

BOTTOM OF VESSEL FOUND ELEVATED

Powerful Explosion From Within Indicated by Late Discovery.

ARMOR BELT IS EXPOSED

Cofferdam Is Proved Success, but Extent of Demolition of Vessel Makes Recovery of Bodies Seem Unlikely.

HAVANA, July 19.—The process of removing the water surrounding the wreck of the Maine was virtually completed yesterday, when the water in the cofferdam was lowered, leaving the wreck surrounded by islets of mud and silt. The depth at no place is greater than four feet.

The engineers are now confronted with the serious problem of removing the mud in which the remains of the battleship are embedded from a minimum of 37 feet to a depth that can only be conjectured. Although the water is now only two feet lower than in previous pumping operations, revelations regarding the shattered hull have been vastly enlarged by the outspreading of the distorted frames and plating, especially in the forward section where the explosion was most felt.

Bottom of Vessel Elevated. The structure of the bow as far as frame is now exposed, permitting an analysis of the plates, beams, ribs, etc., and it has been shown conclusively that they originally belonged to the structure of the double bottom, which is now elevated to a height of about 18 feet above the normal position.

To this view, however, the engineers decline to commit themselves, merely admitting the identification of parts off the bottom of the ship.

Part of Keel Is Seen. In the confused mass of wreckage of the bow it is to be seen a carved piece of steel believed to be what Ensign Powelson identified before the Sampson court of inquiry as part of the flat keel of the Maine.

The wardroom and officers' quarters on the starboard side are exposed, but owing to a considerable list, the mud is level with the ceiling. The present intention is to erect foundations for cranes and derricks with which to extract the heaviest parts of the wreckage, after which a means for removing the mud will be decided upon.

Among yesterday's developments was exposure of a section of the armor breast and amidship superstructure. This is about level with the surface of the water in normal position.

The exploration in the gallery resulted in the discovery of two pots half full of beans and other articles for kitchen use, some of which at first were believed to be human bones.

Hope of discovering the bodies of many of the crew is diminishing because of the unexpected complete demolition of the berth deck.

Cofferdam Is Success. The engineers are pleased with the success of the cofferdam, which, in spite of such adverse criticism, is now resisting fully 95 per cent of the estimated weight of the maximum strain without the slightest sign of weakness. It is believed the wreck will be ready for inspection by the board of inquiry within two or three days.

If the bulkhead immediately aft of the central superstructure, where it is believed the hull was almost completely broken in halves, remains in position, it is believed a little difficulty will be experienced in floating out the after one-third of the ship.

SWAIN OUT OF HOSPITAL

Youth Who Tried to End Life Over Girl Is Released.

John J. Swain, aged 19 years, who tried to commit suicide Sunday night by spitting his own heart, Marie Stark, aged 17 years, left St. Vincent's Hospital yesterday afternoon, promising to refrain from repeating the attempt. He has been in the hospital since Sunday night when he was found half-dazed on the streets and was hurried to the hospital as a supposed victim of the heat.

Swain was to leave for Seattle Sunday night and went to the home of his sweetheart on East Alder street to say goodbye. The girl greeted him with less than customary warmth and Swain decided to end his existence. Going to his room in a hotel on East Morrison street and Union avenue, he drank a large quantity of what he thought was poison and went wandering about the streets. He was picked up four hours later by the police and sent to the hospital, where the poison was found to have been of insufficient strength to kill him.

EXPLOSION KILLS MINER

Second Workman Severely Injured in Blast Near Roseland.

SPOKANE, Wash., July 19.—(Special.)—A fatality occurred at the Josie mine, belonging to the Lerot No. 3 Company near Roseland, B. C. Monday night when two men, John Beckman and Alex Byers, were caught in a powder blast. Beckman, from the nature of his injuries, must have been killed almost instantly. His face was blown in pieces, and a large hole torn in his head.

