

SALOONMAN SENT TO QUARANTINE

Joe Morrison, Who Sold Liquor to Drunk, Is Handcuffed, Taken to Rockpile.

ARRESTS ARE NOW FEWER

Police Note Falling Off of Intoxication After Conviction of Two Runners—Judge Will Continue Crusade.

Accepting his punishment without effort to make further fight, Joe Morrison, a Sixth-street saloonkeeper, who was convicted by a jury in the Municipal Court, Wednesday afternoon, of selling liquor to Frank Skidmore when he was intoxicated, and of aiding to strip him of his savings of \$1500, submitted to being handcuffed among the day's delinquents and went to the Linnton rockpile to serve six months.

The drastic and definite action in the case of Morrison, with a similar penalty impending in the case of Frank Mays, and the awakening of the police department, are serving as a lesson to the liquor trade in this city.

Already a diminution of the number of intoxicated persons arrested has been noticed.

Taxwell to Continue.

Judge Taxwell says he stands ready to visit severe punishment on every man caught selling liquor to a drunken man. Some of the active persons in the movement even call it as the solution of the liquor evil, and predict that a close enforcement of this strict provision of the ordinance will bring excessive drinking to a point lower than ever known before.

Further activity was witnessed yesterday, when police arrested two more saloonkeepers, and also the drunken men to whom they served liquor.

More Arrests Made.

Patrolman Swennes saw Joe Carlich serve beer to Allen Ritter at 254 North Fourth street, and placed both under arrest. Patrolman Borch and Webster arrested Louis Borch in his saloon at 29 North Second street, and brought in with him Frank Hendley, the patron who was drunk.

With numerous station officers to testify to the condition of the men when they were taken to the station, the patrolmen have never before made a clear case and will be able to send two more to jail the colony at Linnton.

Dr. George F. Koehler left Portland yesterday for Gearhart, where he will join his family.

Er. B. Braden Kyle and party, of Philadelphia, are in Portland yesterday over the Great Northern in a private car. After several days in this city, the tourists depart probably for the Southern Pacific for the East.

MAYOR SUSPENDS CHIEF

Astoria Police Official Refuses to Obey Council's Order.

ASTORIA, Or., Aug. 10.—(Special.)—Chief of Police Thomas Linville was suspended from office for 30 days yesterday by Mayor H. L. Henderson, who appointed Patrolman Emsey Houghton as Acting Chief pending an investigation by the Council. While the Mayor gave no reason for his act in the letter of suspension and declined to discuss the matter, it is known that the suspension is the result of the failure of the Chief to obey the instructions from the Council relative to the control of immoral persons.

In the past two weeks the Chief has arrested nearly 300 women under the vagrancy ordinance, compelling those to leave the city who did not deposit \$500 bond. The Council meeting last Monday evening condemned that policy, but the Chief continued it and the suspension followed. All the money thus collected was turned over to the city.

FARMERS DEMAND SHARE

Opposition to Jackson Good Roads Bonds Develops.

MEDFORD, Or., Aug. 10.—(Special.)—Demanding that the county be divided into districts and that each district be pledged so much road work, outlying localities are now voicing their opposition to the \$1,500,000 bond issue to be voted on at a special election called for September 30.

Residents of the protesting sections wish to know, before they vote for the issue, whether their roads will be fixed and just how much of the money they will get. The new plan of dividing the county into districts, adopted by many California counties, be used in Jackson County.

MEDFORD HAS FIRE TRUCK

City Department Now Equipped With Automobile Apparatus.

MEDFORD, Or., Aug. 10.—(Special.)—After 21 years of existence the Medford fire department this evening, at a special meeting of the City Council, added a \$5250 automobile truck to the equipment.

The automobile truck will be used to carry the hose and ladders, the pressure being such all over the city that an engine is unnecessary, and it will take the place of the present team and heavy wagon. The new truck is of 55 horse power, and has the same equipment as those used in large cities.

