

PORTLAND DAY AT FAIR PROMISING

Great Preparations Made by Managers to Give Biggest Reception Ever.

RACE PROGRAMME FINE

Main Feature of Horse Events Will Be 2:12 Trot, Lewis and Clark \$5000 Purse—Long List of Best Animals Entered.

BENTON COUNTY FOLK CELEBRATE

CORVALLIS, Or., Sept. 13.—(Special.)—Because Benton county was awarded the blue ribbon yesterday, the Mayor of Corvallis and Philomath have declared tomorrow to be a legal holiday in these municipalities. Business generally will be suspended and a big crowd will visit the fair. Every business house in Corvallis will send at least one representative.

SALEM, Or., Sept. 13.—(Special.)

Tomorrow is Portland day at the Oregon State Fair and great preparations are being made here by the fair authorities and the citizens of Salem in honor of the visiting hosts from the metropolis one of the biggest receptions that has ever been accorded to people from that city in the history of the institution.

Arrival of the excursion trains over the Oregon Electric and Southern Pacific is billed for 10 o'clock and from then on until late at night the fair will be turned over to the excursionists and everything, within the gates as well as without, will be freely at their disposal.

Immediately upon the arrival of the visitors the Oregon Agricultural College regimental band will furnish music of its concerts, which has been proving so popular here to visitors at the fair, and the visitors will be allowed to distribute about the grounds as they please. The big Parker shows will open their doors shortly after the arrival of the Portland people and the 18 attractions there will prove a good time-killer.

Guest Race Programme Planned.

At noon a meeting of the Northwest Angora Association will be held in the Administration building. At 1:30 o'clock the biggest race programme of the week will be offered on a track which promises to be in excellent condition by that time with the weather remaining as it is.

The main feature of this event will be the 2:12 trot, Lewis and Clark \$5000 purse. With a long list of entries of the best horses on the Pacific Coast this feature promises to be well up to any races which have ever been seen here. As an additional feature, for the first time ever seen at the State Fair, there will be a one and one-half mile handicap steeplechase race and a number of over-night entry running races. The Penello band, with grand opera singers, will furnish music between the heats. This band has been charming the crowds here and is a distinct feature of the fair. A grand concert will be given in the evening in the music hall.

Salem day was by far the most successful of the fair and the grounds were jammed practically all day. Aside from the races there were no extra features during the day. The fact that rain has interfered with large crowds on previous days would not have been a disadvantage to the attendance.

The visitors to the fair are taking kindly to the Parker shows. The organization stands for a development of what is best in this department of outdoor entertainment, and is in striking contrast with the old model of what was generally the accepted idea of what travelling organizations of this kind should produce.

At night the "Joy Streak" presents a most attractive appearance and the thousands of colored lights decorating the silver and hand-carved gold and silver entrances, add to the festive scene. There are no "fakes," no "snake shows," no "wild men."

The shows at the State Fair this year are proving a revelation. Every feature of the organization has so far proved most exemplary. There is a trained wild animal circus, with a magnificent group of lions, leopards, panthers, bears and other beasts in a most daring exhibition of animal subjugation. Kemp's model city has attracted thousands of visitors and proved the most interesting mechanical exhibit ever seen on the fairgrounds. The exhibit has taken five years to complete and is little short of marvelous.

Laugh-Provoking Shows Many. There are several laugh-provoking shows, the most popular perhaps being the crazy house and the human roulette wheel, vying with the ever popular merry-go-round for popular favor. The attractions in front of the grandstand, also under the Parker management, are far superior to those offered in years past. Captain Strahl, the hero of the Windsor Hotel fire at Buffalo and a man now wearing a Carnegie medal, gives an exhibition of daring seldom, if ever before, witnessed. He mounts a fire ladder 150 feet from the topmost round to the ground and dives head foremost into a net. Bertini offers another "thriller" by riding down a spiral tower in a unicycle. The up-side-down Zarelda, head and hand balancers; the Godlewski troupe of imperial Russian dancers, last season's feature at the New York Winter gardens; the Stainer Trio, a clever comedy acrobatic act; Hardy, the high-wire man and other entertaining acts; Furella and his great band augmented by several soloists completes a most interesting grandstand programme.

WHALE SEASON EXCELLENT

Aletak Bay Alive With Mammals, 8 Being Killed a Day.

SEATTLE, Wash., Sept. 13.—The tug Resolute, the first of the Seattle whaling vessels to return from the North Pacific, arrived from Alaska today, and reports the present season the most prosperous ever known. This year the whalers operated principally in Aletak Bay, Marmot Bay, Takutat Bay and off Cape Omasey, Port Armstrong and Kodiak Island, which includes territory that is practically virgin for the whalers.

Whales were found unusually plentiful in Aletak Bay, where the whalers sometimes killed as many as eight a day. Contracts for the construction of three fast steam whalers were let to a Seattle ship yard today. The new ships will be so speedy and well-equipped that a whale that spouts in sight of one of them cannot escape death. The new boats will go into commission during the winter and will operate in the waters of the North Pacific, off the coast of Washington, British Columbia and Alaska.

POPE HAS STEP OF YOUTH

Monsignor Kennedy Finds Pope Disposed to Joke About Illness.

ROME, Sept. 13.—Monsignor Kennedy, rector of the American College at Rome, was the first American prelate to be received by the Pope since his illness. He found his holiness bright and cheerful and really vigorous, considering his age.

