MARKET IS AGAIN STRONG

Cables Report Firm Conditions in Europe With the Germans Try-

ing to Buy Hops in England.

There was inquiry on the market yesterday or new hops in large lots at 34 and 35 ata, but no sellers. No business of any kind was reported from the country.

In the latter part of last week a number of small crops, aggregating 60,000 pounds, were secured at prices around 30 cents, but the purchase on Saturday by T. A. Livesley & Co. of 1000 bales at 35 cents completely a stop to such low-priced selling and firmly established the market at the 35-cent

ant strength seems to be due in crop will not come down as heavily as was expected earlier in the season. By the close of this week a sufficient number of yards will have been picked to enable a fairly close estimate of the yield to be

contracts have been filed in Polk County as follows: J. W. Myer to F. Rosen wald & Co., entire crop at 35 cents per pound; John Simkins to same, 10,000 pounds, 85 cents; M. D. Bevens to T. Rosenwald &

o., 10,000 pounds at 40 cents. Cables received yesterday were encouraging to sellers. One from Manger & Henley, of London, was as follows:
"Growers holding back, expecting higher

prices. Market very strong. Large export demand and prices steady."

A Nuremburg cable quoted the German market firm and higher.

The market position, from an English standpoint, is stated by W. H. & H. Le May, of London, in their annual circular, With regard to the quantity, we do not

think it is possible to grow as many as we did last year, but presuming that the total crop should reach \$00,000 cwt., it is barely half our annual consumption, and the question that will exercise the minds of all users of hope is Where is the other half to come from? Germany has suffered very intensely from the heat and drought, and will have no hops for export; in fact, she s buying largely from other countries. America, with its greatly increased con-America, with its greatly increased con-sumption of beer, which now exceeds that of any other country, will have very few hops to spare for export. Of course, those hops that have already been contracted for will come irrespective of any home re-quirements, and these would be the only tops, as far as we can see at the moment, that will be imported into England. This being the case, the prospect for the English grower is better than he has had for many years, and prices are likely to be such as will, to some extent, recoup him for the losses he made during the many low priced years he has had to contend

M. Gutermann Sohne, of Saaz, Behemia, in their 42d annual report on the world's hop harvest, estimate the output as fol-

TRADE IN PEACHES STILL ACTIVE

Grapes and Cantaloupes Are Also Ready Sellers.

Peach receipts were large yesterday, but the demand was active and the market held up in good shape. Peaches ranged in price for good to fancy from 50 to 85 cents, with the average about 60 cents. Liberal receipts are expected all this week.

The grape trade was lively, buying being centered on Tokays, of which two cars arrived. They sold from \$5 cents to \$1.26. Other kinds ranged in price from 75 cents

were steady sellers at 75 cents to \$1.28 s erate for good stock. Melons were slow at 75 cents to \$1.25 a hundred. Two cars of lemons arrived. The Cali-

fornia lemon market was firm. A car of Valencia oranges is due today. Two cars of sweet potatoes are also due today. Receipts of potatoes from the country were small, as the rain has prevented dig-

ging. The market, consequently, was firm PORTLAND LOWEST MARKET ON COAST

Prices on Eggs Are Seasonably Higher at Other Points. Egg markets everywhere seem to be advancing, except in Portland, where for some reason midsummer prices still prevail.
The top quotation on Front street is 17 cents. In Scattle the best eggs are job-bing at 36 cents, and this was also the quotation at San Francisco, where there was a 2-cent advance on Petalumas yesterday. The Chicago market on prime firsts has advanced 2 cents in about a week, standing yesterday at 19% cents.

Poultry receipts were fair for Monday, and with a steady demand prices were maintained. Veal receipts were liberal and raise draward.

FIVE-CENT ADVANCE IN SUGAR PRICES Granulated and Fruit and Berry Are Now

Quoted at \$7.55.

Five cents more was added to the jobbing price of sugar yesterday, making the
quotation on standard granulated and fruit
and berry \$7.55.

The 200 cents

The 20-cent advance announced late Fri day afternoon by the Western Sugar Reby the California & Hawaiian Sugar Re-fining Company, but the latter institution yesterday came through with a 25-cent rise. The local jobbers on Saturday had adjusted their prices to the Western Company's list, so yesterday they followed the California & Hawalian advance. This made the net advance in their market 5 cents.

Opening Prices on 1911 Flour. Opening prices on 1911 patent flour were announced yesterday. The new price is \$4.50 a barrel, a cut of 40 cents as com-pared with the price of old flour.

Changes in Provisions. All sizes of hams were reduced one-half cent yesterday. Exports were raised one cent and lard prices were quoted one cent higher.

NEW YORK. Sept. 11.—After opening on a considerably higher level, stock fell to the lowest point of the year and then recovered. Net changes were slight in most cases and the final rally was so spirited that many of the active issues closed with small gains, running up to a point in Reading and Southern Pactific.

Opening gains, ranging from 1 to 3 points,

gains, running up to a point in Reading and Southern Pacific.

Opening gains, ranging from 1 to 3 points, were due to the earlier rise of prices in the London market. Traders took 'advantage of the rise to sell stocks. The selling had the appearance of being a renewal of liquidation such as was the chief depressing factor for several weeks.

London, following the advances here, bought moderately at the opening, but as the market broke, faced about and sold. There also was direct selling by Berlin, chiefly of Atchison, Union Pacific and Canadian Pacific. Total sales for foreign account were estimated at more than 30,000 shares.

News included dispatches from the West indicating brighter prospects for peace on the Hillinois Central. The pressure against United States Steel was coincident with respects that operations at the corporation's mills are now on a smaller scale than at any time during August.

The cut in dividends of Texas Oil from 10 to 1 per cent occasioned up surprise in speculative circles. The prevailing quotation for the stock long discounted the change in rates.