PROUD FANDOM AT RANDOM

TED SULLIVAN, the veteran big league scout, is now in the Northwest, with an eye out for talent. He is a free lance in the scouting game, though most of his selections are taken by the Pittsburgh club.

Sullivan is a veteran of the diamond and has had many years of experience both as a writer, a player and a scout. He will be in Portland next week when the rejuvenated Angels arrive to give battle to McCredie's league leaders.

The Tacoma club is reported to have sold Curtis Coleman, third baseman, to the New York Americans. Coleman is a University of Oregon boy, and first broke into professional ball with the Portland Pacific Coast League team several years ago. Since he has been playing with Tacoma, he has steadily improved in his work and is rated as one of the best infielders in the Northwest League.

Mique Fisher, the talkative personage who formerly conducted the destination of the Tacoma Tigers, from a two-time pennant-winner in the Pacific Coast League, arrived in San Francisco the other day and peddled his usual brand of conversation. However, when talking sense, Mique predicted that Vancouver would win the Northwest League pennant. He is now confining his efforts to running a dance hall and dodging grand juries at Seattle.

The Los Angeles team, which comes to Portland next week, will present several new faces. Among them will be Heinley Heilmuller, the big Dutchman who "made a name" with Oakland in 1904. Heilmuller played several seasons on the Coast before he was drafted by Connie Mack for the Philadelphia Athletics, with whom he played two seasons. He was turned over to Baltimore, in the Eastern League. Heilmuller always was a good batsman and ought to help the Angels win a few games.

When Bob Brown put over the deal whereby he secured Emil Frisk from Spokane, he turned Jimmy Adams loose. Adams is a good ball player, but he is not a good pitcher. He is some other Northwest League club, Victoria ought to lose no time getting this player, as he would strengthen the tallenders.

San Francisco writers seem inclined to dispute McCredie's assertion that his club would not be 100 points in the lead had it not been for the injury to Rodgers, although they reluctantly admit that the injury to the King of Base has handicapped the Beavers.

FOULKES DEFEATS MAX SUTTON

Army Captain in Special Match Wins Over Champion.

TACOMA, Aug. 10.—Today's elimination in the Pacific Northwest tennis tournament brings the play down to the semi-finals in the doubles, while there is no more play in the singles before the semi-finals are reached.

The feature of today's play was a special match between Captain Foulkes of Victoria and Miss May Sutton, the former winning, 6-2, 6-4. Results: Men's singles—Gorrell beat Lyon, 4-6, 6-3; Russell beat Breeze, 6-4, 6-3; 2-2. Men's doubles—Mattern and Armstrong beat Green and Baker, 6-2, 5-4; Purford and Burt beat Shannon and Tomlinson, 6-2, 6-1; Tomlinson and Tomlinson beat Burt and Thompson by default; Lewis and Judd beat Shannon and Tomlinson by default.

Women's singles—Miss Breeze beat Mrs. Gilman, 6-2, 6-1; Miss Sutton won from Miss Norton by default; Mrs. Cook beat Miss Norton, 6-2, 6-1. Women's doubles—Miss Dutcher and Miss Miller beat 6-2, 6-1; Miss E. Baillie and Miss Breeze beat 6-2, 6-1; Miss Schaefer and Purford beat 6-2, 6-1; Mrs. Wintgate and J. Wintgate, 6-2, 6-1; Mrs. Wintgate and J. Wintgate, 6-2, 6-1; Mrs. Schaefer and Benham beat Miss E. Baillie and Breeze, 6-2, 6-1; Mrs. Schaefer and Benham beat 6-2, 6-1; Benham and Denton, 6-4, 6-3; Mrs. Tyler and Tyler beat Miss Keen and Wallace, 6-2, 6-4.

