

AIDE SAYS WILEY JUST APPEARED

Bigelow Declares Hiring of Rusby Followed Secretary's Precedent.

REMSEN BOARD IS CITED

Committee Investigating Department of Agriculture Expects to Make Report Before Congress Adjourns.

WASHINGTON, Aug. 14.—The committee investigating affairs in the Department of Agriculture and the facts surrounding the threatened resignation and removal of Dr. Harvey W. Wiley, chief of the Bureau of Chemistry, expects to finish its investigation before the adjournment of Congress, and, if possible, to make a report at this session. Dr. Wiley was ready to take the witness stand today, but was not called. Dr. W. D. Bigelow, assistant of the Bureau of Chemistry, who also was slated for removal in the case involving the agreement with Dr. H. H. Rusby, of New York, completed his testimony today and sought to show that the agreement with Dr. Rusby was modeled upon that previously made between Secretary of Agriculture Wilson and members of the Remsen reference board.

Restrictions placed on officials of the Bureau of Chemistry by Solicitor McCabe, on their talking with United States District Attorneys, has greatly hampered work in district laboratories where attorneys prosecuting pure-food cases often seek expert advice, according to Dr. Bigelow. Dr. Bigelow said McCabe had made it clear that bureau officials were not to talk with district attorneys without his consent.

Miss Carrie M. Davis, stenographer to Dr. Kahler, chief of the division of the bureau of chemistry, testified to the severe examination to which she had been subjected by Solicitor McCabe in the effort to discover whether Dr. Kahler had relations with drug-manufacturing companies.

She declared that McCabe and Secretary Wilson assured her that her position would not be jeopardized by what she told.

SINGLE TAX MAY BE BARRED

U'Ren Fears Oregon Statutes May Not Be Sufficient.

SALEM, Aug. 14.—(Special.)—After reading to the Attorney-General for information, W. E. U'Ren, of Oregon City, indicates that it is doubtful whether the law in Oregon is sufficient to allow the passage of the proposed initiative bill which will provide for the exemption of personal property and improvements in Clackamas County, or in other ways allow the establishment of single tax in that particular district.

He says in his letter to the Attorney-General that certain lawyers in New York have expressed the opinion that the Oregon law is not sufficient, while on the other hand he says that C. E. Wood, E. A. J. McCallister and himself believe that the law is sufficient.

The proposed initiative bill is founded on the so-called "county tax amendment." In conclusion this amendment provides that "the people of several counties are hereby empowered and authorized to regulate taxation and exemptions within the several counties, subject to any general law which may hereinafter be enacted."

This provision, "subject to any general law which may hereinafter be enacted," is considered by many people who have given the taxation question considerable thought as a nut which it will be difficult for the single-taxers to crack, insofar as the petitions which are now being circulated for a constitutional amendment to be voted upon by the people of the state at large, which, if carried, will repeal the county tax amendment.

The question arises as to whether a bill exempting personal property and improvements, should it pass, would be valid in event the constitutional amendment repealing the county tax amendment should also pass.

LACHLAN MACLEAY IS HERO

Hogquiam Realty Operator Saves Centralia Man From Drowning.

CENTRALIA, Wash., Aug. 14.—(Special.)—Raymond Armstrong, son of W. C. Armstrong, who is a well known business man of Centralia, had a miraculous escape from drowning at Sunset Beach early yesterday, being rescued by Lachlan Macleay, a local estate man of Hogquiam. Armstrong was in bathing with a friend and swim farther and farther out, during his companion to follow him, until he became exhausted and was unable to make any headway getting back. His companion was too weak to give him aid.

Macleay, with rare presence of mind, secured a long rope and tying one end around his body, made his way to the drowning man, both resolute and rescued being pulled in by willing hands on the shore. Armstrong was unconscious but soon regained his strength and is now no worse for his experience.

DYNAMITE BAIL REDUCED

Union Men Charged With Conspiring to Blow Up Building.

