FLURRY IN WHEAT

Sound Millers Are Paying Higher Prices.

NOT MUCH STOCK IS LEFT

Bluestem Is in Sharp Demand and Feed Wheat Also Sells at a Good Advance-Offerings on Local Markets Small.

Acother flurry in the wheat market has struck the Pagest Sound cities. Hissester was said dish wheat at Stij cetts. The local wheat market was strong, but there was little trading here, as there were practically no offerings.

ly no offerings.

The Bound millers seem to have found that there is not much wheat left in the country and they are now trying to get contrai of enough to supply their meets during the remainder of the school. As it will be three munths yet before new wheat can be ground, there is certain to be a general ground, there is certain to be a geogra-clean up. Grain men who have been through Eastern Washington fly the warshusses in Walla Walla, Columbia, Whitman and Franklin counties are practically empty and that not over Thomos bushels remain in the life Bend warshouses. Onto are still fairly firm, but buyers de-

clare they can get sufficient supplies in the Valley to carry them through. A few males of barley are reported at current

The prospects of the California hay market are given in a San Francisco trade lotfor as follows: The San Francisco Hay
Association has just compiled statistics of
the amount of hay on hand in districts
centing that hay to the San Francisco market, which shows a total tennage of 100,500 tens. This is sems-what larger then was
authelpaced, and will no doubt make up for
a rood part of the shortage of the present
erron, if there be any.

Weather conditions have been extremely favorable and the season is sufficiently far advanced to obviate any particular danger. Apples and pears are looking extremely well and the plums will be unusually abundant. These same conditions exist for the most part in the principal producing cointries on the Continent. In France all sorts of fruits promise a big-yield except apricots.

Holland is a considerable producer of apples and the present prospects are for the largest crop on record.

Eastern Crop Reports.

All in all, conditions in practically all of the apple-raising states east of the Mississipst Fiver are very fluttering indeed. New York State continues to report a very flutshowing for Fall fruit and Greenings. The consensus of opinion seems to be that Baldwine have bloomed brequistry and will be a little shy. The Hudson River counties are due for a big crop filis year and it looks as though they are going to have it. West Virginis, Virginia, Maryland and Pennsylvania have excellent showings, as have also Michigan and Hilmols. It is a little early as yet to say anything concerning the New England States. However, they have had a very heavy bloom. The importance of Maine as an aple-growing state is beginning generally to be recognized and the indications are that in the future it will become very prominent. Apples are grown commercially in practically sil of the New England States and there has been a considerable recival of interest among the growers. New orchards are being set out and old orchards cleaned up and cared for in better shape. Meney, Exchange, Etc.

NEW YORK, May 26.—Meney on call steady, 24, 224 per cent. ruling rate, 25.; electing bid, 24; effected at 24.

official balance in general fund. \$8,217,445
official palance in general fund. \$1,229,376
kurplus to date this facal year. \$14,536,875
These Squires exclude Fanama Canal and
public debt transactions.

Utah expects to ship a record-breaking erop this year. Official estimates place the prospective increase over 1819 at 200 cars. The apple crop is expected to be slightly larger than last year and the peach crop very much larger. Let be supposed the prospective increase over 1819 at 200 cars. Colorado will have a very large crop. Western Slope operators are rovising their estimates upward. C. L. Oliver, secretary of the American Apple Congress, reports that Colorado will ship more apples this year than two years ago and figures that about 600 cars of apples will be shipped from the Western Slope this year, and that the Eastern Slope will ship 2000 cars making in sall about 8000 cars of apples from the state. The Colorado peach crop having been damaged by weather, will be lighter than last year, but it is expected to run 709 to 1909 cars.

We have a letter from C. D. Whistler, of Medford, Or., vice-president of the Bogue River Fruit and Produce Association, one one of the best-known fruit experts in Oregon, from which we quote as follows: "Crop and fruit prespects for Iowa are the best in years for this time of the year. The Colorado apple crop is big."

Pacific Northwest.

Metal Markets.

NEW YORK, May 78.—Standard copper doil. Spot. May, June, July and August, 11.70-212c. London firm, spot 454 15c: futures, 105 78 6d. Arrivals reported in New York today, 700 tona. Custom-House returns show exports of 22.800 tons so far this month. Lake copper, 12.22-212.500; electrolytic, 12.124-212.574c, and casting, 11.875/12.124c.

Tin dull; spot, 43.70-344.50c: May, 42.50-34.50c; June, 42.50-34.50c; 42.50-36.50c; June, 42.50c; June, 42 Pacific Northwest.

Conditions seem unchanged, in the main. We have a fetter from Mr. Malboeuf, our secetary, who is visiting the Walla Walla-Milton-Freewater section, and who writes from Walla Walla under yesterday's date stating that that section was visited is night by the most severe, rain, lightning and hall storm he has ever witnessed. The storm was in progress as he wrote, so that the estimate of the damage is impossible, although he stated that the situation was rather alarming.

Hope at New York. NEW YORK, May 26.—Hope steady.

BITULITHIC "WHYS"

"I have watched all the different pavements in Chatham, and also in other cities, and it is my honest opinion that bitulithic beats them all." - J. T. O'Keefe, Chatham, On-