FAST HORSES TO RACE SUNDAY

T. W. Murphy's Tom Marshall Will Vie With George McCoy's Dan S.

The track of the Portland Fair and Livestock Association will be the scene Sunday afternoon of a match harness horse race for a purse of \$500 between T. W. Murphy's Tom Marshall and George McCoy's Dan S.

Both horses have met before, and on the former meeting Dan S. was the victor in two straight heats. But this time Tom Murphy figures his entry to be in the form and is sanguine of reversing the decision recently gained by the McCoy entry. This race is attracting considerable attention, and many of the friends and admirers of the horses and their owners will witness the race.

ELKS AND MOOSE WILL CLASH

Baseball Teams of Two Orders to Play Here Sunday.

The Elks and the Moose will clash Sunday morning on the baseball diamond and fraternal circles await with interest the outcome of the struggle. Manager Polts announces that Berger and Harlow will do the twirling for the Elks and that Gleason will be behind the bat. Crandell and Saul will be the battery for the Moose.

The game will be played at the league grounds and will be broadcast by Benny Henderson and Buddy Ryan will umpire.

Brinker Is Sold to Phillies.

VANCOUVER, B. C., Aug. 10.—President Brown, of the Vancouver Northwest League club, announced tonight the sale of outfielder Brinker to the Philadelphia club, of the National League. Brinker has been used frequently by Vancouver as a pitcher.

Glidden Tour to Begin October 15.

CHICAGO, Aug. 10.—Chairman Butler, of the American Automobile Association, announced today that the Glidden tour will begin on October 15. The trip will begin at New York and terminate at Jacksonville, Fla. The distance covered will be 1349 miles.

A NICE SUMMER OUTING

Wild Pigeon Spring has a new and good road, a new camp, a new and nice free modern hotel, good fishing. Our object is to have you try this wonderful spring and be convinced of its merits. Call at Eldorado, Or., Co., 151 Third street, and get descriptive folder.

SEATTLE FIRE GETS CONTRACT. OLYMPIA, Wash., Aug. 10.—(Special.)—To J. C. Corbin & Co., of Seattle, has been awarded by the State Board of Control the contract for erecting the new power-house at the State Veterans' Home at Port Orchard. Their bid of \$2,387 was the lowest received.

Extermination of Worthless Fresh-Water Fish Is Advised by Experts.

APPETITE IS ENORMOUS

Destructive Capacity Estimated at Six Food Fish a Day—Theory as to Age When Salmon Mature Is Revised.

WASHINGTON, July 21.—In the interest of Alaskan salmon, the extermination of the freshwater sculpin, called also "blow" or "blow-head" or "blob," is urgently demanded. It is a worthless fish, with a tendency to feed on salmon fry and salmon eggs, and has a voracious appetite and wonderful digestive apparatus.

Messrs. Bean and Weed, of the Division of Fishes of the United States National Museum, have recently investigated the "blob" and find that it is extremely destructive to salmon eggs. These fish have no trouble gathering in the fry, two or three inches long, and occasionally manage to corner some larger ones.

Fourteen blobs were found to have made meals with 29 salmon and 48 eggs, an average of almost three salmon and a little over three eggs for each fish. These blobs were not at all particular about holding to the average, as some of them had exceeded it materially, nor did they bear out the theory well known to every fisherman that the first fry turned by the fish and swallowed lead foremost. The blobs, it seemed, eat them both ways.

Destruction Is Enormous.

The destructive average of the blob is estimated at six salmon a day, which is maintained for about 60 days a year. This would make the average yearly loss of fish total 360 salmon annually, to say nothing of the little trout gathered in and sometimes little blobs. The latter kind of feeding, however, meets with the approval of the fish experts.

Blobs in general are bottom fish and prefer to remain hidden under stones, etc. It is just in similar places that young salmon and trout hide at certain hours of the day, usually when the sun is hottest. It is then that the blobs get them with the least difficulty. For this reason it is believed the stomach contents of each of the blobs examined represented one day's feeding and under proper conditions (when the salmon eggs or young salmon are available) the same amount would be eaten each day.