The Pope walks about his rooms with an elastic step and good color and clear eyes. He showed no signs of fatigue and was inclined to joke about his present indisposition, the reports of which he insisted had been exaggerated.

LONG TROLLEY TRIP MADE

New York Policeman and Wife Go to St. Louis in Five Days.

ST. LOUIS, Sept. 13.—From New York to St. Louis by trolley in five days, traveling only in the day time, is the record made by Lieutenant William A. J. Koenig, of the New York police force, and his wife.

SNOW FLAKE, Man, Sept. 13.—Work on farm, and in town, was suspended today while men searched for Henry "Bill" Wilson of Hanna, N. D., who is alleged to have kept Miss Eleanor Flacius, a schoolteacher, and niece of Premier Roblin, prisoner for 30 hours in the forest.

Wilson was last seen at Pemina Bridge last night, and there is fear that he escaped over the international boundary.

When Miss Brice failed to appear at the Patterson home, where she boarded, Monday night it was thought she had gone to stay with friends, but when she did not appear Tuesday morning a search was started by Frank Patterson, to whom she is engaged to be married.

On entering the schoolhouse the party found evidences of the desperate struggle. There was blood in many places and fragments of torn clothing. An alarm immediately was raised. On a small bluff about 15 yards from the schoolhouse parts of the girl's clothing were found, as well as a whisky bottle.

The appearance of Miss Brice at the Ruffan farmhouse last night was dramatic. She was laboring under great excitement and appeared to be dazed. Her face was badly battered, where her assailant had repeatedly beaten her. At one time she declared he hit her several times over the head with a whisky bottle. Miss Brice said the ruffian had guarded her for 30 hours with a loaded rifle and that she had only been able to escape when he told her to go.

AUTOMOBILE DAY PLANNED

Prospects for Financial Success of Southwest Washington Show Are Brighter With Clearing Weather—Friday Will Be Big Day.

WHALE SEASON EXCELLENT

Aletak Bay Alive With Mammals, 8 Being Killed a Day.

SEATTLE, Wash., Sept. 13.—(Special.)—Despite cloudy weather today about 3000 people attended the Southwest Washington Fair and all were royally entertained, the exhibits which have already attracted a splendid reputation from all visitors entertained the crowd most pleasantly and this afternoon three running races attracted much interest.

Tomorrow will be automobile day and great crowds are expected from the adjoining counties. Prospects for the financial success of the fair are brighter tonight than at any time, owing to the change in the weather. Friday will likely see an immense crowd and tomorrow's doubtless will run into the thousands.

Yesterday was to have been Centralia and Chehalis day, and a holiday for the two cities, the Mayor of each city having so proclaimed it, but owing to the change in the weather Mayor Guerrier, of Centralia, at noon telephoned the fair commissioners that he had withdrawn his proclamation and Mayor Gungl, of Chehalis, did likewise. The event will be celebrated along with Tacoma day Friday.

Today was Portland and Southwest Washington Development Association day. F. M. Fretwell, of Seattle, has the programme for tomorrow in hand and has arranged several feature events. The exhibits at the fair are undoubtedly the best, both in quantity and quality, that have ever been presented in the history of the fair association, and the fact that the wet weather is keeping down what promised to be an exceptional attendance, is a source of regret to the fair commissioners.

LADY'S TAILORED SUIT MADE TO MEASURE FREE!

That's the offer—It's plain, simple, straight to the point.

There are two remarkable points in this offer which we have never offered before: One is that the LADIES' SUITS ARE MADE TO THE CUSTOMERS' MEASURE from the material selected. The other is that if you are skeptical—afraid of being stung—or don't know Acheson—or if you will get satisfaction when you place your orders. The goods are so excellent, the bargains so great, our confidence in our perfect-fitting system so strong that we do not feel it necessary to require a deposit of you when you order, for when you see the bargains you will want them. The offer is without a parallel and bespeaks and compels fair dealing on our part. You won't need to worry about or caution us to use good linings or trimmings, "make them well," etc.—we will have to do it right to suit you. This is the first offer you ever saw that did not say "Your money back if you are not satisfied." We don't need to say that—you pay nothing until you are suited. Now anyone wanting a gentleman's suit or a lady's suit, bear this sale in mind, and please tell your friends, or ask them if they know of it.

What You Can Do

You can register your name for an order, select the lady's suit—the gentleman's suit can be selected any time before November 15. Our system of making, fitting and delivering to you an elegant, complete-fitting lady's suit will be a revelation to you—there will be no tedious, tiresome, brain-racking fittings—and then more fittings—and then fitting on top of fittings and then headache and running back and forth. Our methods are as near perfection as can be made. And we know there is NOW no headache for the CUSTOMER or US in connection with making ladies' suits—and we give you the proof in black and white, when we say NO DEPOSIT IS REQUIRED, and we are perfectly willing to give any honest, reliable person the full benefit of this generous offer. Husbands, fathers, brothers, cousins, uncles, sweethearts—ladies bring them in—they will have to have a suit this Fall—you can get one free.

Outside Town Clubs of Ten

To clubs of ten in outside towns, we will send a tailor and fitter to deliver the garments satisfactorily in their own town.

Notice and Advice

Our cutting and making and workroom facilities are large and can handle hundreds of orders. But our sales floor is small, occupying, as it does, a very prominent corner—West Park and Morrison—and we would ask you to be patient should we not be able to wait on you promptly the first time you call. Appointments can be made for a certain hour and by phone or in person. When it is inconvenient for customers to come, when we want them for fitting, if agreeable, auto will be sent for them.
