# INDUSTRIAL GROWTH OF PACIFIC NORTHWEST

# SALEM IS GROWING

Capital City Gaining Faster Than Ever Before.

REALTY VALUES ARE HIGH

Farms in Country Surrounding It Are Selling to Eastern People Who Have Moved Here to Make Their Homes.

SALEM. Or., June 11 - (Special.) - Industrial prospects in and around Salem for INI were never better, and scarcely ever efore have the conditions more fully in dicated a great year for this section with money promising to be plantiful. Numerous large sales have been made this Spring, and, in addition, a vast amount of building is assured. In commenting on conditions and giving a brief resume

on conditions and giving a brief resume of what has been accompliabed in Salem Secretary A. F. Horer, of the Salem Secretary and Salem certainty has occasion to be gratified over existing conditions. We have the greatest grain and hay crop in sight for many years. Fruit of all linds is above the average. The prospect is that our wast hop crop will be sold at from 20 to 20 cents per pound, and that means that the focume, from within a radius of 15 miles about Salem, will amount to 12,000,000 Punnes are being contracted at figures that will range from 5 to 7 cents per pound, to say nothing of the prices that will be received for those shipped fresh. Salem will handle 11,000,000 worth of prunes. The potato crop of Marion County is something enormous, and the prospect is that good prices will prevail for all kinds of produce. These various crops will give Salem prosperity. If everything else should fall to materialize.

The real estate market was never better, and to prove this statement it is

The real estate market was never bet The real estate market was never better, and to prove this statement it is only necessary to refer to such sales as the Vieraul corner at \$25,00 and the Steeves corner at \$55,00. Just the other day George E. Waters and Joe Adolph bought the Hirschberg corner for \$25,00. Buyers are hunting for opportunities to get hold of business properly in Salem, and there is practically nothing on the market.

#### Four Public Buildings Planned.

'In the building line, it is needless refer to the hundreds of residences To the building line, it is needless to refer to the hundreds of residences going up; this growth is self-evident. In addition, Salem has four large public buildings assured; one is the new State Labrary and Supreme Court building, for which the Legislature appropriated \$156.000. Ground will be broken for a sixtory Masonic temple within 60 days. Plans are about perfected to start on the \$40,000 Armory, and the new \$50,000 Carnegie Library will be started as soon as the grounds are cleared. There is not a vacant husiness building in the city. Parties stand ready to build as soon as desirable sites can be procured. More public improvements are being made than ever before in the history of the city. In fact, Oregon's Capital City is being rapidly transformed, and one needs to be away only a short time to notice the wast changes going on.

to be away only a short time to notice the vast changes going on.

"Real estate sales among Salem people are constant and many purchases are being male by new comers almost daily. One real estate firm reports more business for the month of May just passed than during any month in 16 years previous. A good class of buyers are combustic forms outside. ing in from outside.

O. Cole and wife, of Bisbee, Ariz., E. O. Cole and wife, of Bibbee, Ariz, strived in fown last Thursday. By Friday noon they had purchased 20 acres of young prune orchard in the Walde Hills without buildings, for \$400. They left for home on the Shasta Limited and become residents of Marion County.

"O. Brimson, of Utica. N. Y., was in town last week and took an option on it acres with buildings on the Jefferson road at \$500. He has since notified the owner that he will take the place.

#### Many Touring From East.

"J. C. Redline and family, of Berwick, Fa., has just bought a 20-acre tract near

Shaw for \$4000.

"Joe Hatespek has just bought the Hanna place, near the Wallace farm, in Polk County. It contains is arres, haif to orchard, with no buildings, price \$700.

"Mrs. Lick's farm of 128 arres on the Jefferson road has just been sold for subdivision. A similar tract adjoining it was subdivided this Spring and sold off in six weeks.

"Mr. Evans, of Denver, has just purchased three acres on Salem Heights and is spending \$1500 on improvements.