The greediness of some of the blobs was remarkable. One had eaten seven salmon, five of which were about two inches long and the other two nearly three inches long. The last fish eaten had been swallowed tall first. As there was no room for the other stomach for this one, only its tail was found there, while its head stretched up into the mouth of the blob.

DESTRUCTION IS COUNSELED

Fred Patching, superintendent of the Fortman hatchery, Loring, Alaska, has urged the extermination of the Fishes. Commenting on their destructive work, he says:

"Until we made traps I had no idea there were so many blowheads (or blobs) in Helm Bay stream. One morning we caught 2700 in three small traps, and in 25 days the total catch of blobs was 21,000. They are eating up the salmon and should be destroyed whenever caught."

Mr. Patching had held that it required 12 to 20 years for a salmon to reach full maturity. Several years ago the Bureau of Fisheries marked a large number of salmon fry and turned them loose in Helm Bay stream. The theory was disproved, however, by the capture of 16 of the marked fish in Yes Bay that had been in the water only five or six years, but were found to be full grown. The fact that they were found in Yes Bay also failed to substantiate the theory that fish would return to the stream in which they were liberated.

Barton A. Bean and Alfred C. Weed, of the National Museum, who have made a special study of the subject, have written a history of the blob, which has been published under the title of "Notes on Certain Features of the Life History of the Alaskan Fresh-Water Sculpin," in the Smithsonian Miscellaneous Collections.

BOISE ASKS QUESTIONS

RAILROAD MANAGER QUIZZED ABOUT CUT-OFF.

Idaho Governor and Mayor of Town Join in Demanding That Oregon Short Line Hurry.

BOISE, Idaho, Aug. 10.—(Special.)—Wishing to ascertain definitely who in the Oregon Short Line has the authority to cut off the proposed main line of the Oregon Short Line through Boise, officers of the Boise Commercial Club including President Falk, Governor Hawley and Mayor Fritchman have written to W. H. Bancroft, general manager, for the desired information. The committee wants to know:

First—Just when the Owinsa cutoff Boise will be built, or whether it is to be built at all.

Second—Whether Mr. Bancroft will accept Boise's invitation to come to the city and talk matters over with the people.

Third—Whether Mr. Bancroft, in the event previous engagement prevents his visit here, will set a date for the committee to meet him at his own office in Salt Lake.

The proposed Owinsa-Payette cutoff leaves the Short Line west of Pocatello, runs northwest to Richfield and then strikes off through the Camas Prairie country to High Prairie, Soldier, Boise and Payette, where it again joins the Short Line. The entire distance traversed is a fraction more than 200 miles.

Woman Answers Dayton's Appeal.

SALEM, Or., Aug. 10.—(Special.)—Mrs. Palmer, of Vancouver, Wash., is the first to reply to the call of the Dayton Commercial Club for a German woman to take care of the children of John Fisher, of Dayton. While Mrs. Palmer says she is not German she has the other qualification of being 25 years of age. Secretary O. H. Fisher awarded her letter to the Dayton Commercial Club.

TIMBER FIRES ARE FEW

WASHINGTON STATE WARDEN SAYS LOSS IS MINIMIZED.

Rain and Vigilance of Forest Rangers Prove Big Saving—Year's Record Is Commended.

OLYMPIA, Wash., Aug. 10.—(Special.)—Never before in the history of Washington have the forest fires done so little damage to standing green timber as up to this time this year, according to J. E. Walty, State Fire Warden. He says that the fires of 1911 have been without exception confined to burned-over or logged-off lands and the loss of green timber is nominal.

The rains in Eastern Washington have prevented any serious damage in that region. It was there last year that the big losses were sustained, and this year the southwestern part of the state has had more acres than ever before. Wahkiakum, Pacific, Chehalis and Lewis and Clark counties have been threatened by serious fires, but the quick work of the state and the association deputies has stopped the flames from gaining damaging headway. If rain falls within the next week or 10 days it is believed danger will be practically passed, although deputies are being warned not to relax their vigilance.

