Paris-to-Madrid Racer At- PORTUGAL IS ON GUARD tacked by Bird, Finally Hits It With Revolver.

OTHER'S ESCAPE NARROW

Vedrene Barely Misses Destruction on Mountain Peak in Fog-All Three Contestants Fall to Reach Madrid.

MADRID. May 25 .- With the exception

MADRID. May 25.—With the exception of the crussing of the Alpa by George Chayes on September 23, 1910, a fest that ended in bis death, the third etage of the aviation race from Paris to Madrid for the "Petit Parisienus" prize of \$20,000 and \$10,000 additional offered by Spathan acro clubs, proved to be the most severe test to which the acroplane has yet been subjected and two of the three contestants, it now appears, have been compelled to abandon the flight. Gibert, Barros and Vedrine began the third stage from San Sebastian early this morning. The 356 miles of the routs is almost entirely over desolate ranges varying from 1000 to 5000 feet in height, where a fall meant death and to make a fresh start would be impos-

Battle Fought With Eagle.

Gibert fought the first recorded sky battle in the ascent. A large and flerce eagle sweeped down to give battle in the ascent. A large and flerce eagle sweeped down to give battle to the new rival, the sirman. Manipulating the levers as best be could, Gibert with his left hand groped in his pocket for a revolver. He fired two shots at the eagle, which dropped behind.

Speaking of his fight with the eagle, Gibert said it was one of the most exciting incidents of his life. The bird sweeped down upon him victously and struck at him with its powerful besk. It succeeded only in carrying off his cap. He than succeeded in firing at it, and he believes the bird was wounded.

Two Birdmen Come to Gricf.

Vedrine crossed the City of Burgos at a great height, but later was forced to issound. He telegraphed, earing he muld not proceed for some hours and the club authorized an extension of the

for the rare. a aviator said after leaving San Sehastian he mounted to an altitude of exe feet to avoid the fog. While at this height he almost dashed against the peak of the Sierra Pancerbo, and saved his life by going up higher just in time. Gibert landed about 40 miles from San but when he attempted to make a fresh start, his machine capsized. The machine can be repaired in a few

Barros is stalled in a mountaine spot, alx miles from San Sebastian. practically impossible and it is under-stood he has shandened the contest.

(Special.)—Jesse Reid, after two years in the chicken business near Goldendale, concludes that this is the best place he has seen for that industry. He spent 15 years along the Coast and believes conditions here are ideal. He raises the Cornish English games and raises the Cornian ranging games and four breades of wyandottes. He put six pullets in a pen last Christmas and kept them there for 35 days for an egg record. The average production a pullet was 25 eggs in that time.

Troops Bushed to Frontier and Mon- GRANT'S CASE NOT DECIDED archists Arrested.

LISBON, May 25 .- An official note issued by the Portuguese Government today declares that the northern frontoday declares that the northern fron-tier is absolutely secure, the garrisons of the border provinces having been atrengthemed by troops entirely faithful to the republic.

The garrisons in the province of Entre-Minho-e-Douro, which includes Brags and Oporto, have been rein-forced, the note says, by smillery and a regiment of infantry.

Hundreds of armed carabineers pa-trolled the streets of Lisbon last night, prepared to stifle any monarchist man-ifestation. Political arrests in the cap-

festation. Political arrests in the capof soldiers and two priests, who refused to accept the church and state separa-

MISS ELKINS STILL FREE Starting for Europe, She Again Denies Abruzzi Engagement.

NEW YORK, May 25.—Miss Kather-ine Elkins, her mother and brother, Stephen B. Elkins, were passengers today on the Kniserin Auguste Vic-toris, en reute for a Summer's holiday

in Europe. They were accompanied to the ship by several young men, among them "Billy" Hitt, son of the late Representative Robert R. Hitt, of lilinois.

Mrs. Elkins said her statement made gagement between her daughter and the Duke of the Abrussi, was still good. Miss Elkins laughed morrily four years ago, that there was no enwhen asked if she was engaged to young Fiftt.

