### Student of Bird-Life Accepts \$2500 Position Tendered by Governor West.

## GOLD HILL MAN SUCCEEDS

### J. Frank Hughes Appointed Member of State Board of Game and Fish Commissioners—J. N. Wisner, of Oregon City Honored.

SALEM, Or., May 23.—(Special.)—J. Frank Hughes, of Hills, was appointed by Governor West today as a member of the State Board of Game and Fish Commissioners to succeed W. L. Finley, who resigned as a member of the board to become State Game Warden, succeeding R. O. Stevenson, of Forest Grove. J. N. Wisner, of Oregon City, has been appointed Superintendent of State Fish Hatcheries. Finley, who has become widely known as a student of birds and one of the foremost members of the Audubon Society, was serving as the four-year term member of the new board. The other four members requested that he resign to take the position as State Game Warden which carries a salary of \$2500 annually. There were 12 applications for the position, but these were all carefully considered by the members and all of them were found to be well adapted for the position.

Members stated that they considered Mr. Finley would be a valuable asset in the position of State Game Warden where he could devote all of his time to the work, and Mr. Finley accepted after a conference with Governor West. The board also reached the conclusion to establish a new office of superintendent of State Hatcheries at a salary of \$2000 annually. This superintendent will work under the Game Warden and the Fish Warden as well. He will have charge of trout and salmon hatcheries, the trout hatcheries being maintained largely from the game fund and the salmon hatcheries from the hatchery fund of the state.

Notification was sent out by the board to all of the mills of the state and others who own dams, fish ladders, irrigation works or other obstructions to streams that an investigation will be made in the near future of such devices or obstructions and the board will determine to what extent the law in this respect is being observed.

### Wisner Formerly With Uncle Sam.

Mr. Wisner has had wide experience in his new position, announced yesterday, having been in the "Government service" for many years. His activities have been confined to the western part of the United States and to Alaska. He worked with the Alaska salmon commission in 1904 with marked success. He was highly recommended to the state by his former employers.

## Try This When Your Hair is Dusty

(From the New York Herald.)

"When the hair is dusty and dull and you want to clean it quickly, just sprinkle through it a little dry shampoo powder made by mixing four ounces of crisp root with four ounces of therox. Then brush the hair thoroughly and not only will it be clean, but it will have a rich and glossy luster that can be given in no other way. So little time is required for this dry shampoo that it can be done profitably whenever the hair is soiled.

"Therox is excellent for the scalp and gives the hair new life and vigor. The regular use of this mixture heightens the natural color, while washing the hair with water too often causes it to lose color and become dull and brittle."—A4
