THREE FIND WATER STATUS IS DARK

Mayor Discovers Pipe Will Delay Relief and Company May Be Penalized.

DANGEROUS CUTOFF SEEN

Big Bull Run Main Is Likely Notito Be Laid Before September 15 or Too Late to Increase Supply This Season-Meter Needed.

Discovery by Frank W. Winn of a Discovery by Frank W. Winn of a walve whereby any porson with a desire to do so could cut off the city's water supply nearly a mile this side of the headworks, leaving the city without adequate supply, was one feature of the trip of Mayor Rushlight, Engineer Clarke, of the Water Board, and Commissioner Winn to the Bull Run Risserve yesterday.

That the contractors on the second

That the contractors on the second nduit, now nearing completion, could be compelled to put in a doushould be compelled to put in a dou-ble meter system for measuring the water this side of the beadworks, in-stead of having but one meter and narrowing the pipe down more than E9 per cent thereby, is another feature. That the big conduit, which is cost-ing the people of Portland \$1,359,000, is not going to be done in time to do any good this season, is still another phase of the water situation that was made plain by the visit of the officials.

Conduit of Small Service.

Even if the conduit were finlahed im-Even if the conduit were finished immediately, owing to the non-completion of the reservoirs at Mount Tabor, it would be of small service, is another fact, according to Commissioner Winn. While Mayor Rushlight, after inspecting the new pipeline and the reserve at the intake, did not care to discuss the situation at great length, he did say that he "will be surprised if the pendult is finished and water running through it by September 15," too late to be of much service in relieving the shortage now or recently existing.

hortage now or recently existing.

The Mayor also remarked as he was sturning from the reserve that he believed the contractors should have had e men working on the line several the ago, but that at present he d not see where any more could be used to good advantage. He did not tare to discuss the penalty end of the contracts, but it is believed that his

contracts, but it is believed that his ideas on this point are reflected to a large extent by the statement of Commissioner Winn, who is the new member of the Board, appointed by the Mayor to fill a vacancy.

"I believe that, when a man enters into a contract, he should live up to it," said Mr. Winn. "I would show no mercy to either Robert Wakefield & Co., contractors for the Mount Tabor reservoirs, or to the Schaw-Batcher Company, contractors for the new conduit. I believe that, if there are any fult. I believe that, if there are any unforeseen things, contractors should guard against them and that they cannot expect the Hoard to overlook their delinquencies. A contract is a con-tract, and both parties to it should ablde by its terms."

Another Meter Wanted.

Speaking of his observations, Mr. I shall recommend to the Board that While the contractors maintain that, in running the pipe down more than 50 per-cent to measure the water does not

pede the flow, no living man can con-nce me that this is a fact, and I shall urge that another meter be put in, giv-ing no reom for doubt that the flow is perfectly complete."

This meter connection, cutting down.

as it does, the size of the pipe more than one-half, was one of the features to which attention was called by a committee of Peninsula citizens, who made an investigation recently to find why the pipeline is not completed. "I was surprised." said Mr. Winn, "to

learn that there is a means, about one-taif mile this side of the head works, whereby any one who so desires may whereby any one who so desires may but off the city's water supply in the cid conduit. In company with Inspector Maupin, I saw a gauge which controls the supply. This I consider a dangerous thing, and shall recommend that it be taken out and that the only cut-off he at the head works, right by the intake."

Summed up, the water situation in Fortland is that, with the present meather prevailing, there will be a good hupply, but, if warmer weather returns, the trouble will be renewed. There will be no relief from conditions from the completion of the new pipeline this Summer, for two reasons. The conduit Ill not be done for more than a month will not be done for more than a month and the Mount Tabor reservoirs will not be in fit condition to furnish a supply on account of their condition, it being necessary to remove the tag and other substances from the big basins.

Outlook Not Glowing.

Neither Chief Engineer Clarke nor Su-scintendent Dodge last night had mowledge of the valve or cut-off menaned by Commissioner Winn. Both de dared that they felt certain that no ch thing exists, but that they would investigate at once to ascertain what above is about it.

"There must be some mistake," said "There must be some mistake," said Bir Clarke. "I have no knowledge of such a cut-off. I cannot imagine what it was that Mr. Winn saw but will in-

rigate tomorrow." ter than at present, even with the new pipeline and reservoirs in operation next Bummer, unless the Water Board in-stalls a system of distribution mains from the various elevations, was the deciaration of Mayor Rushlight on his return from the reserve. He has inreturn from the reserve. He has inprincipled that plans he drafted for submission to the board at an early date,
what action may be taken without any
numerossary delay. He says that, no
matter how much water there is in the
preservoirs, certain districts will be as
short as they are now unless this new uting system is put in.

