OWN WORK IS LOST

Granitoid Paving Company Is Underbid for Contract.

GIEBISCH & JOPLIN WIN

Concern After Long Preparation for Improvement of Six Blocks on Front Bids \$37,000 and Its Rival \$30,000.

Many months of labor on the part of representatives of Granitoid paving came to naught yesterday, when Giebisch & Joplin, rival contractors, underbid Rudolph & Blume, in round numbers nearly \$7000 on a paving contract. There was great consternation when the men who had worked up the job at much trouble and expense found themselves beaten by competitors. As the Granitoid Company had filed in the office of the City Auditor an offer to permit any bidder to use the patented materials known as granitoid, any of the contractors were at liberty to bid on it. Giebisch & Joplin, a large company, slipped in a bid of \$30,000, whereas that of the other bidder was \$37,000. If the usual course of procedure is followed, the contract will be let to the lowest bidder. The proposed work is from Tenth to Sixteenth streets. A great number of bids for hard-surface streets were opened but the old bids prices held sway on all of these. There is apparent as yet no disposition on the part of the paving companies to cut prices, although the administration has announced that it intends to force the rates far below what they were when Mayor Rushlight took office. The Executive Board confirmed Mayor Rushlight's discharge of Police Sergeant Cole without hesitation, referring it to the police committee for the purpose of serving official notice on the dismissed man. It also adopted the report of its police committee, recommending the dismissal from the police force of H. A. Galbraith, a patrolman, for drunkenness.

RILEY IS HIGHEST

Police Sergeant Likely to Succeed Slover as Captain.

HIS STANDING IS 87.36

Inskeep Is Next and Circle Is Third in Examination Taken Recently—Joseph Keller Passes With 79.35.

Harry Riley, at present sergeant, probably will be named to succeed Acting Chief of Police Slover as captain. When the civil service commission met yesterday afternoon and markings of the papers for police captains were approved, Riley was found to have passed highest. He stood 87.36; Chester A. Inskeep 85.35 and Harry A. Circle 85.3. The civil service commission will, on request, certify to the Chief of Police the three named, from which there will be appointed one. While any of the three may be chosen, it has been the rule to select the highest number, which, in this case, is Sergeant Riley. Long Experience Had. Sergeant Riley has long been a member of the police force in this city and he also had experience as a patrolman in San Francisco. He served as a patrolman for several years, when he was promoted to his present rank. He has since had charge of various districts. Joseph Keller, a sergeant, who was placed in command of the second relief when Captain Slover was made Acting-

LOSSES UNPAID, ALLEGED

Commissioner Would Banish Insurance Firm From State.

Asking a temporary restraining order

prohibiting the Phoenix Mutual Fire Insurance Company from doing business in the state and asking that the order after argument become permanent. Insurance Commissioner Koser has filed suit in the Multnomah County Circuit Court against the company. Koser alleges that on intimations that the solvency of the company was impaired he commenced an investigation into its books May 19 and ascertained that losses in excess of 25 cents for every \$100 of insurance in force remained unpaid, which is contrary to the state law governing the operations of insurance companies. May 27, the complaint alleges, Mr. Koser ordered all losses paid immediately, but declares that no effort has been made to obey the order. Irreparable injury to the public is likely to result, he says, if the company is allowed to continue business in Oregon. Date for argument has not yet been set. A well-known Des Moines woman after suffering miserably for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all dealers. Steamer "Monarch" for Astoria, Central, leaves Washington-st. dock, A. M. Fare \$1.

FAY KING NOT TO SOAR

Young Woman's Parents Forbid Her Proposed Balloon Trip.

Fay King, whose intention to make

a balloon ascension with Tiny Broadwick was announced is not going to soar. Several important reasons have developed which make such a feat on the part of the young woman impossible. In the first place the advance story spoiled it all. It called the attention of the young artist's parents to the feat contemplated by their daughter, and both father and mother emphatically set their parental feet down and announced that no such action would be permitted. Miss Fay is an only daughter. Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.