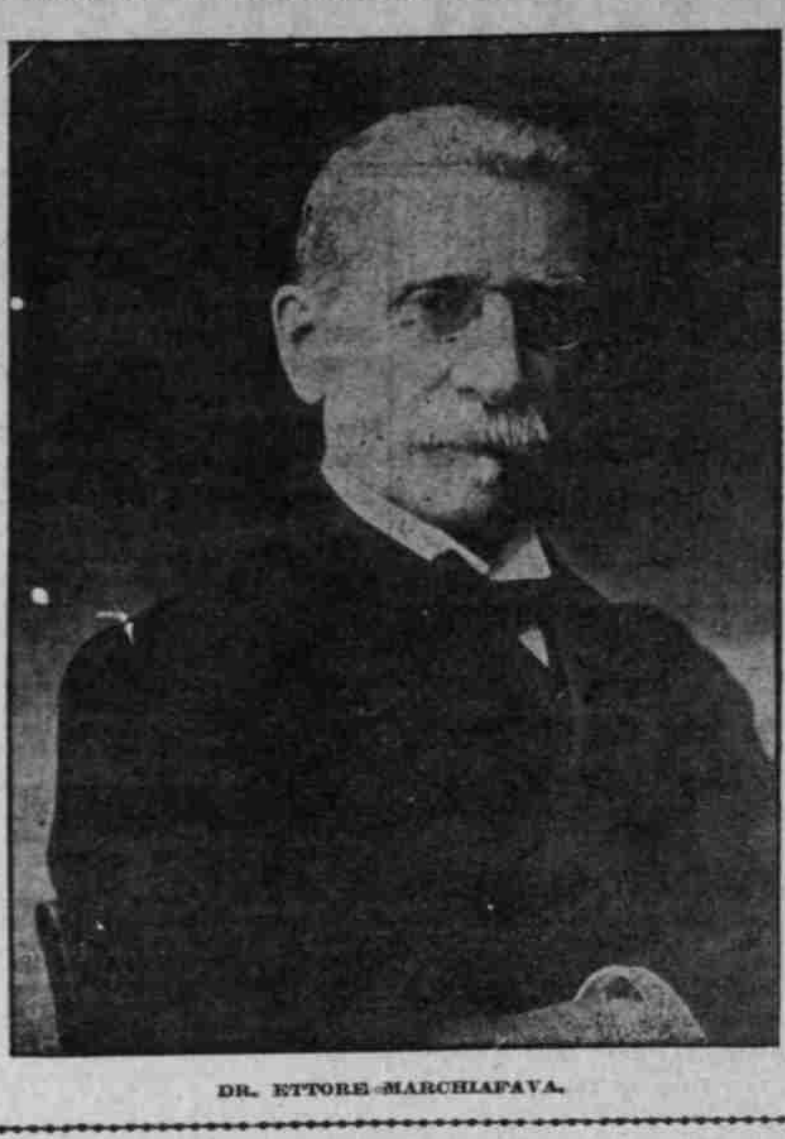

LOS ANGELES, Aug. 14.—After brief argument, the bail of Bert H. Conners, a union man charged with having conspired to dynamite the County Hall of Records, was reduced today from \$25,000 to \$10,000.

The bonds of his alleged confederates, A. B. Maple and E. Ira Redder, were cut from \$25,000 to \$10,000 each. It was announced by the defendants' attorneys that they thought bail for all three would be provided soon.

Socialist Secretary Out

MILWAUKEE, Aug. 14.—J. Mahlon Barnes, secretary of the National Socialist party, has resigned. It is said the resignation was the result of a party action following an attack on his personal character by members of the party organization. Congressman Victor L. Berger, however, accepting the resignation.

PHYSICIAN IN ATTENDANCE AT BEDSIDE OF SICK POPE.

DR. ETTORE MARCHISAVIA.

PONTIFF'S WORSE

Pope's Sleep Is Disturbed by Pains in Knee.

TEMPERATURE ALSO RISES

Condition Early This Morning Not So Promising as Last Night and Papal Secretary Defers Going to Summer Home.

ROME, Aug. 15, 12:30 A. M.—Pope Pius is not so well at this hour as he was early last (Monday) night. His sleep has been less tranquil and he twice awoke complaining of pains in the affected knee. His temperature also has slightly increased over that of the early hours of the night.

Many dispatches from all parts of the world expressed hope that the pope's quick recovery continue to arrive at the Vatican.

