Conditions between Portland and Mission Landing are such that the Oregona can cover the route with a full load, but there will not be more freight offored than can be accommodated or three trips every week. On an understanding with Major Me-

Indoe, Corps of Engineers, U. S. A., that dredging will be carried on at once at Ash Island Bar and Mission Bar, while the mouth of the Yamhill River will be deepened so that the steamer can ascend to Dayton, the comapny officials expect to move all crops that can be reached in that territory. At the mouth of the Yamhili the depth is only 12 inches. Teams and scrapers were used last year with good effect there, and if a depth of 26 inches can be gained this year the regular service will be extended to

SWIMMERS SMOKE ON ROOF

Danger of Fire at Flour Mills Re-

ported to Police.

Fear of serious fire at the Portland Flouring Mills through carelessness of bathers, who have made the roof of the mills thair headquarters from which to dive and who smoke between swime, has led to a request to Harbormaster Speler to direct the attention of the night patrol to the necessity of kaeping bath-

ers away from the property, An objection was not made to the bathers congregating there until smoking became general among them, and as the big roof surface is in such a dry condition, the restriction has become general. At other places along the har-hor front bathers have established ren-dervous, and in most instances they have complied with the bathing-suit ordinance and not created a disturbance, But a few bands have been dispersed for wiolating the regulations.

Owing to the unusually warm weather of the last few days the harbor police have encountered double duties, as they have to watch hathers and keep a look-out at the Oaks, where overcrowding of floats at the landing has caused com-plaint to be made to customs officials and Harbormaster Spaler.

Quintet of Fishermen to Be Tried.

ASTORIA, July 18 .- (Special.)-Com- ASTORIA, July 18.—(Special) - Court plaints were filed in the Justice Court today charging John Sandaburg, Jonas Peterson, Vincent Bacotish, Jack Remikke and Arne Wahl with having Remarks and Arno want with naving in their possession fish which were uniawfully caught during the Sunday closing period. These men were ar-rested last Saturday by Deputy Fish Warden Gor. Two of the cases are set for hearing tomorrow, but the case against Wahl will be tried on Thursday morning before a jury.
