

HEAT RETURNS TO SUN-BAKED EAST

Respite From Deadly Humidity Is Brief and Big Cities Report More Victims.

32 PERISH IN CHICAGO

New York, Philadelphia, Boston and Pittsburgh Continue to Suffer Fatalities—Today and Sunday to Be Scorchers.

HEAT VICTIMS CONTINUE TO FALL DESPITE COOL WEATHER.

Despite the lower temperature in all sections, excepting Maryland, New Jersey and the District of Columbia, deaths from heat continue, showing the unusual severity of the five days' siege, which left so many prostrated victims without vitality enough to survive. Dispatches to 10 o'clock tonight show the following deaths:

Chicago, July 7.—(Special.)—Chicago's respite from the deadly heat wave which has been moving down its citizens right and left for a week, was of short duration. The temperature last night fell below 70, reviving drooping humanity, but today the humidity almost doubled and the heat ran up to the smothering point.

Forecasters say tomorrow will be hot and that Sunday will be as fierce as any of the five deadly days of this week. Thirty-two deaths had been reported up to 10 o'clock tonight, and following the rule established during the week, this number probably will be doubled when all returns are in for the day and night.

Advices from the East show that cool breezes tempered the suffering at all points excepting the region including New Jersey, Eastern Pennsylvania and Maryland. Special dispatches tell of 17 deaths in Philadelphia; 14 in New York, nine in Boston and seven in Pittsburgh. Baltimore and Washington report no change in the temperature which has been baking these cities for a week.

In Texas, a five months' drought was broken by soaking rains which spread over 80 counties, doing millions of dollars of good to the farmers.

The Illinois State Board of Agriculture in a special report says the long heated spell has badly damaged all crops in the state, some of them irreparably. Official reports show that the fruit crop of Iowa has fallen off 10 points in the last five days.

EASTERNER BUYS RIGHTS

Marshfield Bankers Negotiate Big \$150,000 Water Contract.

MARSHFIELD, Or., July 7.—(Special.)—Thomas P. Nolan, an attorney from Omaha, Neb., has completed negotiations for the purchase of the Coos Bay Water Company from Flanagan & Bennett, the bankers of this city. The price paid is said to be \$150,000. The deal has been made with the provision that the City Council grant a franchise to the new owners. In making application for the franchise it was stated to the Council that the water supply would be built and more mains laid and that the water plant would be put in a first-class and modern condition. The water company gets its supply from a point west of Marshfield and furnishes water to both this city and North Bend.

The franchise, in all probability, will be granted to the purchasers and the deal will be closed. It is said that Mr. Nolan is acting for Eastern capital.

SEATTLE PAVING BID LOW

Price of \$1.45 Yard Made for Proposed Street Improvement.

SEATTLE, Wash., July 7.—(Special.)—A bid of \$1.45 a square yard for asphalt paving, the lowest ever made in this city, will probably result in the awarding of a contract to the Barber Asphalt Paving Company for the improvement of Twenty-first Avenue between Madison and Roy streets, and other streets in Local Improvement District No. 297. The company also has the lowest of five bidders on a verified brick paving at \$2.40 a yard.

The prevailing price for asphalt paving has been from \$1.75 to \$1.85 a square yard. Trouble among the contractors is the cause of price cutting. It was said that protest against the improvement would be laid before the Board of Public Works, but none was offered. The contracts will be awarded next Tuesday.

STATE TO PAY INSURANCE

Wisconsin Bill, Which Includes Annuity System, Is Signed.

MADISON, Wis., July 7.—Governor McAdams has signed a bill authorizing the state to engage in the annuity and life insurance business after next year. The business is to be carried on under the management of the state insurance commission and is to be conducted on the same lines as a mutual insurance corporation, but at an expense not to exceed \$2 per \$1000 insurance.

Premiums are to be calculated according to the American mortality table. Annuities are to range from \$100 to \$300, and life insurance policies from \$500 to \$2000.

LANE COUNTY INFIRMARY ON WAY.

EUGENE, Or., July 7.—(Special.)—Buildings for the Lane County infirmary, between Eugene and Coburg, are nearing completion, although the contract gives until September 1. After having contracted for a number of years with Mrs. M. E. Russell to care for the county poor, the county has purchased a farm and will maintain its own institution under the supervision of R. W. Russell, son of the former caretaker of the poor.

ACTRESS THOUGHT TO BE REVELING IN DOMESTIC BLISS BRINGS SUIT FOR DIVORCE.

ETHEL BARRYMORE.

THE WEARER ETHEL

Miss Barrymore, Model of Domesticity, Will Sue.

RICH HUSBAND ACCUSED

Only Ground Permissible Under New York Statutes Alleged in Complaint Prepared by Actress in California.