Although he has been urged to do so by the pope, Cardinal Merry del Val is still unwilling to leave the Vatican for his summer home until his holiness' recovery is complete.

The pontiff sat up again today, and Dr. Festuccia and Dr. Marchisavia suggested that he remain longer in his armchair, as they thought this position best for his recovery.

After seeing Cardinal Merry del Val, the papal secretary of state, and Monsignor Bissleti, majordomo of the Vatican, the pope asked for Cardinal de Lai, secretary of the Consistorial Congregation, with whom he wished to discuss several questions relating to the jubilee.

It is generally known that because of this year's celebration of the jubilee of Italian unity, a consistory would not be held before December at the earliest, while it is more likely to be held next year. At that time, although there are 21 vacancies in the cardinalate, it is believed that no American will receive a hat, the world's first cardinal to his opinion that that country should have more than one cardinal during the life of Cardinal Gibbons.

For this reason the reports from the United States that Archbishop Quigley, of Chicago, has been elevated to the cardinalate are not credited.

FORT STEVENS IS TAKEN

(Continued From Page 1.)

ing the more formidable defenses in San Francisco harbor.

Rear Attack Obvious One to Make.

In order to get vessels up the Columbia the fortifications would necessarily have to be silenced or captured and since the works could not be taken from the front at least without serious consequences to the most powerful navy in the world the rear attack would be promptly settled upon by the invading force.

Representing a single regiment of the invaders the Third Oregon Infantry supported by Battery A of the Oregon Artillery moved on the fort at daybreak from Columbia Beach, seven miles south. Colonel T. N. Dunbar, of Portland, commanding the whole force, planned his campaign quickly and effectively. He sent one battalion and a section of artillery in command of Major W. W. Wilson up the coast line to make a feint while the main force, with Major John L. May commanding the advance hit the fort from the rear.

Major Wilson managed to move out shortly after daybreak they found early evidence of the alertness and activity of the fort's defenders, commanded by Colonel George O. Toran, of Eugene.

The first bridge encountered, less than four miles from camp were labeled destroyed by Colonel Toran's patrols, the military umpire, officers of the regular army, ordered a delay of 30 minutes in the advance as having been destroyed by the fourth through destruction of small bridges.

After the opposing troops came into general contact and fired black ammunition sufficient to develop the strength of their fire and position, recall was sounded and the tactical status of the

maneuver deciphered. It was found that Colonel Dunbar had eight companies deployed in line of battle at the town of Hammond, immediately at the rear of the fort. Opposed to the force were but three companies of the Fourth Regiment and one company of regulars. The balance of the defending force had been drawn by Major Wilson's feint along the coast line.

Battery Silences Big Guns. Three hundred and fifty yards to the right rear of the eight attacking companies was Battery A, less one section. The battery, commanded by Captain H. H. Welch, of Portland, had a strong position 1500 yards from the fort's great batteries and with an excellent knoll at hand for observation and fire control. While the field rifles could not have damaged the coast works yet, the directing sharpshooters were such as to make it impossible for the coast gunners to serve their guns.

At the conference of empires, led by Lieutenant-Colonel Foote, commandant at Fort Stevens, and Major G. T. Dentler, Twenty-third United States Infantry, it was decided that the dispositions of the attacking force were such as to make access to the fort readily possible. Two companies might have been withdrawn from the conflict at Hammond and rushed into the earthen fort.

With Fort Stevens in its possession the attacking force could readily silence Fort Canby and Fort Columbia and hold command of the mouth of the Columbia River.

Field Stations Aid Injured.

Conditions of actual combat were followed, advance guards, patrols, mounted scouts and signal apparatus being brought into use. Field dressing stations were established as in warfare for care of wounded and one of these stations was of great value when Privates Wilson and Wheeler were injured. The men were treated in the field by Captain W. E. Stewart, assistant surgeon of the Third Regiment who improvised splints for Wilson's broken legs out of pine twigs.

Captain Alexander Kerr, Regimental Commissary, had a narrow escape from death in a hidden bed of quicksand while reconnoitering for an artillery position along a small marsh.

