from a manufacturer, who, rather than have his trained working forces remain idle and to permit great quantities of silks to remain uncut and, perhaps, go out of style before he could receive the full worth of his materials. —We are giving this announcement wide publicity with hopes of reaching all those women who might be interested in foulard dresses.

N., a hero of Samoa, and granddaughter of ex-United States Senator Davis, was married at noon today to Lieutenant Chester P. Barnett, of the Third Artillery, U. S. A., stationed at San Antonio, Tex. The wedding ceremony was held in the Hall of Graceland, the residence of ex-Senator Davis. The bride was attended by Miss Elizabeth Olyphant, of New York; Miss Elsie Price, of Baltimore, and Miss Natalie Sutherland, of Elkina. Attired in white, leaning on the arm of her grandfather, approached an altar constructed of rhododendrons, chrysanthemums and American Beauty roses, which rose to a height of 14 feet. The bridal party was met at the altar by Lieutenant Barnett, wearing the full dress uniform of his rank, and attended by Captain Dent, of Fort Myer, Va. Rev. F. H. Barron, of the Davis Memorial Presbyterian Church here, read the ceremony, following which a reception was held, attended by many from Washington, New York and Baltimore, the military service being well represented. ### COIN SHIPMENTS AIDED

Silver May Be Sent West at Expense of Government.

OREGONIAN NEWS BUREAU, Washington, June 29.—Senator Dixon will endeavor to amend the House deficiency bill to include the cost of transporting silver coin to Western banks asked for by the Portland Clearinghouse and others. The bill has already passed the House, but the appropriations committee will accept the amendment if the Senate incorporates it, and it is believed it will do so. The movement to petition the Government to stand the express charges on all silver coin shipped to Western banks was started by the Portland Clearinghouse because it simply meant that the banks had to pay about 2 per cent discount to secure silver for circulation. In other words, the banks got only about 98 cents for every dollar they handled through channels of trade. This burden proved onerous and amounted to many thousands of dollars a year. It also had the effect of withdrawing much silver, dollars and half-dollars, out of circulation and flooding Portland with currency.

### TIME IS RIPE IN VENEZUELA

Traveler Believes Army Will Force Castro Into Office.

NEW YORK, June 29.—Milton Gulick, who has returned from a trip through the South American Republics, does not share the views that Cipriano Castro's former adherents have so generally deserted him that the former President's return to Venezuela need cause no alarm. Gulick is convinced that Castro is a very real menace. He says most of the South American statesmen believe Castro is in the West Indies now and that he will succeed in reaching Venezuela. "In Venezuela the times are ripe for the reappearance of General Castro," says Gulick. "Ever since he left there his party has been busy and it is ready for the celebration of the hundredth anniversary of freedom from Spain. If Castro lands in the country he will surely be returned to the Presidency. He will have the army behind him. The crowds which will attend

### CELILLO CANAL IS RUSHED

Lewiston Merchants Anxious to Get Bigger Fund for Work.

LEWISTON, Idaho, June 29.—(Special.)—According to Professor W. D. Lyman, of Whitman College, representing the Rivers and Harbors Congress, who was in Lewiston Tuesday, the Celilo Canal, now under construction, will be completed within five years, with the present \$600,000 appropriation, but with \$1,000,000 it would be completed in three years. A communication was read from Major Morrow, of Portland, engineer in charge of the Columbia River district, to the effect that he would be glad to act upon the recommendation of the Lewiston Commercial Club, relative to the amount needed to continue the improvement on the Snake River. For several years through Professor Lyman, Lewiston has been in close touch with the work, and keen interest in the advancements toward the open river to the sea movement is felt.

### FATHER'S DEATH PROBED

STEPCHILD'S MURDER LEADS TO FURTHER INQUIRY.

Investigation Shows Little Girl's Neck Could Not Have Been Broken by Fall in Swoon.

OROVILLE, Cal., June 29.—(Special.)—As the certainty grows that 13-year-old Helen Rumball was murdered by either her step-mother, Mrs. Emma Rumball, or her step-uncle, Arthur Lewis, the authorities have determined to carry the investigation further. Accordingly all the circumstances surrounding the death of the father of the little girl, William Rumball, are to be investigated in an effort to determine whether or not his death could have been caused by any but natural cause. The father died at the family home last September. He came to Butte County from Barrack, N. D. The authorities will make no statement as yet relative to his death, saying that nothing could be said until an investigation had been made. The funeral of the little murdered girl was largely attended. Despite the horror of the crime, the step-mother is showing no sorrow and appears to have little feeling. The step-uncle, Arthur Lewis, is sullen and morose and also exhibits little grief. The examination made by District Attorney Jones and Sheriff Webber effectually disproves the theory that the girl's neck could have been broken by a fall in a faint. She was bound so that it was impossible for her to have fallen. The neck was broken either by a jerk of the rope or by a blow after the rope had been drawn taut.