Goodnoe Hills Outlook Good,

(Special)—Reports from the Goodnos Hills are that the peach crop this year will be about 50 per cent and the apricot yield will be large. Meions were shipped from the hills to the outside market for the first time last year, and such a demand was created that one man alone will have 40 acres this year. The nut trees in this section are doing well. About 1000 acres have been planted to almonds.

Tillamook Calls Cornelius Pastor.

FOREST GROVE, Or., May 25 .- (Spe clal.)—Rev. James T. Moore, for some time paster of the Methodist Episcopa Church at Cornelius, has been appoint. ed to fill the vacancy at Tillamook, caused by the resignation of Rev. Mr. Sallsbury. Mr. Moore came to the Oregon conference from a Vermont conference about three years ago. He left this week for his new post.

George Rees, Veteran Editor, Dead. ST. JOSEPH, Mo., May 15.—George Rees, who edited the St. Joseph Gu-metre at the beginning of the Civil War, died here today, ared 75. He pub-lished the Constitution, at Keokuk, In., tood he has shandened the contest.

Henman Selects Goldendale.

GOLDENDALE, Wash, May 25.— written from adjacent lows towns.

Charges Against Seminary Professors Dropped.

Presbyterian Preacher Admits Some Charges, but Says Context Would Take Edge Off Heresy-He Believes Jesus Danced.

> ATLANTIC CITY, N. J., May 25 .- One ATLANTIC CITY, N. J., May 25.—One of the expected sensations of the Presbyterian General Assembly fell flat to-day when the heresy charges against President Francis Brown and Professor. William Adams Brown, of Union Semi-mary, were dropped. The committee on bills and overtures reported that the articles written by these clergymen had nothing in them that was unorthodox. Attempts to learn from members of the judicial committee, which is reviewing the heresy charges ngainst Dr. Grant, what action will be taken, met today what action will be taken, met today with failure. In a statement, Dr. Grant admits having said some of the things attributed to him by witnesses at his trial, but he declares that in every case

> tria, but he declares that in every case the context of his remarks would have taken the edge off them and "removed every trace of heresy."
>
> In regard to his declaration that Jesus, Mary, Martha and Leasaus "danced and sang a bit" on the night after Lazarus resurrection from the dead, he explained that he helicocal Leasa had many human that he believed Jesus had many human that he believed Jesus had many human attributes and that, naturally, being full of joy at Lazarus' coming to life, they celebrated the event in a mild way. The report of the Board of Foreign Missions presented today, in speaking of the work done in Japan last year.

"Something which affected the work

"Something which affected the work of the year very seriously is the persistent, permicious war talk in America. How can we American Christians preach to these people the gospel of the Prince of Peace when cur people at home keep up this infamous talk?" "Another thing," the report says, "that has hindered the growth of the kingdom of God in this land (Japan) is the type of socialism which has taken root there. The authorities are doing what is in their power to uproot the whole growth. Every public and school library has been searched and every book bearing on the subject of socialism has been removed."

HOME TRUSTEES NAMED

McLoughlin Home Is Committed to Care of Board.

OREGON CITY, Or., May 15.—(Special.)—Governor West has informed Rev. A. Hildebrand, E. G. Caufield and J. E. Hedges that they have been appointed trustees of the McLoughlin home in this city to serve four years. The trustees

city to serve four years. The trustees are to receive no salaries.

The home was that of Dr. John Mc-Loughlin, the founder of Gregon City. The building was used for some time by the Hawley Pulp & Paper Company for storage purposes and finally the company decided to tear it down to creek a larger building.

A movement was at once started to

save it and have it moved to another McLoughlin and is now one of the show part of the city. The Legislature in places of the city. 1969 passed a bill providing for the re-moval of the building and making an appropriation for its restoration. Governor Chamberlain, however, velged the

bills. An article published in The Oregonian giving the history of the old building and telling of the probability that it would be destroyed caused a re-vival of interest and enough money was raised by private subscription to move it to City Park. It was restored to its original condition when occupied by Dr.

Umatilla's Best Class Graduates. Umatilia's Best Class Graduates.