LOS ANGELES, July 7.—(Special.)—Somewhere between Los Angeles and New York there is a messenger bearing a packet of legal papers. He will arrive in New York state, and Monday morning, according to program, suit will be entered in the courts there by Ethel Barrymore, actress, against Russell Griswold Colt, the multi-millionaire, for absolute divorce.

The action is to be based upon the only grounds on which divorce is granted in New York state, and Colt is charged with infidelity. A woman's name is to be mentioned in that connection.

Miss Barrymore went to a notary public in Hollywood day before yesterday and made the necessary statements and affidavits. The papers were quickly sealed and a young man who had come from New York for this special purpose took the night train over the Southern Pacific back to the metropolis.

The suit is to be filed Monday in New York and Miss Barrymore plans to return to that city in ample time to be present at the hearing.

Miss Barrymore was married two years ago to Russell Griswold Colt, one of the prominent and wealthy young men of New York.

The trouble arose when Avery, from the stage for the time being and seemingly revealed in a life of domesticity. She was spoken of as a shining example among women of the stage of adaptability to wedded bliss. Beside being exceedingly beautiful, Miss Barrymore had in later years overcome the handicap of relationship to a family of great actors and had won real praise for her own histrionic merit.

A child was born about a year ago.

JUDGE READY TO FIGHT

COURT RESENTS CHARGE HE "DOCTORED" COX PAPERS.

Cincinnati Prosecutor and Jurist Who Quashed Indictment Against Boss Have Lively Row.

CINCINNATI, July 7.—Charging that Judge William Dickson had mutilated the record of George B. Cox perjury case, Prosecuting Attorney Avery precipitated a personal encounter in the chamber today that ended in his being ordered to leave the room. The judge is said to have offered to settle the dispute by personal combat.

The trouble arose when Avery and another assistant prosecutor went to Judge Dickson, who recently quashed the indictment against Cox, and complained that the bill of exceptions in which the state hopes to get the case into the Supreme Court of the state had been altered by the jurist.

"You made up the bill of exceptions to suit yourself," Avery told the judge. The row followed.

Judge Dickson declared afterward that he had attempted to correct the bills in a few minor particulars and then, in order to send a new bill to the higher court, had had the pages containing the interlineations and erasures copied.

JAP TRIES THRICE TO DIE

Nampa, Idaho, Jail Scene of Crazy Foreigner's Peculiar Actions.

NAMPA, Idaho, July 7.—(Special.)—Three attempts at suicide were made in jail today by a Japanese employee of a Nampa hotel. Shortly after noon he was discovered hanging from the steel rods of the cage in which he was confined.

He was rescued before he had time to harm himself, but the officers returned only a few minutes later to find the Jap in the bunk with his suspenders around his neck and doing his utmost to strangle himself.

The fellow was persistent in his efforts to end his existence and a short time later made the third attempt. Strips, torn from his shirt, supplied the means for his suicide. The Jap was found hanging from the top of the steel cage. As before, his plans were interfered with by the police and in order to prevent any further endeavors along this line a couple of his own countrymen were detailed to guard him pending the time when he could be turned over to the proper county officials. The Jap was taken in custody by the police last Monday at the request of fellow employees who became alarmed at his peculiar actions. That the cause of his insanity is not known and the police have thus far been unable to even learn his correct name.

"MUD TAX" PROTESTED

VIRGINIA SENATOR PLEADS FOR ROAD IMPROVEMENT.

People at Home Should Be Treated as Generously as Those of Colonies, Says Swanson.

WASHINGTON, July 7.—Annual appropriation of \$25,000,000 for five years to improve the public roads and rural delivery routes of the Government was urged in the Senate today by Senator Swanson of Virginia.

Swanson explained that his plan would open up more than 1,000,000 miles of roads to Government aid, that the states or local authorities would furnish an amount equal to that appropriated by the Federal Government and that the total would be divided among the states according to population.

"Our wealth," Swanson continued, "is greater today than that of any other Nation; we have become supreme in finance and foremost in the world's commerce; we surpass in money expended for primary and general education and mileage of railroads, navigable rivers and improved harbors; the story of our progress reads more like romance than history."

"Yet," he said, "no other enlightened people in the world are cursed with such a wretched condition of roads, with more than nine-tenths of the population living in the United States during rainy seasons almost impassable."

The average haul of this vast commerce over the public highway has been estimated at a little more than nine miles, averaging in cost 23 cents per ton per mile, against seven cents in France and 11 cents in England and Germany. Based on estimates of what he termed good authorities, improvements of the main lines of the system of the country in this country alone would cost more than \$25,000,000 annually to the people of the United States. This would be paid for by a "mud tax" paid each year by Americans for hauling their products over poor roads.

