

STERNATION CARE BANISHES CLOTHES

Effects of Tacoma Women Not Returned, Even Though Search Is Made.

JEWELRY IS ALSO MISSING

Two Counties to Join in Prosecution of Dr. Hazard, Set for First Week in October Court Term at Tacoma.

TACOMA, Wash., Aug. 8.—(Special.)—The Misses Dorcas, one of the patients of Dr. Linda Burfield Hazard, is not yet out of danger as a result of submitting to the alleged "starvation cure," says a declaration of her attending physician, Dr. A. H. Coleman, tonight.

"Miss Williamson has improved rapidly under the good care of her nurse, Miss Conway, but in her greatly weakened and reduced condition it will be months before she reaches any degree near her normal condition," continued Dr. Coleman.

"She is not in need of any treatment, only food. Until it is determined whether there are any organic troubles it will be impossible to say for a certainty whether she will recover. At present she is convalescing rapidly, but her recovery is not certain."

That not only money and jewelry belonging to the Misses Williamson are missing, but that clothes and other personal effects are also missing, was stated in a statement of Vice-Consul Agassiz today.

"We have no trace of the women's clothing," said Mr. Agassiz. "We cannot do much to recover these personal effects until after the trial of Dr. Hazard."

"Dr. Hazard probably will be given a trial about October 1," said Attorney Frank Kelley, after his return from Seattle, where he conferred with Prosecuting Attorney Stevenson, of Kitsap County, with whom he will be associated in the trial of the case.

"We are going at the preparation of the prosecution case systematically. Affidavits from persons who have been former patients of Dr. Hazard are being prepared, and all statements made by them in connection with the method of treatment will thus be fully substantiated, so that there can be no retractions. I believe that in three weeks we will have a complete case which will make it impossible for the doctor to escape."

RAYMOND OUT FOR ROADS

Delegates at Meeting Take Action Toward Voting Bonds.

RAYMOND, Wash., Aug. 8.—(Special.)—The meeting of the Pacific County good roads workers at Long Beach on August 7, was well attended and very enthusiastic, and will no doubt result in an early effort to build more roads in this county through the resolution unanimously adopted in favor of a trunk system of roads east and west and north and south through the county and the voting of bonds to finance the building of the same.

Tom Richardson, of Portland, addressed the delegates, and in speaking of the interest taken in the movement said: "The delegation from Raymond is the largest one from a small city, attending a purely business meeting where the more than \$2,000 that I ever saw."

Other speakers included Mayor A. C. Little, of Raymond; Judge Bloomfield of Long Beach; Ed Rucker, of Bay Center; E. H. Wright, of South Bend; G. O. Hicks, of South Bend, and Senator Esby.

The next regular meeting of the association will be held in Raymond September 5.

PHONE WAR ONLY STARTED

Farmers in Union County Firm in Stand Against Company.

ENTERPRISE, Or., Aug. 8.—(Special.)—The telephone war in Union County is still in its infancy. A committee to confer with the people in other sections of Union County was named. From all indications the war on the telephone rates has only begun instead of being virtually settled. Committees of farmers are working up sentiment for a co-operative telephone system. All telephones in Enterprise are still out of commission.

Such was not the case, according to reports from that city, which are to the effect that the telephone company in Union County, saying that a mass meeting was held last evening and the telephone company's plan rejected. A committee to confer with the people in other sections of Union County was named. From all indications the war on the telephone rates has only begun instead of being virtually settled. Committees of farmers are working up sentiment for a co-operative telephone system. All telephones in Enterprise are still out of commission.

SCAPPOOSE SAFE TRIED

Yegmen Make Bungle of Attempt to Get Railroad Money.

SCAPPOOSE, Or., Aug. 8.—(Special.)—An attempt was made Sunday night to rob the large sum in the Astoria & Columbia River Railroad depot at Scappoose.

Entrance to the depot was gained by prying open a transom over the back door. The bottom was broken and part of the safe with heavy tools, but the attempting safe-crackers made a bungling job and could not get the strong lock open. They stole a speeder and went toward Portland.

COOS ENLISTS MORE MEN

County's Naval Reserve to Be Trained on Cruiser Boston.