Byers was badly injured about the face, one of his eyes being in so serious a condition that his removal to a Spokane hospital was deemed advisable. It is not known yet how the accident occurred, as Byers was in too serious a condition to give any connected story, but the presumption is that they drilled into an undischarged load of blasting powder.

ANNoyer WEARS SILK HAT

Police Seek Well-Dressed Man Who Insults Little Girls.

A man who wears a silk hat and carries a well-equipped phoeno is being sought by the police as a molester of little girls in the southeast section of the city.

MAN WITH FUNDS GOES AWAY

WIFE'S INQUIRIES AROUSE SUSPICIONS OF POLICE.

Brewery That Advanced \$3000 to Uhlman

Trusted Renter Institutes Search for Missing Man.

Carrying \$3000 belonging to the Weinhard estate, and said to have left many bills unpaid, Theodore J. Uhlman, proprietor of the Hotel Hort, disappeared from the city Monday, and is sought by detectives, who hold a warrant for him, charging the embezzlement of the money. The revelation of his departure came unintentionally from Uhlman's wife, who lives at 375 Vancouver avenue.

RAIL WORKERS IN RIOT

MAN HIT IN FACE WITH AX IS TAKEN TO HOSPITAL.

Employes on Mount Hood Railway Construction Clash with Strike-breakers Near Linnton.

The first real riot between strikers and strikebreakers on the Mount Hood Railway occurred yesterday afternoon when 25 or 30 men engaged in a brawl, hurling stones and using weapons available, resulting in the serious injury of W. L. Powell, a union picket, and the arrest of A. E. Blackman, H. L. Wright and H. W. Biglow, strikebreakers, on a charge of assault with a dangerous weapon.

Uhlman is believed to have left the city at 11 o'clock Monday morning, but which direction he went is unknown. The inquiry instantly connected itself in Mr. Wessinger's mind with the large advance of the Saturday before, and he at once laid the case before Captain Moore, Deputy District Attorney. Page issued a warrant for Uhlman's arrest.

Uhlman has brothers in Tacoma, Spokane and New York. He was a butcher before he engaged in the hotel and saloon business. He is over 50 years of age.

JAIL IS FATE THIRD TIME

A. J. Townsend Must Serve Year for Cheating Man After Job.

On the heels of a prison term of eight months, which he had just finished serving for attacks on young girls, Arley J. Townsend, pretended owner of the Railway Exchange building and erstwhile highflyer in hotel circles, went back to Linnton yesterday to serve 360 days for a fraud committed on a young employment seeker.

Townsend first came under the observation of the police when a young girl stenographer complained that she had been called to his room in the Oregon Hotel to take dictation and was attacked. Another girl, a visitor to the city, was also attacked and robbed.

Townsend was given a maximum sentence, but gained his release at the end of 90 days and immediately took to his former pursuits. He was sent back to finish his term, and upon being released a few days ago, made the third outbreak.

WISE HORSE TURNS FAUCET

Tom, Police Animal, Breaks Rules by Letting Water Run to Waste.

In utter defiance of the orders of the Water Board, promulgated in account of the shortage of water, "Tom," one of the gray horses that draw the police patrol wagon, wasted more pure water than would irrigate a city block.

PIONEER OF CHICAGO DIES

Loren Thomas, of Amity, Came to Illinois in 1835.

AMITY, Or., July 19.—(Special.)—Loren Thomas, who died at the home of his son, George D. Thomas, in Amity, at midnight Saturday, July 15, was 91 years of age. Mr. Thomas was born in Herkimer County, New York, in 1820, and came west with his parents to Chicago and McHenry County, Illinois, in 1835. From there he and his family were among the pioneers who first settled Winona County, Minnesota, making their home near the town of Wikota until 1866, when he and his son came to Amity.

In 1844 Mr. Thomas married Miss Margaret Thompson, who died in 1882. Two sons, George D. and Amanso, and one daughter, Emily J., were born to them. George D. and Amanso surviving the father.

