ESPERANTO PLANS OUT
PRESIDENT FLENNER TO EXPAND WORK IN THIS DISTRICT.
 Plan of Organization Includes Issuance of Diplomas to Those Who Pass Examinations Successfully.
 Judge J. D. Fleenner, the newly-elected president of the Esperanto Association of the Northwest, together with the executive committee of the association, have laid some wide plans for organization during the coming year.
 The vice-presidents in the different states will take charge of the work of organization in their respective states, while the president will exercise a sort of supervisory attitude and will travel about and aid in the work.
 Yesterday at a meeting of the executive committee, the association was

placed upon a thoroughly business basis. Every member is to receive a card of membership which is a receipt for dues paid by him. Anyone interested in the cause of Esperanto may become a member by paying the sum of 25 cents. The yearly dues are 10 cents a member. In addition to this, anyone may become a sustaining member by paying the sum of \$5. It is expected in the course of the year to secure a membership of at least 1000 in the patronizing territory, with enough funds to get an organization in the field the coming year.
 This association is not connected in any way with any other National or International Esperanto body. It is thoroughly independent in character, the aim being thoroughly to organize the Northwest for the cause of Esperanto. This organization is not in any way antagonistic to any other Esperanto organization, but, on the contrary, it encourages all of its members to join the National organization and subscribe for the magazine and other publications of the National body.
 One feature of the new plans of the organization will no doubt prove popular among Esperantists of the Northwest, which is to issue diplomas to those who have passed an examination in the essentials of Esperanto, the details for which are being worked out

and will be given to the public a little later.
 Judge Fleenner expects to leave for his home in Boise early next week, and by September 1 to begin the work of the organization for Esperanto throughout this territory.
ART WILL BE JUDGED
Frederick Webster to Paint Miniature Before Committee.
 Frederick Webster, a Chicago artist, will this morning begin painting a miniature of Mrs. E. C. Mears before a committee which will attest the genuineness of the painting. Mr. Webster yesterday arranged for the use of part of S. Aune's studio.
 The miniature of Mrs. Mears, formerly painted, was destroyed by acids during chemical tests made to disprove the charges of Reginald Harrison, an artist of this city, that it was not genuine.
 It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

RESERVOIRS MAKE GAIN
PORTLAND'S WATER SUPPLY YET 26.5 PER CENT SHORT.
 Sprinkling Will Not Be Permitted Until Storage Tanks Are Filled to Their Capacity.
 Though the water situation in Portland materially improved during the 24 hours ending yesterday morning, Superintendent Dodge of the Water Department says he will not recommend to the Water Board that sprinkling be allowed in the evening until the reservoirs are filled to their capacity of 66,000,000 gallons. This is in order to protect the city against fire. The reservoirs were 17,500,000 short yesterday, the gain in the 24 hours ending yesterday morning being 2,800,000 gallons. Thursday morning the reservoirs were 30,400,000 gallons short. The daily supply is 20,500,000 gallons. The present shortage is 26.5 per cent.
 Mr. Dodge was asked whether or not property owners could not be permitted to use water for an hour at night for sprinkling, an hour being taken from the morning time. He said he would not recommend that this be done at present, as there is too much danger from fire. He would recommend, he said, that the sprinkling hours of from 6 to 9 in the evening be restored as soon as the reservoirs are filled.
Beard Estate Row Grows.
 The family row over the estate of S. M. Beard, the Vancouver capitalist, has not yet subsided, although County Judge Cleeton settled the difficulty relating to executors by removing A. Edgar Beard and Mary B. Gray and retaining S. Roscoe Beard. A. Edgar Beard has filed notice that he intends to appeal to the Circuit Court from Judge Cleeton's ruling. Mary B. Gray and S. Roscoe Beard applied for the removal of A. Edgar Beard as administrator. A. Edgar Beard then requested that Mary B. Gray and S. Roscoe Beard be removed and Elizabeth Beard and Carrie Ellis Caldwell positioned for the removal of all three.

RATE PARITY PROBABLE
TACOMA AND SEATTLE TOLD DEMANDS WILL BE ANSWERED IN WEEK BY OREGON & WASHINGTON.
 TACOMA, Wash., July 21.—(Special).—Recording from his position of refusal to give Seattle and Tacoma rates on Eastern Washington wheat equal to those of Portland, Traffic Manager R. B. Miller, of the Oregon & Washington Railroad, announced at a conference today that he would have a new answer ready inside of a week.
 The conference was held at the Seattle Chamber of Commerce, with W. A. Mears, representing the Associated Millers, and Jay W. McCune, of the Tacoma Traffic Bureau, present. The arguments for the shippers, Mr. Miller and Gen-

eral Freight Agent W. D. Skinner represented the railroad.
 During the session it was strongly intimated that unless the Harriman line made good its promise of equal rates, Tacoma and Seattle shippers would take concerted action, which would influence the receipts of the road on the commodities. It was made plain that Tacoma and Seattle stood together in the fight. During the conference Mr. Miller offered a compromise of giving Seattle and Tacoma lower rates, but preserving the Portland differential, but this the shippers would not consider, demanding equality or nothing. It was also asserted that the railroad carried every commodity except wheat at rates which put Portland, Seattle and Tacoma on an exact parity. Mr. Mears asserted that a refusal to put wheat on this basis amounted to discrimination and that the Interstate Commerce Commission would hold it as such. Mr. Miller admitted such might be the case. Mr. Miller was assured that if the road found after a year's trial, it was unable to give the rates demanded, the shippers would cease their demands. He then promised a new answer inside of a week.
 More than 37,000 motor vehicles have been registered in London.