MARSHFIELD, Or., Aug. 8.—(Special.)—Coos County now has better representation in the Oregon Naval Militia than any other county in the state. With the organization of a new division at Bandon the county has three

divisions in the reserve and the Coos Bay band besides. The total number of enlisted men is about 150. Twenty-five from Marshfield and 10 from the new Bandon division have gone to Portland to bring back the cruiser Boston, which will be here August 14 to remain two months. In that time, all the men will receive training on the vessel.

The new Bandon organization will be known as the fifth division. The commander is Dr. L. P. Sorensen, who has the rank of junior lieutenant. Dr. Smith J. Mann is assistant surgeon, and Earl S. Gher, ensign. Dr. E. E. Straw, senior lieutenant of Marshfield, has command over all three divisions. Uniforms will at once be furnished the Bandon men and a drill hall has already been provided for. Thirty-seven

men have been enlisted and the number will be increased to fifty.

VANCOUVER DOG IS CHAMPION HIGH DIVER AND TRICK PERFORMER.

Joe, English Pointer.

VANCOUVER, Wash., Aug. 8.—(Special.)—Joe, an English pointer bird dog, owned by Alexander McDonald, of this city, knows and does a number of tricks no other dog in this part of the state will do. His big feat is diving 35 feet from the top of the Northern Pacific dock into the Columbia River to retrieve sticks, or anything else that is thrown in for him to get. This trick was taught this Summer. When the water was about even with the top of the dock he was taught to bring back sticks thrown in. Then the water began to recede, and Joe would have to jump a foot or so more daily. Joe will also buy candy and peanuts, taking the money in his mouth and going two blocks to a certain dealer, who knows what he wants.

CHEHALIS PLANT OPERATES

Electric Power Turned on in New System for First Time.

CHEHALIS, Wash., Aug. 8.—(Special.)—The new \$75,000 power plant constructed by the Washington-Oregon Corporation at Chehalis began service today. Parkinson burners have been installed in the plant so that local lignite coal may be burned. It is expected that the use of local coal will materially cut the cost of operating. Half of the complete plant has now been erected, and work on the second half will be rushed.

The two units of the new plant, with the four boilers operating, will generate 750 kilowatts. When the second unit is completed the whole plant will be used as an auxiliary to the big power-house that is now being installed at Knappton. With the exception of one night about a month ago, when there was a slight breakdown, the electricity supplied Chehalis and Centralia has proved satisfactory.

BEAR EATS HUNTERS' GAME

Moster Men Forced to Watch Animal Devour Deer.

MOHIER, Or., Aug. 8.—(Special.)—Edward Dunsmore, Fred Templeman, George Huskey, and Jake McCowan, Mohier business men, have returned from a hunting trip in the mountains back of Cascade Locks. One three-prong and one five-prong buck were killed. The hunters say there is no shooting in the mountains with plenty of game.

On the second day out the first deer was killed and camp was made on Eagle Creek. The deer being strung up to a tree. The hunters stood their guns up against the tree and at daybreak were startled to see a black bear devouring their venison. Brains were to be seen around and as the guns were not within range, the hunters became frightened and sought other quarters until the bear had departed.

WIFE DEFENDS SHOOTING

Walla Walla Woman Says Another Had Husband's Intentions.

WALLA WALLA, Wash., Aug. 8.—(Special.)—Saying that she shot her husband because another woman, who she alleges is Mrs. Maudie Keetzer, came between them, Mrs. D. B. Woodruff today told her side of the shooting affair of yesterday. She showed little feeling for her husband, and only required for him in a matter of fact way.

"I begged him on my knees to come back for the child's sake," she said, "but he would not. He told me he would go to see her whenever he pleased, and I replied that he would not. If I had strength to prevent it, I would have shot a gun before. He says I drove him to her, but I don't see how that could be, when I was in the hospital three weeks. He never stays on an hour with me. Before he met that wicked woman he treated me so good, and we were ever so happy."

NEW SCHEDULE

Steamer Potter Account Astoria Centennial.

Effective August 16 and continuing during the Astoria Centennial the steamer T. J. Potter, for Megler, will leave Ash street dock daily except Saturday and Sunday at 8:00 A. M. instead of 8:30 A. M. touching at Astoria on down trip. On Saturdays at 1 P. M. for Megler only. In addition to the Potter, the steamers Harvest Queen and Hassalo will leave Ash street dock daily except Sunday at 8:00 P. M. (Saturday at 10:00 P. M.). The Harvest Queen will run direct to Astoria, returning via Megler; the Hassalo to Megler direct, returning via Astoria.