STANFIELD, Or., May % — (Special.)—
L. R. Alderman, State Superintendent of
Public Instruction, delivered the address
to the graduates of the local school last
evening. The diplomas were presented
by Frank K. Welles, County School Superintendent. This was the banner
eighth-grade class of Umatilia County,
each of the 11 members having passed
the state examinations recently with
high averages.

Land as fartile as any in the whole Northwest-land that will grow unsurpassable fruits and vegetables: land beautifully set in a green crescent valley, lined by spark-ling streams; handy to school, to church, to store, to town, and con-

veniences. Land in a district

products to Portland at the smallest known rate. It is near Goble, on the Columbia River, an hour's run from Portland. Isn't that the sort of land you're looking for, Mr. Homeseeker?

where railroad and river steamers compete for the hauling of your

Isn't that the place for your home? No matter how limited your means, that sort of land is right now

within your reach. We are introducing our matchless Beaver Homes Orchard and Garden Tracts at Redland

for as little as \$25 an acre. Our highest present price on the choicest locations is only \$80 per acre. And every acre, no matter what the price, is of the finest soil—just such land as you can pay \$300 or \$600 or \$1800 per acre for if you go into one of the old established districts.

And please bear in mind that the established districts of today were the non-producing, cheap-land districts of yesterday, and that our district will quickly leap into place as one of the rich producing sections. Nearness to Portland, richness of soil, rare opportunities such as are attracting only the most desirable class of hustlers-those things and others make our district one of the big "comers."

It may sound strange, but we will not sell our land to everyone. We don't care a snap whether a man's got a whole lot of money or none at all. But we do want to know that he's in earnest, that he is a worker and that he will make a desirable resident. You see, our future is to a large degree in the future of our holdings which depends altogether on the producers that settle there. Every worker that settles here means something to us, as well as to everyone in the

CHARPITTING, the new economy land-clearing system, is what makes it possible for you to get a home in this new district at such a small figure. Thanks to this method there's no more donkey engines and dynamiting needed for clearing the land. You do the trick with a box of matches and a mattock, and it's more like play

And thus you get virile, virgin land-land that you can depend You're not taking any chances like you are sometimes when you buy cleared, producing land that may be about petered out.

Figures talk, too-Take a bit of our land, say 10 acres, at \$40 an acre-\$400 for it all on small payments. That isn't a very heavy obligation, is it? Especially when you can make these small payments monthly, quarterly, semi-annually or annually. On the other hand, take the land in an old district at say \$2000. That's quite an obligation for many people.

Now, the difference between \$400 and \$2000 is several times the cost of clearing prime, raw land by the CHARPIT method. And anyone, regardless of age or strength, can charpit successfully. Much successful charpitting has already been done in Washington by small boys (see current issue of Technical World).

If you are in earnest about wanting a small farm that will make you and your family more than independent, if you are really looking for a good land proposition, then we want to get in touch with you. We can be of benefit to each other.

COME IN TODAY AND ARRANGE TO SEE THIS LAND.

Woman's Hair, a Glorious Sunburst of Radiant Luxuriance **Fascinates Society**

What a pity that so many women allow their hair to fade and allow the natural luster to die out when it is such an easy matter to have an abundance of splendid lustrous hair that would add lustrous hair that would add
100 per cent to their charms.
There's tens of thousands
of clever women today who
never visit a hairdresser, yet
their hair is so superbly attractive that it is the envy
of other women and the admiration of men.
Parisian won en know how
to have and to keep attractive hair, but there are many
more clever women in America There's tens of thousands of clever women today who never visit a hairdresser, yet their hair is so superbly attractive that it is the envy of other women and the admiration of men.

Partsian women know how to have and to keep attractive hair, but there are many more clever women in America than in 50 cents at Woodard, Charke & Co., and Paris, and since the introduction of drugglets everywhere.

Parisian Sage the hair grow-er and beautifier these tens of thousands of clever American women are using it. Some women cannot understand why other women al-ways have such lovely hair. Parisian Sage is the cause of most of the luxuriant and
