

RIVER RISE HALTS

Willamette Falling, Dock Danger Over, is Forecast.

CLIMB IS IMPROBABLE

Cool Weather Checks Warmth in Mountains and Stream May Remain Steady - Columbia Stage Not Perilous.

Danger of an immediate rise in the Willamette sufficient to submerge more than the lower deck of Astor street dock, which has been under water for several days, is past. This forecast was made by the Weather Bureau yesterday.

The rain of the last week, though heavy at times, has had no perceptible effect on the freshet, say reports from Eugene, Harrisburg, Albany, Salem and Willamette Falls. It has been noted in the last 24 hours, as the cool weather of the last few days has checked higher temperatures in the mountains, it is thought that the Willamette will not show a rapid fall and the river may remain stationary at times unless there is a sudden and continued warm wave.

COOPER ASKS FOR ROSE CITY

Marine Parade Will Include About 75 Decorated Vessels.

J. W. Ransom, general agent of the San Francisco & Puget Sound Steamship Company, has received a communication from Secretary Cooper, of the Portland Motor-Boat Club, who has charge of the Rose City marine parade June 5, when Rex Oregon will be escorted up stream and make his official entry into the city at the foot of Stark street, asking that the popular steamer Rose City be placed at the disposal of the festival officials and their guests on that occasion so that she can act as flagship of the fleet and lead the column through the harbor. Mr. Ransom will forward the request to General Manager Schwert, at San Francisco, and an answer is expected by the time of the return of the Rose City June 2, when she will remain in port until June 7.

To prepare the vessel for the occasion will mean the loss of about half a day, as it is planned to steam her to Linton, where invited guests will go aboard and she will then take position at the head of the column. An abundance of ropes will be provided to deck the ship in the festival flowers and decorations will be made immediately on the receipt of Mr. Schwert's sanction. Because the steamer is making her first appearance at the festival and is generally rated the most popular vessel sailing from Portland, the committee deems her acquisition one of the most important of the marine exercises, for it will be the first time that a deepwater vessel has participated. Mr. Cooper has secured entries of about 75 vessels, principally motor-boats, for the parade and it promises to be the largest fleet that has formed the "king's escort" since the inception of the Rose Festival innovation.

WISSCHAUSEN IS APPOINTED

Seamen Will Be Furnished Locally by Shipping Master.

Developments in the sailor boarding-house situation are looked for as a consequence of the action yesterday by the State Sailor Boarding-house Commission in appointing George A. Wisschausen as shipping master. The office was created through an amendment to the Sailor Boarding-house act, passed at the last session of the legislature, which allows the shipping master to a fee of \$10 for each sailor furnished.

ST. RONALD CLEARS TO RETURN

Evans Finishes and Orteric Will Go Through Bridges Tomorrow.

According to an outward manifest yesterday filed at the Custom-House, the British tramp St. Ronald will double back on her course before leaving the river for the Far East, as she was cleared with 2,353,000 feet of lumber, valued at \$22,500, for Tientsin and Shanghai, via Kalama, Portland and Seattle. The manifest was filed at 11:30 a. m. and is to be taken on at Kalama, after which the St. Ronald will return to Linton to finish and will call at Seattle to coal.

Goldendale Editor Takes Bride.

VANCOUVER, Wash., May 25.—(Special.)—Irving E. Bath, editor of the Goldendale Sentinel, formerly of Hillsboro and Collins Grove, Or., and Miss Mary Josephine Coffield were married at noon today by Rev. Otis E. Gray, rector of St. Luke's Episcopal Church, at the home of the bride's sister, Mrs. C. A. Pike, at 507 West Eighth street. Miss Josephine Coffield, of Portland, was maid of honor. Mr. and Mrs. Bath left today for Vancouver, B. C., on their honeymoon trip, and will be at home in Goldendale June 15.

SHORT CROP FEARS

Hot Weather Keeps Wheat Price on the Rise.

BAD SOUTHWEST REPORTS

Yield of Texas, Oklahoma and Southern Kansas Is Estimated at 25 Per Cent of Last Year's.

CHICAGO, May 25.—Hot weather kept wheat on the rise today. Thrusts of a short yield in the Southwest led to a sign of advance, which they utilized to the limit. Throughout the day the wheat market was dominated by fear that high temperatures and lack of rain had wrought evil to the crops in Texas, Oklahoma and Southern Kansas, some of the areas for the probable output of the first-maturing states were estimated less than 25 per cent of last year's crop.

Marine Notes.

Preparatory to the opening of the Rose Festival engineers of the harbor port.
