## NEW VESSELS COME

Weir Building Steamers for Portland-Orient Run.

#### WATERHOUSE TO GET THEM

New Vessels Are of Similar Type to Orteric and Sister Vessels, and Will Insure Faster Service From This Port.

Two new steamers under construc-tion at Glasgew for Andrew Weir & Co. will be added to the Frank Water-house & Co. fleet, to ply between Port-land, Puget Sound and the Far East, taking the places of the Hercules and Strathlyon, of the Harriman fleet, which will operate on the Waterhouse schedule until their charters expire. The vessels building are of the same general type as the Orteric and Luceric, which were turned out this year, and Two new steamers under construcgeneral type as the Orteric and Luceric, which were turned out this year, and each has made one voyage from Pertland. At the local office of the company no further information has been received than they are being constructed, and it is not thought they will be in service until next year. The Weir interests own the Orteric, Luceric, Suveric and Kumeric, the latter being in port, and all are under charter to the Waterhouse line.

in port, and all are under charter to the Waterhouse line.

The Kumeric finished discharging inward cargo yesterday at the North Bank dock and shifted across the har-ber to the Albina dock, where she will take on 45,000 macks of flour and then proceed to St. Johns for number, finishing with that material at Kalama, and in all there will be approximately 1,586,000 feet. While the change in routing the former Harriman vessels leaves Portland without a direct line to the Far hast, as the steamers will hereafter arrive and depart via Puget Sound, the port will enjoy a faster service, there being a steamer every 20 days, instead of twe in port at the same time, once a month. It will take from the city, however, all transcon-tinental business from the Orient.

FIRST WHEAT STEAMER TAKEN

#### Hans B. Will Load Northwest Cereal for European Ports.

Baifour, Guthrie & Co. have made the first move in engaging steam tonnage for the transportation of the 1911-12 wheat crop from the Northwest through the engagement of the Norwegian steamer Hans B, to load here, with the option of Puget Sound. The vessel salled from Sydney, C. B., June 1, for Prince Rupert. She is of 2712 tons net register. A lumber option is also included in the charter for Australian ports, time charter at 2s 4%d.

Another tramp has been listed with the fleet that will be available later on the Pacific Const. the Norwegian steamer Guernsey, well known in Northwest waters, having been taken by the Government to load coal at More listed and an author of the Columbia was obscured the entire day.

Immigration Inspector J. H. Barbour, Balfour, Guthrie & Co. have made

the fleet that will be available later on the Pacific Const, the Norwegian steamer Guernsey, well known in Northwest waters, having been taken by the Government to load coal at Norfolk for Mare Island, and she sailed with cargo June 15. There are 19 tramps on the way around the Horn with coal and three others are scheduled to start this month. Five others will depart from the Atlantic side during July and August for Bremerton. the Harpalion being already on the way. The British steamer Centurion, also fixed by Balfour, Guthrie & Co., has arrived on Puget Sound and will load the last cargo of old crop wheat for the United Kingdom. She will load about 2000 tons of the cereal and is to finish at San Francisco with barley. The vessel is in the regular line operated by that firm, the steamer Candi-date, of the same first, being at Los Angeles, en route north with a general cargo from Europe.

SHAVER MAY SHIFT VESSELS

#### Commissioners Will Meet When Lawyers Pass on Contracts.

At least one member of the Port of Portland Commission will lose no revenue through having accepted a seat on the heard. He is Captain James Shaver, of the Shaver Transportation Company, steamers of which frequently tow vessels and shift them in the harbor when the Commission's towboats are engaged, but fees for that service are paid by the vessel, not by the Port. For that reason a section of the charter prohibiting any member being interested in a contract between the Port of Portland and a business or corporation in which a member is a stockholder does not apply to Captain Shaver. It is the intention of the members to

get together informally as soon as the law firm of Williams, Wood & Linthi-cum decides whether the charter proalbits the purchase in open market of equipment or wares from a firm in which a Commissioner is a shareholder, the same as in a contract. Attorney J. Couch Planders, who died a few years ago, gave an opinion covering those features, but the new members are desirous of having it thoroughly gone over new, as the decision may have an important bearing on the selection of a Commissioner to succeed P. L. Willis.

### File Report on Howes.

ASTORIA, Or., July 17.—(Special.)—
A report of the accident to the American ship Jabez Howes, which was wrecked in Chignik Bay, Alaska, April 7, was filed in the Custom House today. It says the vessel dragged her anchors during a heavy storm, struck anchors during a heavy storm, struck the beach, sprang a leak and later settled into deep water. The vessel, which was valued at \$15,000 and not insured, was a total loss. The cargo of cannery supplies, values at \$90,000, was fully insured and a small portion of it was

Work of loading the Oriental liner Rygia was resumed yesterday at the Portland Flouring Mills Company's plant, where she shifted from the Crown mill. where she shifted from the Crown mill.

After completing the discharge of her inward cargo at Irving dock the steamer Saginaw will proceed to Knappton for a part cargo of lumber and continue to Willapa Harbor to finish. The steamer Carlos will load at Willapa and Tacoma. Captain F. G. Wagner is master of the steamer G. K. Wentworth, vice Captain A. B. Loomis; Captain Abel has resumed the navigation of the steamer America, succeeding Captain L. H. Holman, and Captain W. E. Dunn is in the pilotheuse of the steamer Jessie Harkins, in place of Captain L. O. Hosford. It is announced from San Pedro that the steamer Eureka, formerly on the Portland-Humboldt Bay route, and which recently completed a treasure-hunting cruise to Honduras and San Salvador, is to be operated from San Diego to Ebsenada, Mexico, on a five-day schedule.

"Anti-noise" believers of the water-

"Anti-noise" believers of the water-front are advocating the enactment of a measure forcing launches not capable of reeling off 20 miles an hour to be equipped with mufflers, to deaden the noise of their exhausts. Craft making 20 miles are classed by them as racers. So many persons were turned away Sunday evening through the inability of the ateamer Balley Gatzert to accommodate all desirous of going on a mosalight excursion that the ateamer

EDITORS BUY CHURCHES

Printing Office to Be Established in Edifice at Lebanon.

ALBANY. Or., July 17. — (Special.)— By a strange coincidence, the editors of both of the newspapers at Lebanon are now the owners of churches. Two old houses of worship were sold in Lebanon recently, and proprietors of

that city's two newspapers each purchased one of the buildings.

The congregation of the First Methodist Church of Lebanon recently erected a new building and sold the old church at auction. N. M. Newport, editor of he Lebanon Criterion, who was tor of he Lebanon Criterion, who was chairman of the building committee, engaged in the bidding to boost the sale price, and suddenly found himself the purchaser of the old church.

Last week the old Methodist Episcopal Church South in Lebanon was sold to make way for a new church to be erected by the congregation of the First Presbyterian Church of Lebanon on the property, and this building was

on the property, and this building was bought by Alexander & Kirkpatrick, editors and proprietors of the Lebanon Express. They are planning to remodel it for use as a newspaper office.

I publish my true photograph, correct name, personally conduct my office. I am the most successful and reliable, as medical eredentials and press records prove. will know you consult a true specinlist, who sees and treats pa-tients personally. I possess skill and experience, acquired in such a way that no other can share, and should not be classed with medical companies. It is impossible for a medical company to attend college. Companies have no diplomas or license to practice medicine in Oregon or any other state. Medical companies usually are named after a doctor. A portrait, whose personality and identity are in-definite, is selected and published as the legitimate specialist of the office. Hired substitutes, ordinary doctors with questionable ability, give consultation, examination and treatment.
