deposits aggregating \$68.11 each.
The Olympia bank, in Washington, has
moved up \$18.44 each. While at Cou-
dairville, there are 76 deposits ag-
gregating \$331. The Klamath Falls bank
is way behind others in the Northwest
and progressing less rapidly than those
in Washington and Idaho.

SUTTON HOLDS TONGUE

ARCHITECT SILENT IN CONTRO- VERSY OVER CHILDREN.

Hood River Man Prefers to Let Former Wife Do Talking About It, He Says.

HOOD RIVER, Or., May 15.—(Special.)—Albert Sutton, whose former wife, from whom he was divorced in 1908, has since been married to a San Francisco real estate man, admits that he has received orders from the Superior Court of California to produce in the courts of that state the children of his former marriage, who are with him here.

However, Mr. Sutton refuses to make any statement as to his domestic troubles or relative to his plans of action. He merely said: "I prefer to let all of the talking come from the San Francisco end of the line."

Mr. Sutton was a prominent architect in San Francisco and a member of the firm of Sutton & Weeks, one of the best prominent of that city. They built the large warehouse of Roebeling & Sons, manufacturers of wire rope, and for a number of years had charge of the construction of the warehouses of the Southern Pacific Railroad Company in California.

The 320 acres of land in the Hood River Valley which Mr. Sutton recently began to develop, and which he sold to him for a number of years. However, he did not build on it until after his second marriage, when he moved here. The family lives in a beautifully designed residence built of logs. A large part of the ranch has been cleared and set to orchard.

Mr. Sutton has become prominent in business circles since he came here and is a member of the board of governors of the University Club and a director of the Commercial Club. He has opened an architect's office and recently was elected to the board of directors of the Apple Growers' Union.

The Sutton family was increased last winter by the arrival of a baby, during which time the girls of the former marriage attended the city schools. However, at the beginning of Spring the latter removed to the ranch.

Mr. Sutton came to ask for more time before he qualified as Secretary of War. He was to have taken the oath of office today or Tuesday, but it was arranged that he should be sworn in next Monday.

Mr. Hitchcock spent only five minutes with the President. The former will go back to Washington tomorrow morning.

I Am Stranded

My house failed. I am stranded here without a dollar. I must sell the contents of my 19 big sample trunk and raise money to pay my hotel bills and get back to New York. My house, which was one of the finest on Broadway, made nothing but men's high-class suits and 63 overcoats in the entire sample outfit, and in order to raise sufficient cash with which to defray my expenses to New York I will sell these garments at 50 cents on the dollar of actual cost of production—a true conundrum for me.
