condition is critical and that he may

live only a few hours.

fect is to prevent more than 60 per cent of the passengers on a car from standing. In some types of car, with narrow aisles, less than 50 per cent of the passengers are allowed to stand.

The operation of the bill is to make it a misdemeanor for the streetcar comnanies to allow their cars to stop for a passenger after they are loaded to the limit prescribed. The bill also provides that the operating company is guilty of a second misdemeanor if it does not supply a second car behind the first on schedule time.

This leaves the reciprocity measure open to the general fight that is to follow for amendment of important provisions of the Payne tariff law. Amendments Are Promised. Senator La Follette announced that he would give the Senate a chance to

David Campbell, veteran Chief of the Portland Fire Department, was killed at \$:35 o'clock yesterday morning, while heading a desperate fight on fiames surrounding thousands of gallons of oil in the Union Oil Company's plant at East Water and East Salmon streets. The fire was one that imperiled the lives of scores of firemen and thousands of onlookers. The plant was destroyed, at a loss of \$100 .-

Chief Campbell met death while making courageous efforts to plan the handling of a dangerous fire that had been defying control. He walked coolly into the burning place in search of a possible solution to the grave problem that confronted him and his Warned of the risk, he said simply that it was necessary for him to go inside.

### Explosion Deals Death.

As he passed to the center of the building a fearful explosion wrecked the one-story concrete structure. The Chief was plunged to death in a seething cauldron, amid tons of debris. There was trouble in identifying him when the body was removed hours later. Accumulation of gases generated in empty oil tanks and exposed to the heat is given as the cause of the fatal explosion.

Twelve or more firemen, working at the north of the building, were nearly capght by the heavy concrete wall which collapsed under the force of the explosion. This wall fell outward into the street and the firemen avoided it by a mad scramble, a heavy rush of air from the center of explosion lending impetus to their flight. Battalion Chief Young was thrown into the street and struck by flying wreckage and Patrolman Evans was knocked down by bit of concrete. Neither was hadly hurt.

### Multitude, in Danger.

Upmindful of an ominous danger, a crowd of 19,000 people surged around the vicinity of the building all forenoon while the flames careened about two great tanks holding 14,000 gallons of water-white, gasoline and benzine. These tanks, being under the surface of the street, were not visible to the throngs, and thus the danger was made far more intense. Luckily the oil in these hig receptacles burned away Explosions of small tanks gradually. and canks boomed at intervals all forenoon, but the only serious explosion was that which claimed the life of Chief Campbell.

### Chief Takes First Chance.

When Chief Campbell went on his fatal mission into the building about 8:15 A. M., he sought to take advantage of a rift in the dense pall of black smoke. This rift had been caused by a

DOCTOR'S LIFE MENACED tion of the agreement went into effect. Police Powerless Before Tricks of Suspected Anti-Vaccinationist.

SEATTLE, Wash., June 26-(Special.)-Laughing at the efforts of the police to capture him and growing more serious in his threats every day. an unknown anti-vaccinationist, who resides somewhere in Ballard, has warned Dr. F. L. Shephard, of 331 Walker building, that unless he leaves Seattle within a week he will be assaysinated.

Eight letters, some of them signed by the Black Hand, have been received by Dr. Shephard in the last ten days. Each was delivered at his office, one eing written on his desk during his absence at midday, the others slipped through the door by day or night. For six days the police department has watched the office, but the mysterious enemy of Dr. Shephard has avoided

About two weeks ago Dr. Shephard took over the city vaccination work of Dr. C. W. Knudson, of Ballard.

# BATTLESHIP UTAH IS FAST

New Craft .887 Knots Faster Than Contract Requirement.

ROCKLAND, Me., June 16 .- A maximum speed of 21.637 knots, .837 greater than the contract requirement, was attained by the new United States battleship Utah, the intest addition to the Nation's dreadnoughts, during her standardization trials over the official course here today.

In all, 20 runs were made. In three she made a speed of 20,556 knots. On three others 12,015, in another group of three 16.799 knots and in still another 19,049.

