Two Highwars to Oregon City, as parts of the Pacific Highway, will probably be built, one on the West Side through Oswero and the other on the East Side through Milwaukle and Jennings Lodge along the river. J. F. Kertchem, who have been active in the movement, is confident that this plan will be adopted. The route on the East Side connects with the Milwankle road and comes into the dity over that street for some distance. Milwaukle street will be paved to the city limits next year. It is also expected that East Seventeenth street will be opened, and that Grand avenue will be extended from its present end at Woodward avenue to a connection with Milwaukle street near Holgate. These streets will be the Portland end of the East Side road to Oregon City. Along the Fast Side road the sentiment is in favor of improvement of the road as soon as funds can be obtained to carry on the work.

KENILWORTH DISTRICT ISOLATED—Residents of Kenilworth may have to resort to flying amachines to get wood and other supplies from the outside. The contractors who built the Holgate sewer left Holgate and East Twenty-sixth streets in such a condition that a loaded wagon cannot get through to Kenilworth. Both these streets were graveled and in good condition before the sewer contractors laid the sewer. Now teams are stuck in the mud every day. Residents cannot get wood and coal hauled to Kenilworth, and a fuel famine is threatened those who have not laid in supplies. It is a common occurrence in Kenilworth to see a wagon mired and horses almost out of sight in a sewer trench. A streetca last week pulied out a horse that had fallen into a sewer trench.