"A. Frederick, of Canada, last week paid \$500 for a two-acre home in South

Mr. Brown, near Independence, has at sold 28 arres to Portland parties

just sold 28 acres to Portland parties for \$4575.

"Mr. Stanberry, of Alberts, has purchased 28 acres of Eeff & Downing, five miles east of town, and is developing it for a model orchard.

"Hagermann Bros. recoulty came from Wisconsin and invested 2000 in a 30-acre apple orchard near the Kaiser School.

"A. J. Lindgren, of Hosehurg, has just closed a deal for a 260-acre ranch in Polic County.

Craig, of Pendleton, has purchased f. Barber ranch of 28 acres near

the J. Barber ranch of IN acres near Oak Grove for \$1600.

B. E. Combs. of Goldwoll, Idaho, has purchased IN acres of R. L. Thomas, southeast of Salem, for Bhook.

"Edward Dougherty, of Oklahoma, paid \$12,000 for the A. R. Hay ranch of 320

"J. J. Turner has just sold his 45 across in Polk County to B. E. Carrier, of Hood River, for E6500 and Mr. Turner has

River, for 100,000, and Mr. Turner has now bought six acres at Liberty, the Mc-Donald place, for 13000.

"Mr. Lunn recently bought 30 acres five miles east of fown for 5000.

"J. W. Woodriff, ef Santa Rosa, has just closed a deal for 30 acres of the Ashilles place on Kaiser bottom for 2000.

"Carl Vesters, of Saskatchewan, Canada, bought 30 acres south of town the other day and paid \$1200 for it.

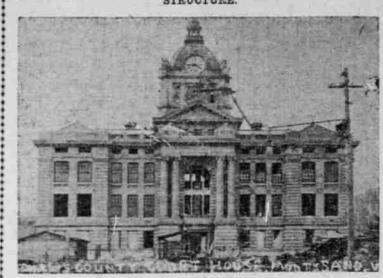

"This is only a small part of the deals made with new comors the past month. Many of these buyers are erecting new buildings, putting up fences, clearing land, building roads and making substantial improvements of all kinds."

#### Woodland Enjoys Big Growth.

WOODLAND, Wash, June 11 -- (Speclail. The present season has been the most successful one that the upper river has had since the pasts of 1801. The Etnu, a small steamer op-erating from Woodland to Ariel, has made more trips to date than in any season before, and in addition to the general freight has carried 70 tons of freight to the North Fork Logging Company and about 80 tons to the Du-Bols Lumber Company's camp. Besides Bois Lumber Company's camp. B

CREW OF 100 MEN IS BUSY AT

GRANTS PASS.

Storage Reservoir Will Supply Water

for Hundreds of Acres and Be

Great Benefit to Farmers.

GRANTS PASS, Or., June 11 .- (Spe

cial.)—The Ament Dam, three miles east of this city, is one of the busiest

places in the county, and the work be-

ing done will add much permaneat

wealth to the lower part of the valley

About 100 men are rushing to complete

a solid concrete dam across the river in the place of the old structure. A sidetrack has been built into the works and all material is delivered to the yards, including machinery, pumps, co-

ment and crushed rock, in carload lots.

A mansive foundation, 20 feet high and 40x50 feet in width has been completed with cement ready for the installation of heavy machinery for power and water. Beneath the works,

Fourteen miles of ditches will be operated this season. They have been purchased from a local concern and are now being repaired and cleaned out

ready for the pumps. The situation has never been so well financed as at the present time.

WALLOWA IS PROSPEROUS

New Business Blocks and Residences

Are Being Built.

WALLOWA, Or., June 11.—(Special.)
—Wallows has shown a decided tendency toward business improvement during the past few months, in spite of

a number of first-class rooms, are nearly completed. The Stockgrowers and Farmers National Bank building has been enlarged and extended to line with other buildings on the street. New concrete sidewalks and crosswalks are constructed or under way.

constructed or under way.

