Health Rules Studied.

An illustrated lecture in one of the An illustrated lecture in one of the churches by Dr. John S. Fulton, of Washington, D. C., on the subject. "Child Welfare," is planned.
"We are working along on the 15th International Congress with great success," said Dr. Fulton yesterday, "and we hope to make it an even bigger affair than the congress which met a number of years ago. We have received acceptances from invitations sent out to practically every nation in the world and practically every state in the United States will be represented. We will take up all mat-ters of public importance in regard to health conditions. The world is now making great progress in health lines because of the hygienic research which is being carried on by the medical fraternity. The Panama canal, when the French were building it, it is said, a laborer was buried for every railroad tie that was laid. Research in hygiene has eliminated those condi-tions. It is a wonderful sample of what can be done under proper conditions.
"What has been done for the Panama canal district must be kept up if the canal is to be operated without great loss of life from disease."

Portland Climate Commended.

One of the most distinguished of the visitors is Dr. W. H. Weich, pro-fessor of pathology of the Johns Hop-kins University of Bailimore and the president of the American Medical Aspresident of the hard state and seed at As-sociation for the year ending at the election held at the recent Los An-geles conventio... He will leave to-morrow afternoon for Seattle, where he will take boat to Alaska on a pleas-"Of all the pleasant experiences so

far on my trip, my visit in Portland has been the best," suid Dr. Welch yesterday afternoon. "I am enchanted with your beautiful city. The weather here is surprising and I can tell you that it is a great pleasure to escape the heat of Baltimore.

"There is no doubt that the people here ought to be able to do more work."

here ought to be able to do more work and live better and healthier lives here

than they do in the East.
"I am highly pleased with not only what I've seen but also the hospitality. The local physicians have given us a great reception and have shown us courtesies which we had hardly expected."

H. M. Horton Says Residents Hope for Road Soon.

Harriman Interests May Have to Build Through Harper Basin in Order to Hold Right of Way Long Acquired.

BY ADDISON BENNETT.
Mr. and Mrs. H. M. Horton, of Burns,
Harney County, Or., are in the city on
their way to North Beach for an outing and incidentally to attend the meeting of the Druggists' Association to be held there this week.

Mr. Horton is one of the solid financial men of the interior. He has now retired from active business, but has many interests to occupy his time

and attention.

He went to Harney County more than 25 years ago and for a time practiced dentistry, and then engaged in the drug business and accumulated a large fortune. He sold out about two years ago to Reed Brothers. Mr. Horton was for almost 20 years the Burns agent for The Oregonian. Mr. Horton left Burns at 6 o'clock

Friday morning by automobile. He arrived in Prineville, 151 miles, at 6 o'clock the same evening. At 6 o'clock Saturday morning he took auto

Mode of Travel Contrasted.

Speaking of his trip he contrasted it with many former visits he has paid to Portland during the last quarter of a century, when it took from four to five days to make the trip and then he had to spend at least one night in he had to spend at least one high in a stage. In the language of Mrs. Mc-Dowell, of Prineville, the former trips were torture, the last a luxury. One of the first utterances of Mr. Horton yesterday was that Harney County is looking fine and the crop prospects the best for many years. The Spring was cold, backward and very dry, but in May there came good show-ers and in June heavy rains, and now everything looks well, the range being in better condition than it has for

for lambing, in some cases the increase falling as low as 45 per cent. But the bands in best condition and with best handling went as high as 36 per cent. On the other hand, the sheepmen are elasted over the price of wool, as they received as high as 16 cents a pound, with an acrosatic act.

Landauer came to Portland in 1900 with the McMann shows. He and his cents, when carlier in the season they thought they would be lucky to get 11 cents.

Railway Disappointments Many.

Of the railway situation Mr. Horton, like all well-informed Harney County people, could not help recurring to the old days and the old railway promises and fasiures. First, it was said some 29 years ago that the Corvallis & East-rern would be pushed to completion. Then along in '85 and '35 the Short Lime began work west of Ontario, and they could, in imagination, hear the whistle of the locomotives in the great. Harney Valley, But if was all a bluff. Now they are looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the west; looking to the cast and looking to the winter late with the greatest body of agricultural land in the state, the wonderful Harney Valley; is some 50 miles from the size it as a reservoir site if the railway allows its time to lapse. Local authorities are much displeased with the treatment which, they assert, amounts to lack of consideration, they have received from officials of San Diego County, in their efforts to have

Diego County, in their efforts to have Wilde taken into custody.

The impression is growing that W. Cooper Morris, Wilde's alleged partner in the transactions upon which the indictment is based, has paid the price demanded by the authorities for his parden or shortening of the six years' imprisonment he is now serving, and will divulge some inside information touching on the bank's affairs that will be ing on the bank's affairs that will be disastrous to Wilde. Morris was assured in advance of the trial that if he would tell all he knew about the bank and the transactions that forced its suspension, he would be let off with one year's imprisonment and a fine of \$1000. But Morris would not surrender, expressing confidence in the inability of the prosecution to con-vict him. He is now said to be ready

Chautauqua Association Invites Visiting Women to Be Its Guests. High Mass Celebrated Before Large Crowd.

ALBANY, Or., July 9.—(Special.)—In welcoming the Knights of Columbus to this city on the occasion of the institution of Albany Council. No. 1577, sectional and sectarian lines were oblit-erated. While Catholic women of the parish of Our Lady of Perpetual Hope had decided on an claborate entertain-ment scheme in welcoming their sisters of many cities, who accompanied Knights of Columbus on their pligrim-age, the Chautauqua Association, through President Eills, asked that the visiting women spend the afternoon at the Chautauqua as the associations

A special train arrived from land at 10:10 o'clock, but in advance of that delegation came others from Eu-gene, Medford, Grants Pass and other Southern Oregon cities.

High Mass Is Held.

To facilitate the more lengthy work in the second and third degrees the class constituting the charter members of Albany Council were initiated in the ceremonies of the first degree in advance, so all attended a special high mass at the Church of Our Lady of Per-

petual Hope.

When the services opened there was barely sufficient space for those attending, and alales were filled as well as every pow. Rev. Father Arthur Lane, pastor, celebrated mass, assisted by Rev. Father Thompson, of the Cathedral parish in Portiand, and Rev. Father J. M. O'Farrell, state chaplain of the Knights of Columbus and pastor of the Knights of Columbus and pastor of the Eugene parish. In advance of the sermon, Father Lane expressed his appreciation of the attendance of visitors, and extended to the women the freedom of the pastorate.

Eugene contributed a class of 15 can-

didates in the initiation work, which did not terminate until ? o'clock. Vis-iting councils had charge of different

degrees.

Father Lane was toastmaster and during the evening he read a telegram from Right Rev. Bishop Christle, of Portland, expressing regret that he had been detained, while others sent measages of cheer to the Infant council. The invocation was made by Father O'Farrel, and Father Thompson offered the first toast to 'Our Holy Father.' John M. Gearin, ex-United States Senator from Oregon, spoke on 'Ideals of Knighthood,' and was followed by Roger B. Sinnott, state deputy of the Knights of Columbus, on 'Our Order.' Dudley Kavanaugh, of Condon, responded to 'Catholic Citizenship' and John Dooley to 'The Ladies.'