His mount plunged unexpectedly to the shoulders in the treacherous quicksand and rolled over, Captain Kerr, clinging to his horse, was dashed to death and escaped miraculously, according to a statement made by the Governor, who returned to Salem this morning.

While on top of a precipitous bluff, over 150 feet high, Mr. Hill stepped on a small loose rock, which rolled from under his feet and he started sliding toward the precipice. As it was he was caught on a small ledge when he started to fall, or he would have dropped to the railroad tracks 150 feet below.

The party included, besides the Governor and Mr. Hill, George F. Rodgers, of Salem, and C. Pratt, of Mount Hood, members of the Portland-Salem Capital Highway Commission; Frederick V. Holman, of Portland; Dr. J. F. Ready, of Medford; Frederick Nau, of Seattle, and St. C. Conner and Henry L. Bowley, Mr. Hill's good road experts.

The party examined the road being constructed by Hill near Maryhill as well as the state-aid road near Lyle.

SALEM, Or., Aug. 14.—(Special.)—"Good Roads" Sam Hill, while in company with Governor West of Oregon and a party of good roads enthusiasts, examining the state road near Lyle last Saturday, was nearly dashed to death and escaped miraculously, according to a statement made by the Governor, who returned to Salem this morning.

While on top of a precipitous bluff, over 150 feet high, Mr. Hill stepped on a small loose rock, which rolled from under his feet and he started sliding toward the precipice. As it was he was caught on a small ledge when he started to fall, or he would have dropped to the railroad tracks 150 feet below.

Holman, of Portland; Dr. J. F. Ready, of Medford; Frederick Nau, of Seattle, and St. C. Conner and Henry L. Bowley, Mr. Hill's good road experts.

ASTORIA MAY SUE RAILWAY

City Will Pay Woman \$5000 Then Seek Action Against Road.

ASTORIA, Or., Aug. 14.—(Special.)—There is a probability now that the City of Astoria will not take an appeal in the case of Annie Anderson against the city, but will pay the judgment of \$5000 which was awarded the plaintiff and will then sue the railroad company to recover the amount involved. At least such a step will be recommended by the attorneys for the defense, and the matter will be submitted to the Council at its next session.

This action was brought to recover damages for personal injuries sustained by the plaintiff during the regatta of 1903 by falling from the apron leading down from the Astoria & Columbia River Railroad at the foot of the Eleventh street and at the trial, which was held in the Federal Court at Portland, the jury awarded a verdict for the plaintiff in the sum of \$5000.

TURN ON JUDGE IS CALLED

Washington Undertakers Want Probe Made of "Alleged Trust."

SPOKANE, Aug. 14.—Branding as unjustifiable and slanderous an allegation made from his bench by Judge Wilson R. Gay, of the King County Superior Court, that Washington undertakers have combined to impose a tax on death, the Washington State Funeral Directors' Association today challenged the jurist to prove his claim.

In an official letter, Alexander Turner, president of the association, wrote Judge Gay, asking him to withdraw the charge.

The association, which has 100 members, is a non-profit organization, and its members are undertakers and funeral directors.

The association, which has 100 members, is a non-profit organization, and its members are undertakers and funeral directors.

GERMAN'S REPLY TREATS SEN

Document Understood to Be Distinctly Favorable to Proposition.

SENATE MAY CAUSE HALT

Unless Provisions of Arbitration Agreements Are Changed, Peace With Kaiser's Government Seems to Be Sure.

WASHINGTON, Aug. 14.—The reply of Germany to the proposition for a general arbitration treaty with the United States was presented to the State Department today by Count von Bernstorff, the German Ambassador. It is understood to be distinctly favorable to the principles laid down by Secretary Knox and to presage the negotiation of a treaty with Germany similar to the pending convention with Great Britain and France, provided the United States Senate does not drastically amend these agreements.

All the previous efforts to negotiate an arbitration treaty with Germany have failed because of the necessity to refer the question of arbitration to the Senate in each case in controversy. It was said that a treaty would bind Germany absolutely to arbitrate, while the United States was bound only on condition of the Senate's approval.

New Clause Suggested.

