Deaton, P. T. Shelley and P. R. Melnig to solicit funds for the Fearth of July celebration. This committee reported It had raised \$110 so far. E. F. Bruns was appointed thairman of a committee to prepare the park for the celebration.

MANT BOATS PASS DURING RUSS HOURS. —For the 34 hours closing yesterday morning at 7 o'clock, 75 hours passed through the Burnside - street bridge, most of them during the rush hours of the day. Between 7 A. M. and 3 P. M. Monday 36 hours passed through the draw and between 3 and 11 P. M. 34 boats passed through, and the re-mainder passed through up to 7 o'clock yesterday morning. These hours oc-cupied five minutes on an average in cupied five minutes on an average in getting through the draw, or a little more than six hours out of the entire tay in all.

day in all. Basur Bourgeyand Assessments Delin-ourner.-Assessments for the delin-ourner property owners for the widen-ing of Sandy boulevard to the city limits are delinquent and the property will be sold June 8. The amount of the delinquency is relatively small and will be taken care of by interested property owners in Rose City Park, so that proceedings for widening the street can be started without delay. Petitions for the pavement of the boulevard are ready and will be filed as soon as the widening of the street has been officially declared. Bung Ruy Premane Almost Freisens.

BULL RUN PIPELINE ALMOST FINISHED Build Rive Premares Alasser Frietmann. —The Bull Run pipeline will soon be finished through Gre iam, the ditch for the pipe having been completed last week. There is a short section near Kelly Creek to lay before the hig tube will be completed between the Mount Tabor reservoirs and the Sandy River. Most of the pipe has been laid along the Section Line and covered. It has been laid up the Mount Tabor elevation to the reservoirs. Within a few weeks the second Bull Run pipeline will be minhed.

sluggish skins

If you are sallow, it indicates an inactive, lifeless skin and poor circulation. A clogged condition is often evident first in the face. It indicates that the skin on your whole body is inactive.

Through its miles of tiny pores your skin discharges two d of waste matter every day.

Now unless these pores are active, unless they are properly performing their work, this waste matter stays in the skin. From this you can realize the necessity of keeping your skin in good working order. You can see that any defect in its activity leads to serious skin troubles.

Woodbury's Facial Sosp used in the following way exactly counteracts this effect.

Wash your skin slowly and carefully with a very hot lather of Woodbury's Facial Soap. Do this several times, until your skin feels like it has been stimulated. Then dash cold water, very cold water on it for fully ten minutes. Then every night massage it firmly with Woodbury's Facial Cream, which nourishes and whitens the skin.

Use this treatment regularly, not spasmodically, and watch the gradual improvement in your skin. Don't think that sal-lowness or a aluggish skin is chronic. Don't slight this treat-ment, and in time you will have an active, clear, glowing skin, a complexion that shows the delicacy and coloring of a child's