For further particulars, reservations, etc., call at City Ticket Office, Third and Washington streets.

SAVING IS DUBIOUS

State Purchasing Board Not Stupendous Success Yet.

POLITICIANS KEEP WATCH

Project Favorite of West, Who Admits He Doesn't Know How It Will Result, but Asks for More Time to Find Out.

SALEM, Or., Aug. 8.—(Special.)—Although several months have elapsed since the law creating the State Purchasing Board and the office of State Purchasing Agent went into effect, members of the Board are as yet unable to say whether the law is proving a benefit to the state, or whether it will result in virtually wasting the appropriation of \$7500 made for the two years.

Many politicians, in particular, have been watching this board with interest, since one of the hardest battles in the last Legislature centered about the passage of the measure. Senator Bowerman and Governor West each had decided ideas as to how state supplies should be purchased, Bowerman believing in the establishment of a commissary and West in the purchasing board idea. An effort to effect a compromise failed and West's bill became a law.

Governor West and Secretary O'cott have both expressed themselves as unable to say yet, whether the board is a success. "Give us some time to find out," says West. "I am frank to say that I do not know whether the board will result in saving or loss to the state. I am confident the purchasing Agent is a good man for the place and knows as much about buying as any other man in Oregon."

The Governor believes that the board will effect some saving by judicious buying of certain articles, the prices of which fluctuate in the markets. For instance, he believes that a saving may be made on prunes by purchasing in the open market and pricing at an opening to buy when prices are low, just as in purchases made for commercial purposes.

Joseph Warehouse Pays Dividend.

JOSEPH, Or., Aug. 8.—(Special.)—The board of directors of the Joseph Warehouse Company today declared a dividend of four per cent, which is the first dividend paid to its stockholders during the three years of its existence, notwithstanding the fact that they earned 25 per cent annually on their capital stock. Heretofore, the surplus was used for new and up-to-date equipment. The dividend was quite a surprise to the stockholders, as originally the stock was subscribed for more as a donation than an investment, the town of Joseph being very much in need of a warehouse.

Grand Army Men Meet.

VANCOUVER, Wash., Aug. 8.—(Special.)—The annual encampment of the Clark County Grand Army of the Republic will be held at Orchards, beginning Wednesday and continuing for the remainder of the week. The first meeting will be held in the evening, followed by an impromptu picnic and campfire. The business meeting will

Lighthouse Keeper's Skull Crushed.

ASTORIA, Or., Aug. 8.—(Special.)—John Enquest, keeper of the Destruction Island lighthouse, was instantly killed yesterday, while assisting in unloading coal from the lighthouse tender Heather. As the big derrick broke off striking Mr. Enquest on top of the head, crushing the skull. The deceased was a native of Sweden and about 55 years of age. He left one brother, Fred Enquest, who is a fisherman on the river. W. Charles Mosder, second officer of the Heather, and Alex Sanders, a deckhand, were close to Enquest when he was killed, but escaped unhurt. The broken part of the derrick was found to be badly decayed.

Rapcher Violates Fire Law.

ASTORIA, Or., Aug. 8.—(Special.)—Harvey Movick, a raucher in the Upper Necanicum River district, was arraigned in the Justice Court this afternoon on an information sworn to by J. W. Webb, a supervising fire warden, charged with setting out fires in the closed season. After hearing the evidence Justice Goodman imposed a fine of \$50 and suspended the sentence with the admonition that Movick must start no more fires without first securing a permit from the officers.

Medford to Observe Labor Day.

MEDFORD, Or., Aug. 8.—(Special.)—Race, a parade, a barbecue and public speaking, besides all manner of competitive and novelty sports, will feature the celebration of Labor day by the local unions September 4. The Central Labor Council is making plans for the celebration, which will be the biggest ever held in the valley. Front-street labor speakers will make addresses.

Many Hunt in Curry Mountains.

MARSHFIELD, Or., Aug. 8.—(Special.)—Many hunters are now in the mountains of Coos and Curry Counties after deer. Several sought the most favored places several days before the open season began so that they would be first on the ground. This year Curry County seems to offer most promising hunting. The deer are reported to be plentiful and news of success comes from many of the hunters' camps.

18 Cars of Steers Go to Sound.

JOSEPH, Or., Aug. 8.—(Special.)—A special train of 18 cars of three-year-old steers left here this morning, consigned to the Seattle market. The steers came from the Snake River range and were in fine condition.

