PRESBYTERY IS BUSY

RESIGNATION OF MT. TABOR PASTOR IS ACCEPTED. Men and Religion Movement Is Indorsed—Vernon Rector to Leave. Loggers to Have Missionary.

The resignation of Rev. E. M. Sharp from the pastorate of the Mount Tabor Presbyterian Church was accepted by the Portland Presbytery in session yesterday in the Third Presbyterian Church, and the pastoral relations were dissolved next Sunday. Rev. J. A. P. MacGaw was instructed to preach in the church at that time and declare the pulpit vacant. Addresses were made by Rev. T. H. Walker, Rev. Henry Marcotte and others commending the work of Rev. Mr. Sharp in the Portland Presbytery. The pastor also resigned from the chairmanship of the Home Mission and Executive Commission. Mr. Sharp is considering four or five calls.

Rev. John H. Boyd, new pastor of the First Church, was transferred to the Portland Presbytery, and the time for his installation was fixed for June 27. Rev. M. A. Matthews, of Seattle, will preach the sermon; Rev. T. H. Walker will moderate the session; Rev. W. S. Jolt will charge the pastor; Rev. William Parsons will charge the people, and Rev. Mr. Griswold will deliver the installation prayer. Rev. Mr. Boyd was welcomed to Portland by Moderator Walker.

COAST LUMBER ORDER OUT

Oregon to Furnish 3,600,000 Feet for Mare Island Work. An order for 3,600,000 feet of lumber, which is equivalent to the cargo of the average tramp steamer, was placed here yesterday, delivery at Mare Island during the next nine months. Thompson & Company, of San Francisco, secured the business and in turn awarded sub-contracts to the Peninsula Lumber Company and the Mountain Lumber Company, the latter's plant being at Kalama, to furnish equal parts of the order. Thompson & Company have a contract for the construction of a seawall at Mare Island and the material will be used in building concrete frames and for other purposes. The transportation contract was let to the Oisob & Mahony Steamship Company, which operates a line of steam schooners between Portland and San Francisco, the fleet bringing cement, asphalt and general cargo north and loading back with wheat and lumber. During May the company discharged 19 cargoes here and with the big lumber contract in view, coupled with smaller engagements through which they have loaded some of their vessels on the river, it is probable that the tonnage will be increased in advance of the completion of a 1200,000 steamer, a contract for which will be let next month.

FESTIVAL CHARMS DETROIT

Michiganers Write to Learn How Portland Manages Fete. Portland's Rose Festival has found favor with the Detroit Board of Commerce and an effort will be made to incorporate some of its ideas. It has made the local celebration a success in a civic demonstration planned in the Michigan city. In a communication received by the Portland Chamber of Commerce yesterday the Detroit officials make inquiries on the cost, method and plans of preparing the Rose Festival and say that the favorable reports of the Festival have caused them to prepare a similar entertainment for that city with the idea of making it an annual affair.

YAMHILL CRAWFISH.

Plenty of the famous Yamhill River crawfish are at The Quella.

JAIL DEATH SUICIDAL

LLOYD LIGHT FOUND TO HAVE TAKEN POISON. Prisoner Not Author of "Blue Envelope" Says Eastern Editor. Relatives Send for Body. Slight traces of cyanide of potassium were found by Dr. R. E. L. Holt in the post-mortem examination of the body of Lloyd Light, self-styled author and alleged forger, who dropped dead in the City Jail Monday morning. As the drug is of very rapid action and a small quantity being sufficient to cause quick death, it is inferred that Light must have taken the dose just before he stepped into the corridor to face the detectives in the morning muster. The prisoner had been subjected to a careful search by the jailer, and the fact that he had the poison shows that he had planned his action and had secreted the drug in an obscure part of his clothing. The development of evidence of suicide by received without surprise by those who knew the man best. He had been a sufferer all his life, and from clippings and literature in his possession it is known that he had given much thought to questions of death and the hereafter. The body remains in the custody of the coroner, but a message has been received from the relatives in Jacksonville, asking that it be sent to Ripon, Wis., for interment. Light's claims to authorship are discounted by a telegram statement made by the editor of the Saturday Evening Post. The magazine editor declares the author of "The Blue Envelope," claimed by Light as his production, is a Philadelphia, at present in that city.

1913 CONVENTION IS WON

American Nurserymen Select Portland After Boston. J. B. Pilkington yesterday telegraphed from San Francisco to the convention bureau of the Commercial Club, that the American Association of Nurserymen, at their convention in St. Louis last week, decided upon Boston for 1912, and in favor of Portland for 1913. The convention bureau had been hoping to land the 1912 convention of the Pacific Coast Nurserymen's Association for Portland, but it is Mr. Pilkington's idea to make the 1913 National convention, one of the greatest that has ever been held by the association, and for that reason he favors

\$2000 GRANTED FAIR

COUNTY AIDS PORTLAND LIVESTOCK ASSOCIATION. Fund Is Allowed With Understanding That Railway Will Double Its Tracks to Grounds. For the aid of the Portland Fair and Livestock Association's coming fair, the County Court yesterday appropriated \$2000, that sum being all that could be spared for that purpose. Representatives of the association have appeared twice to the County Court for funds, asking each time for an appropriation of \$10,000. County Judge Cleston and Commissioner Lighter said that they had looked over the finances of the county carefully and had found that it would not be possible to make a larger appropriation than \$2000. The law which was passed at the last session of the Legislature allowing the county authorities to levy a tax of not to exceed one-tenth of a mill for fair purposes was not in effect at the time the county made its levy for this year, and thus no provision was made for it. If the County Court makes the full levy of one-tenth of a mill it will insure a revenue of \$35,000 a year for fair purposes, but it is not believed that the County Court will go to that extent.