In the top speed runs the Utah averaged 31.288 knots. Her contract requires 20.75 knots.

The battleship is \$8.4 per cent com pleted and it is expected she will be ready to go into commission about August 10.

# PSEUDO FERNS SELL WELL

South Bend Residents Pay Stranger

# \$1 for Fake Plant,

SOUTH BEND, Wash, June 26 .---(Special.)-A well-dressed and suave man arrived here last week and began selling "Philippine ferns" at \$1 a plant. He said that the ferns were shrunk to about the size of a peanut but, if sonked in water for 12 hours. would swell to their original size and, after eight weeks, bloom every 30 days and live forever. He sold his entire stock in a few hours and left town, presumably to replenish stock.

The "ferns" have been soaking ever since but obstinately refuse to change their size or condition.

Reciprocity Held Harmful. "I am opposed to this so-called reciprocity legislation as a whole, because I believe it is wrong, harmful and unjustifiable," said Senator La Fol-"If it must pass I want to see lette. it made as nearly perfect as possible.

I shall vote against the Root amendment, because I believe it will defeat the very purpose of the wood pulp and print paper paragraph of the agreement." Senator La Follette said there was

no justification for duty on print paper. He analyzed the figures of the tariff board to show that the best mills in the United States actually could produce paper cheaper than the best mills To continue a high tariff of Canada. on paper, he said, was to put a pre-mium on "inefficiency and sloth" and to make the protective tariff "deaden (Concluded on Page 2.)

ROMANCE SOLVES SECRET Spokane Librarian Admits Reason Mr. Funk's statement about the de-

# She Resigned Position.

SPOKANE, Wash., June 26 .- (Spe cial.)-The secret is out. The reason for the resignation of Miss Alta E. Stansbury, city librarian, is matrimony.

Miss Stansbury will go to Chicago this Fall to become the bride of F. A. Sager, of the Windy City. The groom-

B. A. Arnold Company, and the romance began when they were schoolmates at Cedar Rapids, Ia.

and to secure control of one of the most valuable coal fields in the world. Secretary Fisher's decision today is believed to be virtually the closing of the last door to the Cunningham claimants, whose claims have been held up since

He

1907, when they were first disapproved by Louis R. Glavis and H. T. Jones, as special agents of the Land Office. Appeal Must Be on Legal Issues. Although attorneys for the claimants have threatened an appeal to the United States Supreme Court, such an appeal

disallowed today.

cannot be based on the findings of fact as announced by the department, which Secretary Fisher says in his decision he considers conclusive, but only on some point of law involved.

Since the Cunningham claims came into public notice two years ago, they have caused the Ballinger-Pinchot investigation by Congress, and the dismissal from the public service of Gifford Pinchot, Chief Forester, and Louis R. Glavis, chief of a field division in the land office, who had disapproved the claims, besides several minor officials. The dismissal of both Pinchot and Giavis was brought about by their insubordination in attacking R. A. Bailinger, then Secretary of the Interior.

### Decision Political, Says Ballinger.

In a signed statement from Seattle, ex-Secretary Ballinger tonight denied that the decision disallowing the claims was a reversal of his official relation to the claims, which had not been under his control. He declared, however, that the decision was a political one, and not according to the law. Mr. Ballinger said:

"Many persons seem to be laboring under the erroneous impression that the recent decision of the Commissioner of the General Land Office in canceling the Cunningham claims is a reversal of my official relation to these claims. Since 1907, when I was Commissioner of the General Land Office, these claims have been standing on my order of reinvestigation. As Secretary of the Interior, I took no action respecting these claims, as they were under the control of Commissioner Dennett. As to the present decision, I am of the firm belief that there is no evidence that a court of justice would hold sufficient to warrant the denial of patents. In other words, the decision of the Commissioner is political and not judicial."

Alaska if that territory is to be devel-oped property. The Secretary says: "This is a final decision of the Cun-ningham claims so far as the Depart-ment of the Interior is concerned, Any further proceedings will be merely formal, for the purpose of protecting the record in case the claimants think (Concluded on Page 14.)
