SPECULATION IN THE HANDS OF A BULL GROUP.

Remainder of List Shows Heaviness, Sentiment in the Street Is Favorable.

NEW YORK, July 22.—Movements in the stock market today indicated that the period of increased activity and rising prices, which enlivened speculation last week, had been terminated, for the present at least. After an irregular opening with most prices slightly lower, the market hardened. Union Pacific signing took the lead, rising a point and held it throughout the day. Toward the end of the day stocks were sold on a somewhat heavier scale and receded further, the close showing losses generally distributed.

A complexious feature of the market was Berries and small fruits were scarce and Rosis. Sirm; sales, 2100 pounds; receipts.

more than a point. Canadian Pacific was beary throughout. The setback in these issues immediately after the passage of the reciprocity bill by the Senate probably was due to profit taking by holders who look for no immediate extension of the movement new that this country has done its part. Atchison was strong and was the center of speculative interest for a time in the afternoon. Most of the buying was attributed to a group of operators that has a times been active in important built movements.

ments.

Among the industrials, Bethlehem Steel, which is usually inactive, achieved prominence with a two-point rise.

Despite the moderate recessions, as a result of the day's operations, sentiment in the street was largely bullish. This is due in parg to reports of rains throughout the corn beit and to prospects of carry adjournment of Congress.

Traffic on the Western roads is slightly ahead of this period last year. Official figures of earnings of all railroads in May showed a decrease of 5.5 per cent in operating income.