The Ceuch & McDonald bullding, which was planned as a small one-story concrete office building, 20x18, has

been changed, the concrete work on the basement has been forn out and the contract let for a two-story brick structure 28x50, with full concrete basement. The Masonic and Pythian

basement. The massive and rything traternities will occupy 20 feet on the rear of the first floor and basement and the entire upper floor. A dozen residences have already been completed in different parts of the town and

# SHORT LINE IS ACTIVE

CONSTRUCTION WORK ON CEN-TRAL OREGON STARTED.

Line Will Serve as Double Track it Southern Idaho and Open Rich Farming Country.

BOISE Idaho. June 11 .- (Special.)-Brading on the new Central Oregon Railhad eventually to be constructed be tween Owinza, in Eastern Idaho, through the Camas Prairie country and Boise to Payette, was started this week with the town of Richfield as the base of opera-

Payette, was sisted this week with the town of Bichfield as the base of operations. Contracts have been led for the grading of S miles of the road between Richfield and Long Prairie, right of way for which has been purchased. Camps have been installed along the route, temporary buildings are now in the course of construction and many separate contractors are on the ground.

The Central Idaho Rallroad will be over 26 miles in length between the two points. According to the plans of the Harriman system, the Union Pacific is to be double-tracked from Omaha to the point in Wyoming where it joins the Oregon Short Line and the latter road is to be double-tracked from there across Southern Idaho to Huntington.

Railroad men here, who are close to the plans of the Short Line, declare that instead of building an immediately parallel double track along the Short Line through the greater portion of Southern Idaho, that road will only be double-tracked from Pocatello to Owinzs, and from there the Central Idaho will constitute the double track across the state to Payette, where it again Joins. constitute the double track across the state to Payette, where it again Joins the Short Line. By forming this loop the Short Line secures a double track of its road across this state and has the advantage of tapping a rich country to the north and located in the central portion of the state.

the north and located in the central portion of the state.

There is a great deal of speculation as to just where stations and towns are to be located between the Richfield in the east and the Payette terminal. The survey misses the present town of Soldier, on the Camas Prairie, about a mile and three-quarters. New Soldier is the new town that has been platted out along the right of way below the town of Soldier, and will take the place of the old town indicating that it will eventually disappear off the map. A second new town will be given the name of Corral. It has not as yet been platted. Other sites will be selected along the right of way, and as the field is open to all aspirants a merry war is anticipated.

The activity of the Gilmore & Pittsfor the Hill system believed to be back of this mysterious road, is said here in of this mysterious road, is and not be local railroad circles to have a great deal to do with the activity on the part of the Short Line on its subaidlary line, the Central Idaho. It is confidently believed that all plans have been completed for the construction of the Gilmore & Pittsburg Railroad from Salmon Clasta Boliss.

#### GARDENING IS ENCOURAGED

Advent of Railroad Induces Farmers to Improve Great Areas.

prosecuting his work and helps develop the country. Much of the grubbing must be done in the Winter, as the digging is too hard and expensive, but with the supply of water for just such purposes, no excuse can be offered for not working. Water will be supplied to all the owners of lots in town at the rate of \$5 per acre. Formerly rates in town have been on meter, which makes a well-kept lawn expensive. About 10 acres will feel the touch of water with this and the coming year. Fourteen miles of ditches will be oper-SEND, Or., June 11 .- (Special.) -- The BEND, Or., June 11.— (Special.)—The possibilities of truck-growing are being tested by many farmers around Bend this year, and there is every indication that fine crops will be obtained under irrigation. One rancher, W. G. Waugh, who has in nine acres of onlone, five of rutabagas, four of carrots and one of paraulps, expects to carry off some of the cash prizes which have been offered by the Commercial

With the premise of rallway transportation for marketing their products this Fall, the farmers are clearing and planting hundreds of acres which have heretofore produced only sagebrush and juniper trees. The Central Oregon Irrigation Company has been forced to extend its ditches to meet the inatend its ditches to meet the incompletion of the canals of the Arnold Irrigation Company, hundreds of acres more will for the first time receive

#### SPORTSMEN LIKE KLAMATH

Townsmen Expect Many Visitors Seeking Game and Fish.