It is understood that Germany's objection to this score will be met with a clause that disputes shall be arbitrated under the special agreements in each case, and the special agreement to the Senate in each case in controversy. It was said that a treaty would bind Germany absolutely to arbitrate, while the United States was bound only on condition of the Senate's approval.

Taft Will Not Press Senate.

President Taft has about decided not to press the Senate to ratify the proposed treaties at the special session of Congress. After his return from Beverly today, the President learned that an attempt to have the Senate act favorably on the treaties at this time might result in long debate and finally they might be agreed to in modified form.

He was informed that many Senators had taken up the case of the proposed treaties at the special session of Congress. He was informed that many Senators had taken up the case of the proposed treaties at the special session of Congress.

SAND HILL GRAZES FAL

GOOD ROADS ENTHUSIAST IN DANGER ON HILL.

Rock Gives Under Him and Small Ledge Prevents 150-Foot Drop. Governor and Party Inspect.

SALEM, Or., Aug. 14.—(Special.)—"Good Roads" Sam Hill, while in company with Governor West of Oregon and a party of good roads enthusiasts, examining the state road near Lyle last Saturday, was nearly dashed to death and escaped miraculously, according to a statement made by the Governor, who returned to Salem this morning.

While on top of a precipitous bluff, over 150 feet high, Mr. Hill stepped on a small loose rock, which rolled from under his feet and he started sliding toward the precipice. As it was he was caught on a small ledge when he started to fall, or he would have dropped to the railroad tracks 150 feet below.

TRAFFIC EAST IS HEAVY

Rates Offered by Northwestern Line Draw Travel.

A heavy tide of tourist travel has strated from Portland to Eastern points and the recent announcement of special round-trip rates by the "Northwestern" Line has caused many travelers to book their trips through that office.

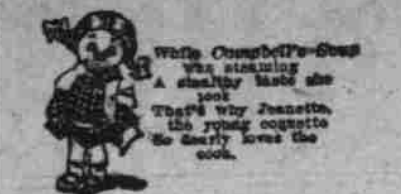

If you are contemplating a trip East would suggest you call or write R. V. Holden, general agent, 103 Third street, Portland, to obtain full particulars regarding rates, routes and dates of sale.

No. 3. (August 15)

Better Gordons they made longer, they're last hats to ought than other.

This is No. 3 of a series of six transposed Gordon Hat advertisements appearing from August 1st to September 5th. A Gordon Hat free to all who solve the six correctly. Forward answers to your dealer, or to R. V. Holden, 103 Third St., Portland, Me. See announcement in this paper of July 28th.

Portland Printing House Co. S. L. Wright, Pres. and Gen. Manager. Book, Catalog and Commercial PRINTING. Binding and Blank Book Making. Special Mail Order Service. Portland, Oregon.

We make it ourselves

When we tell you how good our Tomato Soup is we know. We make it ourselves. And we are glad to call it by our own name.

Campbell's TOMATO SOUP

We grow the tomatoes and many of the other ingredients on our own farms. We put them up in our own factory by our own exclusive methods. And we are responsible for it.

Try it once. If you ever tasted finer soup ask the grocer for your money back.

21 kinds 10c a can

Just add hot water, bring to a boil, and serve.

JOSEPH CAMPBELL COMPANY Camden N. J.

Look for the red-and-white label

bull, of Spokane, secretary of the Association, demands that the judge call a special grand jury to investigate undertaking methods. Turnbull agrees to deposit a sufficient sum to cover the expense of the probe if Judge Gay will do likewise, the loser to pay the cost. The letter charges Judge Gay with being "the only Probate Judge in Washington who arrogates to himself the right to fulfill duties of administrator, executor and Probate Judge of estates."

The association denies Judge Gay's statement that it had undertaken to bring a certain class for \$10 and supply the same merchandise and services for \$150 to \$400 if there is an estate.

FEDERAL ROAD PROPOSED

Alaskan Estimates Asked in Resolution by Jones of Washington.

OREGONIAN NEWS BUREAU, Washington, Aug. 14.—Calling the bluff of the Pinchot conservationists, Senator Jones today introduced a joint resolution authorizing the President to cause a survey to be made to ascertain the most practicable and feasible route for a railroad in Alaska from the coal fields to Controller Bay.

