

AVIATOR DIES IN FLAMES OF FLYER

Plane of Machine Breaks When Bird Man Sweeps High Over Spectators.

BRIDE WITNESSES DEATH

Engine Pins Victim to Earth and Blazing Car Halts Rescue. Charred Body Is Taken From Ashes of Fallen Aeroplane.

HUELVA, Spain, Sept. 4.—M. LeRastier, a French aviator, while flying here today, fell 250 feet and was killed. The motor exploded, setting fire to the aeroplane. The aviator was incinerated.

After circling out over the ocean the aviator returned and wheeled in front of the gayly bedecked stands when one wing of his machine was seen to snap and the car turned over and over as it was hurled to the earth. The engine of the machine pinned Le Rastier down and the flames charred his body before rescuers could approach the wreck.

For a half an hour the birdman had thrilled the spectators by daring stunts and "towers." Three weeks ago he married a daughter of one of the wealthy merchants of Huelva. His bride saw the accident and was borne from the field in a critical condition.

LABOR MAKES PLEA

10,000 Union Men Carry Mc-Namara Banners.

70 LOCALS REPRESENTED

Notable Feature in Seattle Is a Display of Banners Asking for Justice in Times Dynamiting Case at Los Angeles.

SEATTLE, Wash., Sept. 4.—(Special.)

Ten thousand union workmen participated this morning in the largest Labor day parade in the history of Seattle. The carpenters with 1000 men and the teamsters with 800 carried off the honors in point of numbers.

Perhaps the most notable feature of the procession of the 70 unions represented in the parade was the large number of banners dealing with the McNamara-McManigal case. "All we ask for the McNamaras is justice; will you help us get it?" read one. Others, "Help prosecute the man-stealers" and "If everybody wants the McNamaras to have justice, help them get it."

Immediately after the close of the parade the crowds began flocking to the lake boats which carried them to the picnic grounds at Fortuna Park. There a programme of sports and exercises filled up the day. Howard L. Hughes, editor of the Spokane Union Record, delivered an address.

BARBECUE POSTPONED WEEK

Dance Is Only Feature of Programme Not Marred by Rain.

The ball at Christensen's Hall last night was the only feature of the Labor day celebration which was carried out according to programme. A big barbecue on Council Crest, with fireworks in the evening had been planned by the picnic committee, of whom W. L. Trullinger, of the Central Labor Council, is chairman. The pit for roasting the ox had been dug, and a canvas was stretched over it. The ox and other viands were on hand. But as the downpour continued it was decided about 11 o'clock to give up the picnic.

LABOR HONORS M'NAMARAS

Hats of Los Angeles Laboring Men Doctored Near Prison.

LOS ANGELES, Sept. 4.—With bands playing the "Marseillaise" at frequent intervals, nearly 15,000 union men and women marched in the Labor day parade here today. Under orders from Mayor Alexander, the original route was changed, so that the marchers did not pass the County Jail, where the McNamara brothers, the alleged dynamiters, are confined, pending their trial next month on charges of dynamiting and murder. But when the marchers reached the intersection of Temple and Main streets, the nearest point to the prison, they waved their hats and marched bareheaded past the corner.

ENEMY OF MORE CHINESE AID

Close to Four-Score Students Arrive Here to Enter American Schools.

INTELLECTUAL PICK COME

Among Those Who Reach San Francisco on Steamer Persia Are 3 Girls, First Feminine Folk Under \$11,000,000 Scheme.

SAN FRANCISCO, Sept. 4.—(Special.)—Constituting almost the entire first-class passenger list of the steamer Persia, which arrived here today from Hongkong, were 73 young Chinese students, who come here for the first time to enter various colleges in the East and Middle West.

Their expenses are paid by the Chinese Government out of the Boxer indemnity fund of \$11,000,000, which was returned to China by the United States. Three days will be spent as guests of San Francisco before the party proceeds Eastward. At the dock representatives of the societies around the bay greeted the travelers. Members of the Chinese Consulate were also at the dock. Headquarters were established at the Orient Hotel.

The party represents the intellectual pick of all the students in the Chinese Empire. Each province is allowed a certain number of students to represent it, and the candidates are chosen by an exhaustive examination conducted by the government at Peking. Successful candidates are allowed \$900 a year and on the completion of their course in this country are expected to return to China to go into the government service.

A large number of them will take engineering courses and other technical work. Some will stop off at Golden, Colo., and will take an extended course in the Colorado School of Mines. Others will proceed to Iowa and Illinois, where they will study agriculture, others going further East where they will take degrees in various branches of liberal education. Some of them will swell the already comparatively large number of Chinese at Yale, Harvard, Cornell, the University of Chicago, Michigan and Wisconsin.

Among the students were three Chinese girls, the first feminine students to come to this country under the Boxer indemnity.

The American educational propagandists assumed such an important status that the Chinese government has seen fit to send to this country a commissioner in the person of Chung Wee, who will be attached to the Chinese Legation at Washington as Commissioner of Education, whose duties will be to look after Chinese students in this country.

HOBBSON ENTERS FIGHT

MAINE'S CAMPAIGN GATHERS SPEAKERS FROM AFAR.

ALABAMA RUSHES TO AID OF PROHIBITIONISTS—REFERENDUM ON PRIMARY STATUTE LAW UP.

PORTLAND, Me., Sept. 4.—The forces for and against constitutional prohibition in Maine entered on the closing week of the campaign today. Activity on both sides will be at high-water mark for the remainder of the struggle. The prohibitionists will continue their meetings with their corps of speakers from outside the state augmented by former Governor Glenn, of North Carolina, and Chairman Richmond P. Hobson, of Alabama.

The repeal movement workers will adhere to their original plan of the distribution of a large amount of literature rather than public meetings. The amendment to the constitution on which the people will vote in a week from Monday prohibits the Legislature from passing any law allowing the sale of liquor in the state for other than medicinal or mechanical purposes. There is also an old statutory law which prohibits the sale of liquor for any purpose other than those already allowed, and in event the principal constitutional amendment should be repealed by the people it would be necessary for the Legislature to repeal that Prohibition statute and enact a new liquor law.

The ballots for this election will contain two other constitutional questions and one referendum on a direct primary statute law. The constitutional amendments proposed are one permitting Portland to increase the debt limit to that allowed to other cities, and one declaring Alaska perpetually the capital of the state.

CHANGING HER FACE

(From the Household Friend)

Any woman not satisfied with her complexion can remove it and have a new one. The thin veil of stifling half-dressed cuticle is an encumbrance and should be removed to give the fresh, vigorous young skin underneath a chance to show itself and to breathe. There is a simple old-fashioned home remedy which will always do the work. Get an ounce of pure mercuric wax from your druggist and apply it at night like cold cream, washing it off in the morning. The mercuric oxide will gently absorb all the lifeless skin and leave a healthy and beautiful complexion, as fresh as a child's. Naturally it takes with it all such facial blemishes as freckles, tan, moth patches, sallowness, liver spots, pimples, etc. It is pleasant to use, effective and economical. The face so treated immediately looks years younger.—Adv.