Funeral services were held at the home Monday, conducted by Rev. Edward Gittens, of the Methodist Church. Burial was in the Amity cemetery.

W. S. U'REN IS HEARD

Reformer Addresses Rotary Club on Single Tax.

Single tax was the theme of W. S. U'ren's address to the Rotary club members at their luncheon in Richardson's cafe yesterday afternoon. When Mr. U'ren was introduced, it was said by the master of ceremonies that it had been accepted as a maxim throughout the country, that only the rich could afford to be reformers, and if that were a fact, from the number of reforms advocated by the speaker of the day, he must be a multimillionaire, all of which Mr. U'ren took with good humor. The speaker pointed to the "Building" the Corbett and Ladd estate, and several other well-known properties in the heart of the city as the basis for a change in our present system of taxation. These values, he contended, were created by the community, and therefore were values belonging to the community, hence, they should be absorbed by the tax takers.

These values, he contended, were created by the community, and therefore were values belonging to the community, hence, they should be absorbed by the tax takers.

They Grow Hair

Certain Ingredients, if Properly Combined, Stimulate Human Hair Growth.

Research is one of the most effective germ destroyers ever discovered. Betanaphthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Boxer, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicinal preparations for its antiseptic, stimulating and preservative qualities.

Recall "33" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee to eradicate dandruff and scalp irritations and to grow hair, even though the scalp in spots is bare of hair, providing of course there is life and vitality remaining in the hair roots.

We want every one troubled with scalp disease, dandruff or loss of hair to try Recall "33" Hair Tonic. If it does not remove dandruff and promote the growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has effected most satisfactory results in 93 out of 100 cases where put to a practical test.

Recall "33" Hair Tonic is entirely unlike any other hair tonic on the market from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1. Sold in Portland only at The Owl Drug Co., Cor. Seventh and Washington Sts.

worries of their own, without adding the extra burdens of political troubles.

SPOKANE VOTE IS LIGHT

TEST UNDER REFERENDUM IS DISPIRITING TO MAYOR.

New City Hall Authorized by Small Majority—Building Is Third Within Fifteen Years.

SPOKANE, July 19.—(Special.)—Spokane's first referendum election since the installation of the commission form of government resulted today in a bare majority of 17 for a bond issue of \$850,000 to build a new city hall and a majority of 50 for a bond issue of \$100,000 to build a new fire station. About 3300 votes were cast out of a registration of nearly 26,000 and Mayor Hindley and the other Commissioners are disappointed.

When the Milwaukee Railroad got its right of way through Spokane it acquired, among other properties, the site of the present city hall for \$352,000 and the city bought another site for \$240,000. Now the taxpayers are asked to put up an additional \$850,000 for a new hall, the third in about 15 years, and it seems agreed that Spokane will be lucky if it gets the new building completed for \$1,600,000. The present city hall was built twice, having burned when almost completed.

The quantity of primary lead consumed in the United States in 1910 was 275,021 tons, an increase of 9083 tons, or 3.3 per cent over the consumption of 1909.

WOMAN RAPS SUFFRAGISTS

Men Should Handle Political Knots, Says Governor's Secretary.

SALEM, Or., July 19.—(Special.)—Although Governor West has spoken in favor of women's suffrage, there is opposition to the universal franchise, and that is a woman. Miss Fern Hobbs, chief clerk to the Governor, says she hopes the time will never come when women will be able to vote.

"I would just simply dread such a time," she said today. "In the first place, women should not be brought before the public. And wouldn't I look nice as a candidate for Governor; or imagine Miss Mary Waln, the Attorney-General's secretary, as a candidate for the office of Attorney-General."

"But, to speak seriously, I would detest the thought of women voting. The men are the only ones who have to worry about the troubles of office, and one of the gray horses that draws the police patrol wagon, wasted more pure water than would irrigate a city block."
