the time for re-sentencing of Jesse P. Webb, convicted of murder in the first degree for killing William Johnson in the New Grand Central Hotel last Summer. The penalty will be death as the laws of the state provide only capital punishment for first-degree murder.

Webb was sentenced to hang, but Judge Morrow granted a stay of execution pending an appeal to the Supreme Court which, a few days ago, affirmed the judgment of the lower court in dismissing the case because of the failure of Webb's attorneys, Seneca Fouts and John McCue, to file their bill of exceptions within the time prescribed.

The proceeding yesterday was
marked by a rebuke administered to
Attorney McCue from the bench. The
attorney told Judge Morrow that he
(the judge) had promised to extend
the time within which the bill of exceptions might be filed from time to
time. Judge Morrow replied that there
was nothing of record showing such an

Attorney Fouts said yesterday that he has merely been sparring for time in the hope that pressure brought to bear on Governor West might influence him to commute Webb's sentence to life imprisonment. Many are now seeking such action on the part of the Governor, the leader of the movement being W. G. MacLaren, superintendent of Portland Commons. McBurney Cup and Two Other Trophies Go to Portland After Educational Rivalry.

Word was received yesterday aftersoon that the educational department of the Portland Young Men's Christian Association has been awarded the ex-ceptional honor of taking three first places in competition with the educaplaces in competition with the educa-tional departments of every other asso-ciation in the United States. R. C. French, educational director, received a letter from George B. Hodge, of New York, head of the educational depart-ment of the Y. M. C. A. in all countries. advising him that the Portland Y. M. C. A. had been awarded the McBurney cup, one of the most coveted trophies offered in the association, as well as two special prizes for excellent work two special prizes for excellent work in the drafting classes.

The McBurney cup is so called in henor of Robert R. McBurney, who was

one of the most influential leaders in the Y. M. C. A. for 35 years. The cup is awarded each year to the association that has the largest number of boys under 17 years of age winning certifi-cates for educational work. The numeates for educational work. The number of certificates swon by boys in the Portland Y. M. C. A. at the last examinations was 238, and it was the first time that any Y. M. C. A. on the Pacific Coast led the entire country. The cup is awarded each year, the possessor for the last year being indianapolis. Indianapolis had won the cup two years in succession, and as that city took second this year, it would have secured permanent possession of the trophy had not the Portland association made such a good showing.

The other prizes won are a teachers' steel desk table and a manual training

These are given in the mon's department, and the fact that they were won here is regarded as showing the exceptionally high stand-ard maintained by the local association. The letter from Mr. Hodge pays a high compliment to the local associa-tion. Among other things, Mr. Hodge

mays:

We are glad to convey to you herewith
the information that Portland has won
the McHurney cup on the hasis of the number of certificaties woo. This is the first
time that the cup has gone to the Pacific
Coast. Indianapolis now holds it, having
won it two consecutives years. She was
your close competitor this year, and if
she had won it, Indianapolis would have
secured permanent possession.

We congratulate you, upon having won
two other prizes; namely, the manual training bench and teacher's wired desk table.
Portland is taking the lion's share this
year, but this was to be expected with its
spisudid perticipation in the international
made.

"Portland is indeed pleased to win