BOSTON OPEN ON SUNDAY

No Visitors Permitted on Cruiser Pending Stowing of Gear. It was cleaning day aboard the cruiser Boston yesterday and Captain Speler ordered a gang of longshoremen to assist the regular caretakers to place the vessel in ship shape for the initial opening for visitors, which will be held Sunday. Following her trip from the Bremerton Navy Yard there remains considerable work to be done in removing gear from the deck and generally straightening up her various departments. Because the stern of the Boston was close to the East Side shore Captain Speler yesterday ordered her further into the stream and now she rides near the main channel, being held by a keel anchor forward and a smaller weight astern with a heavy line running ashore from the stern on the port side. A boom is to be rigged there so the militia sailors can follow the tactics of their regular brethren and ascend from small boats by means of a ladder to the boom and then to the ship, while on the starboard side the regular officers' ladder will remain down. Until a formal order is issued by Adjutant-General Finser appointing an officer in permanent command, Captain Speler will retain charge and look after the Boston, and in a short time details of the first annual cruise of the new organization are expected to be made known.

EXHIBITS MADE LASTING

Processor Employed to Preserve Specimens—Salmon in Jar. Preservation of specimen Oregon products has again been started by the Portland Chamber of Commerce, and a large supply to all available space in the display room in the Commercial Club building will be provided this Summer. An expert processor has been employed to take charge of the work. Sample fruits already have been received and are being placed in jars of preservatives that will maintain them in their natural color and shape. A 6-pound chinook salmon was sealed in a glass jar yesterday by request of the Astoria Commercial Club. It will be exhibited at the Centennial to be held at Astoria next Fall.

ANTI-RUM FORCE PLANS

PROHIBITIONISTS PREPARE FOR PRESIDENTIAL FIGHT. Co-operation by Churches Urged and Contribution of \$1000 by Every County Advocated. That a more systematic organization in the cause of prohibition involving the subscription of a greater campaign fund than heretofore, and the organized co-operation of the church is necessary to make the cause of prohibition a factor in Oregon politics was the conclusion drawn from yesterday's sessions of the prohibition organizers' training school in the four day's programme at the Young Men's Christian Association. Reasons given for the present lack of control of the Prohibition party were: The practice of the Anti-Saloon League working on nonpartisan standards; the lack of interest and co-operation of the church, and the lack of a working state machine in Prohibition politics. Mrs. Jackson Silbaugh, of Seattle, at present state organizer for the Woman's Christian Temperance Union in Oregon, gave an address at the morning session, her main argument being that the present system of education was faulty in that there was a deplorable lack of knowledge among children as to the baneful effects of liquor. The use of the weekly organ of the cause and the liberal distribution of campaign literature were urged by I. H. Ames, V. E. Hinshaw advocated that at least \$1000 be raised by every county for the Presidential election.

2 MUTES ARE GRADUATED

Exercises in Sign Language Are Held at Salem. Graduating exercises at the State School for the Deaf were held today, when Charles Lynch, of Salem, and Fay Newth, of Philomath, received their diplomas from State Superintendent of Public Instruction Alderman. A dinner was prepared by the domestic science department of the school and the members of the State Board were guests at the luncheon. An essay by Charles Lynch on "What the Deaf Have Done," and another by Miss Newth on "Golden Needs," were features of the programme. Musical selections were furnished by Susie Sprague, Pearl Marquette, Lila Hardy, Fay Newth and Margy Kay. Another pretty feature was the giving of "Nearer My God to Thee" in sign language, accompanied by music, those participating being Mattie McClain, Margy Kay and Lila Hardy. Rev. H. T. Babcock, of Salem, offered the invocation.

COUNTRY HOMES.

Six exclusive suburban tracts, partly wooded, containing four and one-half acres each. Slightly accessible; soil the most productive. Attractive price and terms. Apply to E. F. Riley, owner, 219 Chamber of Commerce Building, Main or A 2655.

CARD OF THANKS.

We wish to extend our heartfelt thanks and appreciation to the many friends who have given evidence of their regard in the beautiful floral offerings and many acts of kindness on the occasion of the death of our beloved husband and father, JAMES MURPHY, who departed this life on June 17, 1911. MRS. T. H. MURPHY AND FAMILY.

WAR ON FOREST FIRES ORGANIZED.

That the forest fire season of 1911 approaches with better laws and stronger patrols than were in effect at the beginning of last season, but that the last general rains cannot be counted on to postpone danger beyond June, is the substance of a statement issued recently by the Western Forestry & Conservation Association after a systematic canvass of field conditions through its constituent fire-fighting