Pipe Laid in Rock.

Leaving the City Hall at 19 o'clock, Leaving the City Hall at 10 o'clock, Mayor Russhight, Commissioner Winn, Engineer Clarke, J. R. Bowles, of the Northwest Bridge Works, who is managing the construction of the pipeline, and representatives of the press made the trip to the headworks in automobiles a part of the way, by teams another stratch, and on foot into the reserve by I o'clock.

There is about one-half mile of Nach.

MAYOR RUSHLIGHT, WATER COMMISSIONER WINN AND CHIEF ENGINEER CLARKE INSPECT BULL RUN CONDUIT NO. 2, FROM MOUNT TABOR TO HEAD WORKS.

the contractors be obliged to install an other meter this side of the head works, where now but one is in position.
While the contractors maintain that in stallation. One of the greatest difficulas the roads were had during the rainy seasons, it being impossible to work for months. Work was resumed June 15 and has been carried on steadily since.

STREET WORK IS RAPPED

Citizen Says Improvement on East Sixth Is Undestrable.

George Prosser, of 515 East Sixth street, has filed with City Auditor Barbur a complaint against the manner in which the Inman-Poulsen Company has filled and surfaced East Sixth street. He BAYS:

"I wish to call your attention to the matter of bad faith on the part of the Inman-Poulsen Company in econsection with the improvement of East Sixth street. Their man Friday (Shepherd) went before the Council and promised that if the Council would rescind the extensive improvement ordered by them and allow the company to fill up the alough on Sixth with sawdust filling, which he assured the Council was just as good as gravel fill, they would cover the same with gravel and put in sidewalks so that the people could have cover the same with gravel and put in sidewalks so that the people could have the use of it right away, or if not allowed to do so, they would fight the matter all the way through the courts.

"Mr. Wills, their champion, assured us that it should be done right away.

but instead of doing the same they have fenced up the street, to stop it beli used, and the gravel that should go the fill is being used in other places."

HASSAM COMPANY SUES

Paving Contractors Charged With Violating Agreement.

Charging the Consolidated Contract Company with unlawfully using a patented article in laying Hassam patented article in laying Hassam pavement on Commercial street and asking that the company be permanently enjoined from laying more of this pavement, the Hassam Paving Com-pany and the Oregon Hassam Paving Company have brought suit in the Fed-eral Court. It is alleged in the comeral Court. It is alleged in the complaint that Hassam pavement is the invention of Walter E. Hassam, that he discovered it in 1995, and patented it the next year. The Oregon Hassam Paving Company, it is alleged, is the licensee of the Hassam Paving Company. It is charged that the Consolidated Contract Company took the contract with the city May 17, last, to pave Commercial street from Skidmore to Killingsworth avenue, for \$26,610.49. The objection of the Hassam Company is said to be that the defendant is not complying with the Hassam is not complying with the Hassam Company's conditional consent to allow any other company to bid on Hassam.

BOARD UNDER WAY

East Side Commission Committee of 15 Is Temporarily Organized.

CLARK NAMED CHAIRMAN

Recommendations for Permanent Officers and Charter Outline to Be Submitted by Appointed Body Next Monday.

With the election of A. E. Clark as secretary, the committee of 15, appointed by the East Side Business Men's Club to draft a commission charter for this city, effected temporary organization at a meeting at the City Hall last night.

The committee will be organized permanently at a special meeting next Monday night, when a committee, to be named by Chairman Clark today, will report recommendations as to permanent officers.

Eleven of the 15 members of the com Eleven of the la members of the committee attended last night's meeting, which was called to order by L. M. Lepper, a member of the committee representing the East Side organisation which selected the membership of the nission committee.

Confidence Is Expressed.

'The East Side Business Men's Club "The East side Business are to com-is pleased with the selection of the com-mittee that has been made as well as its personnel," said Mr. Lepper. "We be-lieve that we will feel proud of the work this committee will do, believing that the commission charter you will frame will be one that will commend it-

frame will be one that will commend itself to the people of Portland."

