

LENGUENY PROVES BENEFICIAL SO FAR

Governor's Policy of Parole and Pardons Has Good Result.

47 CONVICTS ARE FAVORED

Pententiary Is Well Crowded Now. Fifty Men Given Chance to Work Upon Roads and at All of State Institutions.

SALEM, Or., June 1.—(Special).—With 50 convict "trusties" working at the state institutions already and with 40 more to be sent to the institutions or out on road work next week, the recently announced pardon policy of Governor West is now in active operation and so far, according to reports of the authorities, not a man has escaped or has attempted to escape.

The men at the institutions are paid 25 cents a day, this money to go into the hands of the men themselves and be disposed of by them. Governor West said today that it will be his policy to recognize every recommendation made to him by the parole board.

"While the law does not require me to parole every man that the board recommends for parole, I intend to do so, nevertheless," he said. "I intend to work on the basis that every man who does not belong in the penitentiary should be removed from there and every man that does belong in the penitentiary should be turned loose and makes a thorough examination of the cases brought before it and their recommendation is sufficient for me to feel satisfied that the prisoners so recommended are worthy of every opportunity to make good."

Leniency Given Forty-Seven.

Regardless of the fact that Governor West has so far granted pardons, paroles or conditional pardons for 47 prisoners, there are now 475 convicts at the Penitentiary, which is within a few days of the high-record mark for the prison. Forty-two pardons and conditional pardons and five paroles have been granted, totaling 47 of the 21 paroles recommended by the board.

"Men are coming in so rapidly that it is necessary to thin the ranks to keep the cost of the penitentiary down to a minimum where the appropriations will allow the State Board to pay out without reluctance," said the Governor. "Some of the men who are being turned loose are, to the best of my knowledge, men who should be out and given an opportunity."

Governor Will Maintain Secrecy.

Among the men paroled today on recommendation of the parole board were John M. Dickinson and Walter J. Clark, both serving sentences for implication in the murder of a Hindu in Clackamas County. They have been in the Penitentiary since April, 1909. No established policy of secrecy will be maintained in all probability, by the executive offices surrounding paroles or pardons made after which such a revelation that the Governor will request in many instances that names be withheld of paroled and pardoned men when he believes that it might be detrimental to their future chances to make good outside of prison if it is generally known that they are former convicts.

ARCHITECTS PLAN BOOM

Spokane Men in Building Trades Make Effort for Business.

SPOKANE, Wash., June 1.—(Special).—A concerted effort by all persons connected with the building trades in this city to stimulate business is proposed by Spokane architects.

The plan is to hold a conference of representative architects, builders, material men and workmen, at which time the present prices, labor prices and working conditions will be compared with the conditions prevailing in other Western cities; after which such a resolution will be made in the local schedules as will make Spokane conditions in building industries conform with those of the other cities.

It has been suggested that the banks and trust companies which make building loans be required to send representatives.

Curing Catarrh Accept Our Advice and Try This Remedy at Our Risk

Catarrh is a disease of the mucous membrane. The mucous membrane is, one may say, the interior lining of the body. Catarrh therefore may exist in any part of the system. When the catarrhal poison attacks the mucous membrane, inflammation and congestion are produced and nature fails to throw off the accumulated poisons. The organ which has been afflicted ceases to perform its proper function as nature intended it should. The result is, complication upon complication, which may lead to other very serious afflictions. We honestly believe Rexall Mucosa-Tone will do wonders toward overcoming catarrh. It is made from the prescription of an eminent physician who made a long study of catarrh, and his great success with his remedy was an enviable one. We want you if you are a sufferer from catarrh in any form, to give Rexall Mucosa-Tone a thorough trial. Use it with regularity and persistence for a reasonable time, then if you are not satisfied, come back and tell us, and without question or formality we will hand back to you every cent you paid us. This is certainly the fairest offer that any one could make and should attract our sincerity of purpose. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at The Owl Drug Co., Inc., cor. Seventh and Washington sts.