(Special.)—Klamath is jubliant over the prospects for what it believes will be its banner year. In the midst of the valley, which is noted for its big cattle ranches and meadows, and through FORT KLAMATH, Or. June 11valley, which is notes for its big active ranches and meadows, and through which Wood River. Annie Creek and Seven Mile Creek flow, stands Fort Kiamath. The valley is surrounded on three sides with heavily timbered

three sides with heavily timbered mountains and valleys and on the other by the great Klamath Lake.

As a scenic beauty spot it cannot be surpassed. As a sporting region there is no place in Klamath, known the United States over as the greatest fishing and hunting county in the West, that can furnish a wider range of aports. Each of the three streams is fail of all kinds of trout from the salmon trout to the gamy mountain variety. Around the timbered hill slopes can be found all kinds of wild game. Many a big buck falls to the slopes can be found all kinds of wild ed in different parts of the to game. Many a big buck falls to the others are under construction.

Through Keno Plan.

\$150,000 WILL BE NEEDED

Government Agent Investigates Conditions and Will Report to Department of Interior for Course to Pursue.

KLAMATH FALLS, Or., June 11.-(Special.)-Morris Bien, chief legal adviser for the Reclamation Service, is here, under orders of Secretary of the Interior Fisher, to confer with the directors of the Klamath Water-Users' Association over the move made by that organization to

acquire the Keno power site.

Disposition of this site has caused great agitation in this city for several weeks and wires between here and Washington have been kept hot in ef-forts to block proposed sale of the holdings. The site and its accompanyling 52 acres, were advertised for sale to the highest bidder on May 23. On the announcement of this sale directors of the Water-Users' Association protested to the authorities at Washington and prompted Secretary Pishes to order the sale called off until further investigation could be made. hunter within a few miles of the town, and hear and feathered game are also plentiful. On the lake wild ducks abound during the Fall when they come out into the fields and irrigation ditches and up the streams around the valley.

Fort Klamath is but 27 miles south of Crater Lake and thousands of tourists visit that great resort annually. While some of these make the trip to the lake from the Rogue River side.

ther investigation could be made. Vice-President Irwin sail yester-lay ists visit that great resort annually. While some of these make the trip to the lake from the Rogue River side, the greatest number go in from Klamath Falls.

As it is estimated that no less than 26,000 persons will visit Crater Lake this season, this means that at least 15,000 of these will visit Fort Klamath or pass through here en route. The beauties of this valley, with its icy water and hundreds of flowing arrestan wells, its shade trees and grassy creek banks, make it an ideal camping place, and within the last few years many have taken advantage of the excellent fishing afforded here. More will come this Summer than ever behe believes that the only way the site could be sequired by the people was to purchise it in open market. He is preparing to canvass farmers and stockolders in the association to learn their sentiment concerning that expenditure. It is expected that if the stockholders decide to acquire the properly, the association will be bonded for the amount necessary to make the purchase and do the development work in putting in a big power plant. Secretary Fisher has promised that the water-users will be given a reasonable time to form their plans, and Vice-President Irwin be-lieves immediate action will be taken after the attorney begins investigation Aside from its value as a power site, the Keno property commands future drainage of thousands of acres of irrigable land in the Kiamath Basin, lying along the Kiamath River and bordering on Lower Klamath Lake.

will come this Summer than ever be-fere and in anticipation of the tourist trade which will be enjoyed by our hotels and business men a great deal of improvement is being done and planned for next month. dering on Lower Klamath Lake.

In acquiring the Keno property the Government started to cut a channel to allow the lowering of the Klamath River several feet at the first rock wall at the beginning of the rapids in the river. This would cause the drainage of thousands of acres of land on the shores of the lower lake and along the banks of the Klamath River for several miles above the first rapids.

