

RAISINS 30 CENTS

Pacific Coast Market Reaches That Figure.

BIG PURCHASE OF SONOMAS

Donovan Buys Six Hundred Bales of New Crop at Price Not Equaled Since 1904—Crop Conditions in Germany Bad.

The market for new-crop Pacific Coast raisins has at last reached 30 cents. That price was paid in California yesterday.

C. C. Donovan, of Sonoma, has just bought 600 bales of Sonomas at a price that has not been equaled since the fall of 1904.

The market level has not been established at 30 cents and although that figure has not been paid here the buyers will have to come up to it if they expect to do business.

The last purchase of new-crop Oregon raisins known to have been made was at 25 1/2 cents. There were offers in the country yesterday morning of 24 1/2 and 25 cents, both in Oregon and Washington, while in the afternoon 25 and 25 1/2 cents were offered.

Crop reports from the Continent of Europe are coming worse and worse every day. A cable from Frankfurt, Germany, received yesterday is as follows: "Weather tropical; bread has much damaged crop; certainly ahead good one-third less than last year."

This means an estimate of about 17,000,000 bushels for the Continent. Other cables from good authorities placed the crop even smaller.

English mail advices dated July 21 said that at that date the drought had been about as bad as it could be. The grainings stood it better. An early season was anticipated with a short crop of good quality.

English market and crop conditions are given in London trade factory reports, bearing date of July 17 to 19, as follows: "Wheat, Name & Co.—There is not much doing owing to the extreme scarcity of crops of recent date, the trade passing being confined to immediate present requirements. There is still some wheat to be found in most gardens but up to the present there is an entire absence of mould and appearance being to the growing crop."

Manager & Healy—Reports of the growing crop are not flattering. The sudden drop in the temperature and cool nights have not been favorable to the plant. The wheat has developed at places. Very little trade doing.

H. K. & H. L. May—There is no alteration to report in this market. The trade passing is sufficient to keep prices very firm indeed. Reports from the plantations to hand speak of some fresh yield during the past week. Whilst the warm weather has done some good, others are feeling the drought very much.

Chubb's Hog Crop Looks Good. CHEHALIS, Wash., Aug. 1.—(Special.)—The hog market is strong. In the Chehalis district there will be a fair average yield. The crop is coming in strong and looks good. The yield in this section, however, is but a third of the old-time yield, so great has been the curtailment since the slump in prices of recent years. Only about 2000 hogs will be produced in this district this year. Chehalis is still the center of the industry in Lewis County, however, and more than half of the hogs raised here are shipped within two miles of town. The largest yard is that of Isaac Pomeroy & Sons, who have a fine herd of 1000. They have a fine herd of 1000. They have a fine herd of 1000.

DAISY MARKET IS QUOTED WEAKER Crop figured at 50,000 Tons More Than Last Year. Grain dealers report a weak undertone to the market as a result of the large crop that is now assured. It is estimated that the Northwest will turn out 50,000 tons more than last year. This increase is due principally to the fact that the Palouse country will have a normal crop, whereas there was only half a crop there last year. The Willamette Valley will produce about the same as in 1910, and reports from Idaho are very favorable. The yield in the Puget Sound country is estimated about the same as last year, but they are going into the new crop with a big carry-over. The Puget Sound Valley is also carrying over old oats. The new crop was quoted on the local market yesterday at 25, with 22 on an outside price. Some business was done in extra oats at 22.50, outside reports told of sales of oats there from La Crosse flats at 22.

A fair amount of business in the wheat market was reported from country points at the prices lately quoted. The barley market was firm because of the activity in brewing grade. Willamette Valley farmers have been offering new hay freely and the trade is pretty well filled up, as a result the feeling in the market is easier.

Local receipts in cereals were reported by merchants as follows: Wheat Flour Oats Hay Monday 11 11 3 1/2 Tuesday 3 10 2 1/2 Year ago 3 10 2 1/2 Season to date 22 247 48 1/2 Foreign crop conditions are summarized by the Liverpool Corn Trade News as follows: United Kingdom—Harvesting is progressing, but yields are below normal because of drought as a result of the extreme hot weather.

France—The yield of winter wheat is below expectations. The spring wheat crop is being damaged by the extreme heat and drought. Germany—The wheat crop is progressing satisfactorily. A large part of the crop is already harvested. Hungary—The wheat crop is a fair average one, but smaller than in 1910. The crop of last year amounted to 11,000,000 bushels. The weather is hot. Bulgaria—The wheat crop is estimated to be below an average crop. Italy—According to an official report the wheat crop is a good one; but markets, however, are steady. In the north there was a heavy rain storm, which is delaying harvesting.