Thousands of acres of burned-over and logged-off land have been run by fire starting from slashing blazes and sparks from engines, but each time the fighters gained control before the green timber was touched.

WEST DEFIES LAND FIRM

Damage Suit by Deschutes Company "Pleases" Governor.

ASTORIA, Or., Aug. 10.—(Special.)—The Deschutes Land Company and J. E. Morson, president, are in line for still another lawsuit, this time against the hands of Governor West as a result of the \$10,000 damage suit brought by the company. When apprised of Morson's action this afternoon, Governor West said:

"If Mr. Morson had been wise he would have postponed his suit for a little while, for I have something in store which might give him far better grounds upon which to base his suit. I am greatly pleased to find that he is ready going to sue me for the stand that I have taken on this matter, because it will result in giving a great deal of publicity to the matter, and perhaps save prospective settlers many thousands of dollars which they otherwise might lose."

SALMON RUN IS FELT FAR

Hood River Fishermen Gather 500 Pounds as Daily Average.

HOOD RIVER, Or., Aug. 10.—(Special.)—The unusual run of salmon that is reported as blocking the Columbia's mouth is being felt by local fishermen. The Mount Hood Fish Company recently organized in this city by E. J. Young, Andrew Kern and E. C. Wright, operates traps and nets at three different points near Ringen on the Washington side of the river. Mr. Kern reports that the recent catch has been better than for years in the local waters. He says that the company takes a daily average of more than 500 pounds of salmon. The greater part of

Dryad School Is Burned.

CHEHALIS, Wash., Aug. 10.—(Special.)—The burning of the \$6000 school house at Dryad Saturday evening is reported; insurance \$1000. The building is said to have been set fire by sparks from the Northern Pacific local freight engine on the South Bend branch. Forest Ranger Bassett discovered the blaze.

Farmers' Fight Brings Suit.

ALBANY, Or., Aug. 10.—(Special.)—As the result of a fight on May 13 last, E. Willis sued Gustave H. Rose in the State Circuit Court here today for \$2500 damages. Willis and Rose are neighbors, residing nine miles north of Albany, and the fight and consequent suit resulted from long-standing trouble over a road to Rose's place over land owned by Willis. Willis, who is an old man, says he lost several teeth in the encounter, and was so badly bruised that he has been unable to work since, and has sustained permanent injuries.

U'Ren Against Pamphlet Charge.

SALEM, Or., Aug. 10.—(Special.)—In a letter to the Secretary of State, W. E. U'Ren, of Oregon City, expresses himself as not in accord with the plan of State Printer Harris to change the form of the initiative and referendum

Marshfield Grants Road Franchise.

MARSHFIELD, Or., Aug. 10.—(Special.)—The Marshfield City Council tonight granted a franchise for a steam railroad to connect and run through Marshfield and North Bend. The franchise is given to the C. A. Smith Lumber & Manufacturing Company, the Simpson Lumber Company and W. S. Chandler, of San Francisco, and Planagen & Bennett, bankers of this city. Work will be started on the road at once.

Woods Electric

Don't allow your wife to be dependent on her friends.

Sacrifice a little something yourself. Buy her a Woods Electric and let her experience the delights of independence and social prestige which come with it. The Woods Electric in itself is a standing vacation and recreation. It takes away the weary, worn look that settles on the face of the woman who stays at home. Buy one for your wife and you will never experience the uneasy fear that you are not giving her a fair shake.

The Woods is the only perfectly built electric car in the world. You'll find them in the capital of France by the score, and there are no people in the world who know more about mechanically correct cars than the French. In this city and other great cities of the Union, the Woods is recognized as the Social Necessity. If you have the Woods you are above criticism.