PAST WILL BE TOLD

Historical Institute to Have Noted Speakers at Astoria.

'ON SPOT' TALKS PROPOSED

Addresses at Centennial Celebration Will Be Given Where Incidents Discussed Are Believed to Have Occurred.

SALEM, Or., Aug. 8.—(Special.)

Several more speakers who will participate in the historical educational institute, which will be held in Astoria September 5, 6 and 7, have announced their intention of being present.

George H. Himes, president of the Oregon Historical Society, will be among the speakers. Professor F. G. Young, of Eugene, secretary of the same society, will speak on "Significant Oregon History for the Life of Today." Professor Joseph Schaefer, of Eugene; Frederick V. Holman, Portland; Eva Emery Dye, Oregon City, and State Superintendent Alderman will be among the other speakers. As nearly as possible historical addresses will be given on the spot where the incidents which furnish the subject matter for the addresses occurred.

Superintendent Alderman is confident that these "on the spot" historical addresses will be the cause of widespread interest throughout the Northwest and that the institute both along educational and historical lines will be among the greater successes of the Astoria Centennial celebration.

DREAM CAUSES ATTACK

WOMAN NEARLY SLAYS HUSBAND IN FIRING AT PHANTOM.

In Nightmare She Sees Murderer Attack Mate, Draws Revolver and Splinters Bed.

SEATTLE, Wash., Aug. 8.—(Special.)—Lying in her apartments at Second avenue, North and Harrison street, early this morning, Mrs. John Wolf saw a dark figure stealthily enter the adjoining room of her husband and tiptoe toward the bed. Over the head of the unconscious sleeper the unknown assailant raised a heavy weapon resembling an axe, and stepped back to deal him a crushing blow.

When Mrs. Wolf awoke from her nightmare she found herself standing in the open door with a smoking revolver in her hand, while her husband was endeavoring to calm her. Imbedded in the rail of the couch, just below the pillow where his head had rested was a bullet, from which he had escaped most miraculously.

Patrolman E. Geisler heard the shot and rapped at the rear of the Wolf grocery. He was admitted by Wolf, who explained that his wife was subject to bad dreams, although she had never become violent before.

She, when she realized the narrow

LINK TO SPAN SOUGHT

Holladay and Larrabee Residents Want Bridge Connection.

Residents and property owners on Holladay avenue and Larrabee street say they will insist that a direct connection be made with the East Side approach to the new railroad bridge. Removal of the present steel bridge will leave these streets in bad condition they argue, especially on Lower Holladay avenue, where between \$500,000 and \$1,000,000 has been invested in improving the streets and in erecting modern buildings. They asked that Larrabee street be extended along the brow of the bluff to the approach. This extension, it is contended, will provide Holladay avenue and Larrabee street with connection with the new railroad bridge.

Larrabee street and Mississippi avenue together make a highway three miles long, ending at Killingsworth and connecting with practically all streets in the North East Side while Holladay avenue is also a highway of importance.

Francis Clarno, president of the Steel Bridge Push Club, has been urging the necessity for an approach, and at first asking for a steel conduit direct south from Holladay avenue over the grounds of the railroad yards, but this was found impractical.

Idaho Varsity Builds Roads.

MOSCOW, Idaho, Aug. 8.—(Special.)—The University of Idaho, under the direction of Dr. W. L. Carlyle, director of the experimental stations of Idaho, is preparing to build a sample mile and a half of dirt road, extending from the university campus through the agricultural college farm. It is intended

Upstairs Lafayette Bldg. 213 1/2 Washington St., N. E. Cor. Sixth.

They Grow Hair

Certain Ingredients, if Properly Combined, Stimulate Human Hair Growth.

Resorcin is one of the most effective germ destroyers ever discovered. Betanaphthol is a most powerful, yet absolutely safe, germicide and antiseptic, which prevents development of germ matter and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Resorcin, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Resorcin, Pilocarpine and Glycerine composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, even though the scalp in spots is bare of hair, providing, of course, there is life and vitality remaining in the hair roots.

We want everyone troubled with scalp disease, dandruff or loss of hair to try Resall "93" Hair Tonic. If it does not remove dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has affected most satisfactorily results in 95 out of 100 cases where put to a practical test.

Resall "93" Hair Tonic is entirely unlike and in every particular different from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1.00. Sold in Portland only at The Owl Drug Co., Inc., Cor. 7th and Washington Sts.