Russia—The outlook for the wheat crop in the Volga region and northeast shows no improvement, being damaged by extreme drought. Harvesting is progressing satisfactorily in the Southwest. India—The wheat crop is a fair regarding the food grains as a result of the unfavorable outlook for the monsoon. Argentina—The crops have made a splendid start.

YOUNG CHICKENS IN LARGE SUPPLY Other Kinds of Poultry Are Steady—Eggs and Butter Firm. Poultry dealers are finding some difficulty in working off receipts of young chickens, which are coming in in a rather free way. The general quotation on spring yesterday was 19 cents. Hens sold at 15 1/2 @ 14 cents per pair.

STOCK SALES DRAG

Prices Are Lower Throughout the List.

RAILWAY RETURNS POOR

Canadian Pacific Declines on Selling by Berlin—Standard Oil Shows a Loss of 15 Points on the Carb.

NEW YORK, Aug. 1.—Trading in the stock market fell to slender proportions today after the first hour. The opening was irregular and by noon losses of a point were registered by Union Pacific, Southern Pacific, Reading, American Tobacco preferred and several of the specialties, with a two-point decline in Canadian Pacific which resumed selling in Berlin. The list dragged along at this level for the rest of the session, although the general market recovered and further losses were limited to Pacific Mail.

In the last hour, lower prices were recorded under the influence of a number of unattractive railroad reports. These included Union Pacific's revenue decreased \$4,300,000 for June of 1911, and \$1,000,000 for the first six months of the year. Standard Oil of California declined 15 points on the carb. The loss was due to a report that the company had sold up to \$4,300,000 of its carbide stock.

On the "curry" Standard Oil lost 15 points, the loss being due to a report that the company had sold up to \$4,300,000 of its carbide stock. The loss was due to a report that the company had sold up to \$4,300,000 of its carbide stock.

The bond market was lower with further weakness in American Tobacco issues. Tobacco sales per value, United States is declined 1/2 per cent on call.

PEACH SUPPLY LIBERAL

WENATCHEE FRUIT ON THE SEATTLE MARKET.

PEACH SUPPLY LIBERAL

Freestones Available in About Two Weeks—Sales of April Eggs Are Pushed.

SEATTLE, Wash., Aug. 1.—(Special.)—There were a large number of price changes on Western Avenue today. Oranges were quoted higher, at \$4.50 per box. Lemons were quoted at \$3.00 per box. Good cherries were higher, at 32. Cherries and apricots were scarce and higher. Good cherries were at 31 and up. Dealers obtained 2 1/2 for each. All berries were scarce and high.

The supply of peaches was liberal. Wenatchee fruit was quoted at 50 to 75 cents and "Reddick's" at \$1.25 per bushel. Eastern Washington freestone peaches will be offered in about two weeks. Oranges and lemons were quoted at \$4.50 and \$3.00 per box, respectively. Good cherries were at 32 and up. Dealers obtained 2 1/2 for each. All berries were scarce and high.

Dealers are making effort to increase the demand for April eggs. Few fresh Eastern eggs have been shipped West of late. Local eggs are getting scarce. Veal was scarce today. Ducks were cleaned up. There was a light demand. Butter was at 22 and 23 cents. Grains were unchanged.

PRODUCE AT SAN FRANCISCO. Quotations Current in the Bay City Market. SAN FRANCISCO, Aug. 1.—The following produce prices were current today: Vegetables—Cucumbers, 10@15; garlic, 3@4; green peas, 75@85; string beans, 18@20; tomatoes, 20@25; eggplant, 75@85.

Butter—Pammy creamery, 25c. Eggs—Sterile, 25c; fancy ranch, 29c. Cheese—Young America, 15 1/2@16 1/2. Milk—Bran, 22.50@23.00; middlings, 45.50@46.00.

Fruit—Apples, choice, 17 1/2; common, 75; bananas, 10@12 1/2; California limes, 25@30; 150; California lemons, 8@9; common, 72; pineapples, 45.

Hay—Wheat, 10@11; alfalfa, 10@11. Potatoes—Sweet, 4@6. Onions—Onion, 12@13; quarter sack, 12@13. Receipts—Flour, 3200 quarter sacks; 485 casks; bran, 12,000 casks; 1025 casks; potatoes, 487 sacks; bran, 20 sacks; middlings, 110 sacks; hay, 200 tons.
