

RACING AVIATORS FORCED TO REST

Garros Joins Beaumont in Rome, Almost Collapsing on Arrival.

TODAY MAY DECIDE RACE

Beaumont Will Start for Turin and Garros Also, if Injuries Allow—Frey and Vidari Distanced by Mishaps.

ROME, June 1.—Andre Beaumont and Roland Garros, the two leading aviators in the great Paris-Rome-Turin race, are tonight in the Italian capital. The other competitors have met many mishaps and some are still in France. Beaumont, who arrived yesterday, is resting preparatory to essaying the third and last stage, from Rome to Turin, a distance of 336 kilometers. Garros has a bad shoulder from the wrecking of his aeroplane near Pisa yesterday. He made the trip from Pisa here today, nearly collapsing when he landed. Beaumont, hearing of his arrival, rushed to greet him. The two friends burst into cheers when the friendly rivals appeared on the balcony grasping hands. It is probable that Beaumont will start on the last leg of the journey before Garros, who, if he continues tomorrow, will do so only by reason of sheer grit. Frey the German representative, who also was injured by the wrecking of his machine near Pisa, is still awaiting a new machine there. Vidari was delayed for about three hours at his last stop. From the latter place he flew direct for Rome, but was compelled to land. In landing the left wing of his aeroplane was broken. Lieutenant Lucia, of the French army, who under orders from the Minister of War, was accompanying the contestants on the first stage of the flight, was forced to land at Hyeres, in Southern France, owing to a thick fog.

BARBER TELLS OF RING

Camorra Trial Again Ends in Violent Uproar.

VITERBO, June 1.—Cuocolo, a Neapolitan barber, was the star witness at today's session of the Camorra trial, and his testimony caused such an uproar in the courtroom that the proceedings were adjourned. The witness described the habits of Genaro Cuocolo, who was murdered, the prosecution alleges, by members of the Camorra Society. Cuocolo said that he saw among the rings worn by Cuocolo, the one sequestered by Carabinieri following the arrest of the Camorrist. The barber's statement called forth loud cries from the prisoner's cage and counsel for the defense protested energetically against the admission of the testimony. The lawyers recalled that Cuocolo, at a prior examination, had testified that he had seen no rings on Cuocolo's fingers. The defense then demanded that the witness be prosecuted for perjury. The court refused and the argument between opposing counsel became so heated that President Bianchi adjourned the sitting.

TACOMA COUNTERS HELD

Five Indicted Census Takers Are Arrested.

TACOMA, June 1.—Indicted by the Federal grand jury for frauds in the taking of the census in Tacoma, five enumerators, Foster Quintan, Fred H. Allen, Charles T. Jaeger, Alphonse Carbone and C. J. Foley were arrested today on warrants from the United States Marshal's office. They were released on \$1500 bonds each. Allen is a nephew of George S. Long, resident agent of the Western Lumber Company and secretary-treasurer of the Mineral Lake Lumber Company. He is accused of adding 598 fictitious names to his list. Quintan is charged with adding 423 "fake" names; Jaeger with adding 611; Carbone with adding 973 and Foley, according to the indictment, added 1684. Foley is city patrolman. Jaeger alone talked as to a possible defense. Individual census slips which were passed about the streets and filled in, he says, were turned over to the local census headquarters and the names were added to the lists filed by the enumerators.

Little Hope for Housewife Who Has Been Looking for Reduction in Household Expenses in Spite of Warm Weather.

CHICAGO, June 1.—(Special).—The first of June brings little hope to the housewife, who looked longingly forward for a drop in prices of food with the arrival of the warm Summer weather and bounteous crops. Even spinach, which a few days ago was a drug on the market, has gone up to 20 cents a bushel. Pork is the only standby that is cheaper than it was last month. Strawberries alone among the fruits and vegetables seem to be the one thing that is looking for buyers. Turnips that last June were to be had at 25 cents a bushel are making their debut

this season at an advance of 100 per cent and even more, some bringing 60 and 70 cents a bushel. Cabbage, although cheaper than a few years ago, is higher this year than last, as are onions and potatoes. Lettuce that was offered last year at 40 cents a bushel in tubs is scarce now at 61 cents a bushel. Tomatoes are higher, selling in four-basket crates for 22, against \$1.75 the same time last year. Lamba continue to be the star performers in the meat line, soaring up each day a little bit above the day before. Last year pork that is now selling for 15 cents a pound brought 22 and 20 cents per pound wholesale. It offers strong contrast to the increase noticeable in the price of vegetables this season.

Revolutionists Attempt to Kill Whole Cabinet—Terror Reigns in City, State of Siege Exists and Many Are Confined in Jail. MANAGUA, June 1.—The explosion at the fortress La Loma on Tiscapa Hill, overlooking Managua, yesterday resulted in the killing or wounding of 120 soldiers. It was stated today that the blowing up of the fortress was the result of a political plot. Many followers of ex-President Estrada have been placed under arrest. The President, against whom the plot is said to have been directed, and his ministers escaped injury. So far as a widespread revolutionary movement is concerned, the government has been unimpairedly denied,

EXPLOSION WORK OF REBELS

Civil War in Nicaragua May Follow Managua Horror. NEW YORK, June 1.—Nicaraguans in this city were disinclined to believe today that the explosion of Fort La Loma last night was an accident. They were sure that it was part of a plot by the rebels, who have headquarters at Leon, against the administration of President Adolfo Diaz, and they expect reprisals to follow. Up to tonight 117 bodies have been taken from the ruins, including those of a woman and a boy who were selling fruit to the soldiers. It is said that the explosion coincided with a revolutionary movement at Leon, which failed because of measures taken by the government. Fort La Loma was perched at the summit of an extinct volcano and looked down on Managua from a height of 2000 feet. After the government arsenal blew up in the heart of the city, nine years ago during the dictatorship of Zelaya. It was re-established at La Loma, where there was a regular garrison of 250 men. Four hundred persons were killed in the first explosion, which probably was an accident, and for days the trees of the city park adjacent hung draped with tatters of humanity and the sky was black with vultures. Zelaya sought by promises of immunity from prosecu-
