For a time today the Senate leaders HILL TO VISIT. SHIPPERS

It is not expected the Senate session tomorrow will be greatly prolonged, but the House, having little to do, rarely has a quorum present these days. That being likely tomorrow, as the Speaker pointed out, it was agreed that the plan was impracticable. As the House will adjourn until next Wednesday the built cannot be received until the latter date.

### Bill to Pass Unamended.

The measure has not been, and probably will not be changed in any respect by the Senate, and when it is signed by the Speaker and the Vice-President it will be dispatched to the President. Senator La Follette featured the speechmaking today with a vigorous as raignment of President Taft and the bill. He attacked the Democrats of the Senate bo the ground that they were deliberately trying to carry the tariff insue over to the next session for political purposes, and pointed out that they had consistently voted down amendments proposing general tariff reductions r excure, he said, had been that the President would not sign the reciprocity bill if it were encumbered with general tariff amendments.

### La Follette Doubts Veto.

"Talk about his vetoing the reciprocity bill with a revision of the woolen schedule added to it as an amendment," said La Follette, "Is preposterous. You might as well expect a drowing man to relinguish his hold upon a life pfeserver.

"You have voted against these amandments on the pretext that it will jeopardize the bill to adopt them. That is only because you want to save the tariff question for the campaign. You do not want to dispose of the" question at this time.

"You know that the President has become enamored of this so-called Canadian reciprocity. He is led to believe that he had struck at last. after running the entire gamut, a popular chord, and it is the one thing now upon which he relies to restore his Administration to favor."

Several amendments to the reciproc were defeated, including those by Mr. Bristow to reduce duties on lead an alliance with Canada to enlarge the St. Lawrence waterways.

### Smith Fears Danger.

Senator Smith, of Michigan, attacking the bill, declared Canada would not be the only menace to American indus try. He said British capital in great abundance was waiting to be poured toto Canada when the reciprocity agreement was ratified; and that from the advantageous ground 807088 the "golden border" British industries will

and Spokane & Inland officials. It is reported at local Hill headquarters that Mr. Hill's coming has no particular sig-nificance. From St. Paul, however, the announcement comes that one reason is

James J. Hill's anxiety about the wheat and grain tonnage from Washington. President Hill will go to Seatle and Portland, where a meeting of Hill's Paclific Coast officials will be held. He will spend about two weeks in the state and in Portland.

Definite announcement of the build-og of the north-and-south line along the San Foil River through the Colville Indian reservation from Republic to Hell's Gate probably will follow Mr. wisit.

The daughter, who occupied the rear seat with her mother, jumped as the machine darted off the road and escaped without serious injury. The automobile, which was recently purchased by Mr. Creason, is said to be almost completely demolished.

Family Out for Vacation Trip.

Mr. Creason, with the women of the family, left Roseburg a few days ago and were en route to points in Coos County, where they expected to enjoy, their annual outing.

The scene of tonight's accident is considered the most dangerous spot on the Roseburg-Myrtle Point road, The road winds around the edge of the mountain and in places is 200 feet above the river.

Unprotected at the outer edge, the highway affords a most excellent opportunity for a person unacquainted with the sharp curves and steep grades to meet a premature fate.

### Rainier National Park.

TACOMA, Wash., July 21.-(Special.) -E. W. Natheson, a prominent Everett lumberman, was killed and Sandy Thompson and Dan Curry, both of Everett, injured this evening, when an automobile in which they were riding went over a bluff on the road near the entrance to Mount Rainier National Park.

A party, including Colonel Hathaway and son, Howard, and four other Everett people, Alonzo D. Seeman and H. D. Glamace, of Milwaukee, and H. V. Dunn, of Tacoma, and the victims of the accident, were on their way to tha mountains in three automobiles and were entering the park when the accident occurred. Two of the cars had passed into the park when the third, a seven-passenger touring car, went over the shallow bluff about 200 yards from the park entrance.

Although the fall was not great Natheson was pinned underneath the overturned car and killed almost instantly. Thompson's arm was broken and Curry sustained numerous bad bruises. The other occupants of the auto, including C. E. White, of Every ett, its owner, and the colored driver, escaped other injury than the shock

The cause of the accident is not known. The colored chauffeur says the steering gear became disabled, but an examination of the car after the smashup showed its steering gear in order. The two injured men and the body of Natheson were taken to a