This resolution calls for a survey for a railroad route from a point on Commander Bay to the Mantoloking and Kaituma coal fields and the President is to submit to Congress an estimate of the cost, as well as recommendations for construction and operation by the United States Government.

The resolution provides an appropriation of \$500,000 for carrying out its provisions.

AUTO PLUNGES 400 FEET

Glenwood, Wash., Man Jumps as Car Drops Over Mountain.

WHITE SALMON, Wash., Aug. 14.—(Special.)—While undertaking to drive his auto over the Kitchikan grade between Glenwood and Goldendale, one of the most dangerous mountain roads in the country, Al Harding, of Glenwood, lost control of his machine and it rolled down the mountainside 400 feet and smashed. Harding jumped on the down side and rolled and slipped 150 feet, finally landing in some boulders. He was unconscious for five hours and both shoulders broken.

A few days ago the auto of J. Ackley slipped away from him and went tumbling down the grade, but at a lower elevation.

The party included, besides the Governor and Mr. Hill, George F. Rodgers, of Salem, and C. Pratt, of Mount Hood, members of the Portland-Salem Capital Highway Commission; Frederick V. Holman, of Portland; Dr. J. F. Ready, of Medford; Frederick Nau, of Seattle, and St. C. Conner and Henry L. Bowley, Mr. Hill's good road experts.

The party examined the road being constructed by Hill near Maryhill as well as the state-aid road near Lyle.

MAKING NEW MAN OF DRINK VICTIM

"Life to Me Has Taken On New Brightness"

Happy Tribute of Appreciation From One Who Took Neal Treatment at Neal Institute

"You certainly have made a new man of me. I never saw a more wonderful change in an adult. He is no more like the man we brought to you than a pumpkin is like a watermelon. Believe me, I shall take the greatest pleasure in sending to your Institute every derelict I can influence."

It is letters like this which are sunbeams of appreciation that brighten every day of the man who has been treated at the Neal Institute. The man to whom reference is made in the message cited was a victim of the drink habit who was pretty far gone, and singularly enough the letter sent by the friend who made it possible for him to be saved from drink was followed by a tribute from the man himself. It was a splendid letter, written in a vein of sincere thankfulness.

It is now over three months since I have taken a drink," he wrote, "and I can honestly say that I have no more thought or desire for liquor. I often think of the boys out in the hall listening to ragtime and other music and wonder how they are progressing. Had we a little book printed giving all experiences I am sure it would be funny as well as pathetic. Life has taken on a newer and brighter aspect for me, and I am doing well in my vocation. Trusting that all can see it as I and make use of the new lease of life and prosperity that the Neal can and does furnish them, believe me, always gratefully yours."

Although the rule of no publicity is one that marks the conduct of Neal Institutes all over the country, this man redeemed it so happy that he added: "You can use my name any time you please and wherever you

please if it will help save some poor fellow who is as firmly in the grip of drink as I was—to take the Neal Treatment and become a master of self instead of a slave of appetite."

The Neal Treatment requires but three days' stay at the Institute and at the end of this brief period one can return to home and office fully restored, with all the old appetite for liquor destroyed, nerves in good trim, appetite excellent, eyes bright and brain active.

The Neal Treatment is ethical—a harmless vegetable remedy, taken internally, with positively no hypodermic injections. Those who have investigated the results of the Treatment are most enthusiastic in endorsing the work, which has restored happiness to so many homes, saved business men from threatened ruin and enabled excessive drinkers to get back into the confidence of employers, who began to look upon them as sure passengers on the Down and Out Special.

For further information and free booklet, write, call or phone the Neal Institute, 354 Hall street. Phone Marshall 2400, Portland, Or.

North Coast Limited

EXCLUSIVELY FIRST-CLASS

Electric-lighted, with barber, bath, clothes-pressing service, library and those famous Northern Pacific Dining Cars. Only train in the Northwest that does not carry tourist cars or coaches.

Daily to Minneapolis and St. Paul—immediate connections for points beyond.

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood—such as dropsy, wasting spells, nervous debility or the many scrofulous conditions, ulcers, "fever-sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. Its a bitter tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of success behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of wrapping and mailing only. Send 31 one-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N. Y.