Vice-President Irwin declared that the water-users would be prepared to expend \$250,000 in development of a power plant within the next two years, if the site is acquired by them.

#### TIMBER DEAL IS RUMORED

Property of Southern Oregon Company Is Reported Sold.

MARSHFIELD, Or., June 11.—(Special)—According to a well-founded report, the property of the Southern Oregon Company has been purchased by the Menasha Woodenware Company, of Menasha, Wis., which has large timber holdings in this county. The heads of

men are fitting together ponderous ma-chinery. Four of the largest kinds of pumps will be put into place, with wa-ter gravity power to run them. Dur-ing the Summer the entire dam will be replaced with concrete walls across the river and made modern in in this county and it is believed that, after acquiring the property of the Southern Oregon Company, the Wisconsin firm intends to build a sawmill and operate extensively in this locality. C. R. Smith is the head of the Menasha

across the river and made modern in every respect, with immense gateways to take care of the Winter floods.

A large force of men is now busy excavating the gravity ditch, that will pass through town. The first half mile of the intake must be cut through solid rock as it diverges from the river. The company will furnish water to farmers at a nominal cost per acre and soak up the ground so the farmers can slash and grub all Summer. The rate for soaking the ground during August and September will be very low, perhaps \$1 per acre, so long as the owner shows good faith in prosecuting his work and helps develop the country. Much of the grubbing Woodenware Company, The Southern Oregon Company has a mill and headquarters at Empire, on the lower bay, but the mill has not been operated in recent years. The presi-dent and chief stockholder of the company is Elijah Smith, who is now ill in a hospital in Portland. The company owns about 7000 acres of valuable land near Coos Bay, and this is not involved in the Government litigation which has been started against the 100,000 acres or more held by the company in Coos, Douglas and Curry Counties, acquired by the old Coos Bny Wagonroad grant. According to the last assessment the Southern Oregon Company owns nearly \$2,000 acres of land in Coos County, which is valued at \$357,000. All of the holdings of the company are probably worth \$1,500,000.

#### KLAMATH FALLS PUZZLED

Municipal Water Supply Will Be Expensive Is Belief.

KLAMATH, FALLS, June 11 .- (Spe clail.—The matter of a municipal water and lighting plant for this city is one that now confronts the city council. At the recent city election the voters expressed themselves as in favor of municipal ownership by about four to one. Many of the city coun-cilmen were elected on the platform of favoring this departure from the old regime of corporate ownership of public utilities, and while Mayor Sanpublic utilities, and while Mayor San-derson was not an avowed municipal ownerhip man, he assured the people before election that he would stand for before election that he would state for the majority vote. To fulfill this pre-election promise he has been working since the voting of the proposition on preliminary steps looking toward bringing obout this desired change. While no definite action has yet been ing the past few months, in spite of the policy of retrenchment that has af-flicted most parts of the country. The Schiffler building on First street was completed by the contractors yester-day and will be occupied at once by the City Pharmacy and W. F. Poole, jeweler. Improvements to Hotel Mg-Crae, consisting of a three-story brick front, enlarging the lobby and adding a number of first-class rooms are near-

taken, it will come up at the meeting of the council next Monday night and at the same time some definite steps will be taken. Lewis C. Kelsey, an engineer, has been here to look into the matter and now has a man in the engineer, has been as a man in the the matter and now has a man in the field to present his claims to the council when it meets again. From what source the city will figure on getting its water supply is not settled, but that it will cost a large amount of money is sure. There are innumerable cold springs and lakes in the mountains to the north and west of here that would furnish ample water for all time to bring a city supply adequate for all purposes of domestic use would take from a half to a million dollars. It is probable that to get water for the requirements of the city mains would have to be laid for a distance of from 10 to 20 miles.

Although the peeple voted for municipal ownership, there are now many who assert that when it comes to

who assert that when it comes to voting to bond the city for the re-quired amount to install a water plant

# People Have Money to Carry OPERATI

By taking Lydia E. Pinkham's Vegetable Compound