Swanson contended that the people of the United States should be treated by the Government as generously and considerately in the matter of road improvement as are the people in the American colonies, for whose roads the Washington Government has appropriated generously.

JUROR'S ILLNESS COSTLY

Retrial Will Mean Added Expense to Government of \$40,000.

LOS ANGELES, July 7.—The illness of a juror in the trial of Attorney Fred H. Thompson, charged with receiving \$15,000 stolen from the mails, has cost the Government \$40,000.

This was shown today when attorneys for the Government and for Thompson both agreed to a new trial, as the first and unfinished one had been delayed much by the illness of C. J. Ingersoll, a juror.

The new trial will mean the impeding of another jury and the expenditure of at least another \$40,000. It was said, as there are no fewer than 65 witnesses from all parts of the country to be called and examined.

EASTERNERS BUY FRUIT LAND.

WHITE SALMON, Wash., July 7.—(Special.)—Two business men of Des Moines and Denver bought 80 acres of the Goldman & Gary lands in the Snowden section today. The whole tract is to be slashed and next year will be set to trees.

IMMIGRATION PLANS ARE LAID BY ELKS

Portland Men Decide to Make No Alliances on Election of Officers.

ABERDEEN, S. D., IS HOST

Travelers on "1912 Special" Royal-ly Entertained by Lodge That First Indorsed This City as Convention Seat.

BY K. K. KUBEL.

Exalted Ruler Portland Lodge of Elks, CHICAGO, July 7.—(Special.)—A meeting of the delegates to the Grand Lodge of Elks at Atlantic City was called yesterday and an organization was perfected by the election of Gus C. Moser, past exalted ruler of Portland Lodge, as chairman, and Dr. Carlton Smith, of Salem Lodge, deputy district exalted ruler of Oregon south, as secretary. Plans were laid and the situation was generally discussed as to the best methods to be pursued for obtaining the convention for Portland in 1912. It was the consensus of opinion that a Western delegation should remain free from any alliances with reference to the election of grand lodge officers. All entanglements with any grand lodge candidates are taboo.

Aberdeen Invites Stop.

A long message was received by the Atlantic City committee from the exalted ruler of the Aberdeen, S. D. lodge, July 1, inviting the Elks to stop at that city. Exalted Ruler Kubel telegraphed Aberdeen that the Elks' special would stop at Aberdeen one hour. Upon the arrival of the special at Aberdeen, a beautiful and flourishing city of 16,000 people, the train was met seemingly by the entire populace and a band of 30 pieces. Two-thirds of the delegates of Aberdeen Lodge, which numbers 600, were in uniform and a parade was formed and the entire delegation was conducted to the beautiful new Elks' home, where refreshments were served.

Joseph Deltz, chairman of the Atlantic City committee, was placed in charge of the ceremonies, which were in the nature of a social gathering. He explained the mission of our trip, introduced Dr. M. C. Johnson, exalted ruler of Aberdeen Lodge, who delivered an address of welcome and assured Portland Lodge the support of Aberdeen's delegates at Atlantic City for the 1912 convention.

Kubel Given Key.

Dr. Johnson presented Exalted Ruler Kubel with a bronze key, three feet in length, and after a few remarks explaining the mission of our trip, introduced Dr. M. C. Johnson, exalted ruler of Aberdeen Lodge, who delivered an address of welcome and assured Portland Lodge the support of Aberdeen's delegates at Atlantic City for the 1912 convention.

SEAL TREATY SIGNED

PRIBILOFF HERDS WILL BE WHOLLY PROTECTED.

United States Agrees to Make Loan.

Pelagic Hunting Is Prohibited in Four Seas.

WASHINGTON, July 7.—The final signatures were affixed to the treaty for the protection of seal life shortly before noon at the State Department and the convention will be submitted immediately to the Senate.

By the terms of the treaty, pelagic sealing is prohibited in the seas of Bering, Okhotsk, Kamchatka and Japan.

The convention arranges for the apportionment among the signatory powers of the annual proceeds of the seal herd, which is divided equally between Great Britain and Japan; 30 per cent from the Japanese herds is divided equally between the United States, Great Britain and Russia; 30 per cent from any herds which may hereafter resort to the breeding grounds under British jurisdiction in the North Pacific Ocean is to be divided equally between the United States, Russia and Japan.

In connection with the apportionment the United States will make an advance payment of \$200,000 to Great Britain and Japan each. These payments are to be refunded to this country out of the proceeds of the British and Japanese share of skins taken from the herds.

"This payment," says an official statement on the subject, "is in effect merely a loan, and was necessary only because the United States reserved the right to discontinue altogether the killing of the Pribiloff Island seals."