On motion of R. W. Montague the appointment by the chairman was authorized of another committee of three to prepare and submit at the meeting of the committee Monday night a general outline of a plan of commission charter. Dr. C. H. Chapman insisted that the tentative draft should be that of a genuine commission government. of a genuine commission government charter, and was successful in a motion instructing the committee to that effect. The members of the committee will be announced today by Chairman Clark.

Rule Is Explained.

In reply to a question by City Auditor In reply to a question by City Auditor Barbur as to what a commission form of government was, Dr. Chapman replied that it was a government in which the executive and legislative branches of a municipality were merged and administered by a commission of five or seven members; the wards in the city were abolished, political parties eliminated so far as city affairs were concerned, and responsibility placed where it belonged.

the executive and legislative branches of a municipality were merged and administered by a commission of five or seven members; the wards in the city were abolished, political parties climinated so far as city affairs were concerned, and responsibility placed where it belonged.

Members of the committee attending the initial meeting last night were: R. W. Montague, A. E. Clark, Dr. Harry Lane, Alfred D. Cridge, Dr. C. H. Chapman, City Anditor Barbur, N. U. Carpenter, D. V. Hart, William C. Benchow, Thomas M. Huriburt and George Black. Non-attending members of the committee were: Circuit Judge Modin, F. C. Barnes, H. G. Parsons and Isaac Swett. The committee decided to meet regularly every Thursday night in the Mayor's committee-room in the City Hall.

SENATOR PRAISES LAW

COUNTY HIGH SCHOOL FUND IS BIG AID TO OREGON.

Milton A. Miller, of Lebanon, Declares New Law Allowing Tuition Is Effective.

County Treasurer and the County
School Superintendent.

"Every high school in any county
that maintains a school up to the standard prescribed by the State Board of
Education is entitled to receive from
this fund tuition for all pupils attendtime held west of Senator William

Perkins Succeeds McCormick. ing high school," said Senator Miller, yesterday. "The disbursement of the high school fund is on a basis of \$40 a pupil for the first 20 pupils; \$30 a pupil for the next 20 and \$12.50 a pupil for the remainder.

"There are now seven counties in the state using this plan. They are

"There are now seven counties in the state using this plan. They are Benton, Linn, Lane, Lincoln, Polk, Union and Yamhill. I commend this law most highly to the people of all the counties of the state. It is one of the best laws ever enacted in the state for school purposes, because it brings the school to the children. It approaches more nearly to equality than most any other plan for the reason that the fund is raised from direct taxation of all classes of property. This ation of all classes of property. This high school is the poor man's school, for it reaches the people.

for it reaches the people.

"For example, we have in the Lebanon high school 100 boys and girls. Under the law this school is entitled to and draws tultion from the county high school fund to the amount of

To send 10 boys and girls away from home to school to pay board and tul-tion will cost an equal amount, but my point is there will be 90 per cent who have not gone to the high school at all. Therefore, it behooves us to support this law which brings the school to the

people.

"The high schools are forming rapidly and I rejoice over that fact. There are more high schools established in Linn County under this new law than there were in the entire state in 1900. We have 800 boys and girls in the high schools of Linn County, the great majority of them living in their own homes. Eighty per cent of the eighth strade graduates are retained in the schools. Last school year there were

over \$000 boys and girls in the high schools of Oregon.
"Every community in Oregon can have the kind of school it desires. The during the excursion to Bonneville. The boat will leave the foot of Washington street at S A. M. This will be an occasion when the newspaper men will take their wives and sweethearts along and the tickets which are on sale are available to all.

In addition to the pirates' doings there will be music by a band and dancing, the latter at Bonneville, where after of two bours and a half will be asserted in the effect of producing the boat will be an occasion. "Every community in Oregon can have the kind of school it desires. The buildings can be and should be inspected and repaired from time to time, seeping them painted and renovated so that good sanitary conditions may prevail. The grounds should be kept clean and free from rubbish and trash of any limit that has the effect of producing

disagreeable impressions.

"William E. Chandler, of Washington, D. C., a man of National reputation as an educator, said when in Ore gon a few years ago. I have read the school laws of every state in the Union school laws of every state in the Union and Oregon laws rank among the best. The school laws are very democratic. Politics are unknown and the intelligence of the people is of a high order. "Oregon's public school system ranks among the foremost in this country. Its efficiency will be promoted through the general use of the provision of the the general use of the provision of the law providing for a county high school fund for the support of county high schools and the better education of our young people."