The convention also prohibits the hunting of sea otters on the high seas. Aside from ratification by the Senate, it will also be necessary for Congress to pass some legislation to carry its provisions into effect.

SALEM GOING TO ASTORIA

Big Celebration in August May Attract Over 500 People.

SALEM, Or., July 7.—(Special.)—Between the Salem Board of Trade and President Carl Gray, of the Hill Hotel, arrangements are already under way to run a monster special excursion over the Oregon Electric to connect with the Astoria & Columbia River at Salem day after the Astoria Centennial in August. Plans are being made to secure co-operation of at least 500 Salem people to make the trip.

President Gray hopes to arrange the schedule so that the train can be sent directly through without change of cars at Portland and in event this can be done members of the Salem Board of Trade are confident that they can send to Astoria the biggest delegation of Salem people that ever left here at one time to attend a celebration in a sister city.

ASTORIA CATCHES ALLEGED THIEF.

Fred Campbell, a man who claims to have been taken to the local office of the Pacific States Telephone Company yesterday and is alleged to have stolen \$25 in cash and several checks, which one of the clerks had laid on the desk preparatory to taking them to the bank, was captured at the Astoria Centennial today.

On returning last night, Campbell attempted to pay the

ACRES WILL BE WATERED

Klickitat County Project Estimated to Cost \$85,000.

GOLDENDALE, Wash., July 7.—(Special.)—Sealed bids for the contract of constructing a drainage canal in Drainage District No. 1 of Klickitat County,

have been opened by the County Treasurer. Bids for the bond issue of the district had also been advertised for, but no bids were received for the bonds alone. The project involves the draining of Conboy Lake and the reclaiming of 7000 acres of land in the Camas Prairie region of western Klickitat. Damages were awarded for right of way and benefits were estimated which will accrue to each tract in the district. In the Superior Court last April when the matter was submitted to a jury in the last case Judge MacMaster tried at Goldendale.

Bids were made on a basis of the successful bidder floating the bonds of the district and depositing the difference between the price of his contract for the work and the bonds issued. The amount of the bond issue has not been fixed, but the Commissioners of the district estimate the amount at about \$85,000.

KEY IS HELD BY CITIES

SENATOR PLEADS FOR ENDING OF NATIONAL CORRUPTION.

Owen Says Municipal Plan of Government Has Direct Effect on National Welfare.

WASHINGTON, July 7.—Declaring that the commission plan of government had a direct effect on the welfare of the Nation by eliminating corruption at the fountain head, Senator Owen, of Oklahoma, today advocated that method in a speech in the Senate.

"The commission form of government," said the Senator, "has a national value and a direct bearing upon the integrity of the election of Senators because it is an important agency in overthrowing corrupt machine politics in municipalities and cities. The proportion of inhabitants living in cities as compared to the inhabitants of the United States is between 40 and 50 per cent, not counting towns of less than 2500 inhabitants. If corrupt government can be terminated in cities it can survive in the states or in the Nation."

The Senator said the commission form of government eliminates mere partisan politics in cities, towns and villages. In the government of such municipalities, it usually carries with it, he said, the initiative, referendum and recall, giving a home government, a popular government.

"It enables the people, through the initiative, referendum and recall," said the speaker, "to initiate and pass any law they see fit, including corrupt practices, prevention acts, and veto any law they do not want, such as the granting of franchises of value without consideration. It enables them to recall inefficient and dishonest officials."

Senator Owen said more than 200 cities and towns have adopted some form of this improved method of city government within the last two years.

front of the automobile with one of the stolen checks and this led to his arrest. All the checks were recovered, as well as \$4 which he had on his person and \$20 which he had given to the woman.

POLICE FORCE INCREASED

Seattle Adds 55 Officers to Act Throughout Potlatch.

SEATTLE, Wash., July 7.—(Special.)—Fifty policemen and five detectives will be added to the local force during the festivities of Potlatch week. The finance committee of the City Council today decided to introduce an ordinance appropriating \$2700 for this purpose.

The new men will not be provided with uniforms, but will be sent into the residence districts, while the experienced men whose places they take will be distributed in the downtown district. The detectives will be brought here from Portland, Vancouver, Spokane and San Francisco. The additional men will be appointed Tuesday and go on duty Wednesday morning.

Idaho Socialists Name Nampa Man.

NAMPA, Idaho, July 7.—(Special.)—Professor L. F. Stewart, of this city, has been elected secretary of the Idaho Socialists' organization and will move the state headquarters to this city from Emmett about August 1. Mr. Stewart was elected by a big majority over Conrod, of Emmett, who was a candidate for re-election to the position.

Nampa to take charge of and direct the Nampa band, a little over a year ago and since his arrival here he has organized and advanced in membership a Socialist local that is now one of the strongest and most enthusiastic organizations of the kind in the state.
