However, it was veteed by President Taft. The net result of the special session was the passage of the reciprocity measure, which in yesterday's election was repudiated by the Canadian electors. As a matter of fact, the special session was productive of absolutely nothing that directly benefited the people of the United States."

Discussing National politics, Senator Chamberlain said that sentiment among the Democrats of the East unistakably favored Woodrow Wilson, Governor of New Jersey, as the party's nomines for President. The feeling among Republicans, he declared, was just as unanimous for the renomination.

just as unanimous for the renomination of President Taft. Senator Chamber-land says there is a strong disposi-tion among Democrats, who would have name Governor Marshall, of Indiana, for second place.

Stay Will Be Brief.

"My sojourn in Partiana necessarily must be abbreviated," said Senator Chamberlain. "It is necessary that I shall be in Chicago October 16. At that time a conference is to be held by a joint committee from the House and the Senate, including two civilians, constituting the Employers' Liability and Workmen's Compensation Commission. which I am a member from the Senate. He told in detail of the various methods used in purifying rubber, selection of the cotton that is used in the outer casing, the mixing of sulphur and other strengthening ingredients used, the hard tests given each tire before it is shipped and the minute inspection it undergoes before being placed on the market.

At the close he took occasion to remonstrate against the general neglect given minor injuries to tires. He declared that a little more care and a "stitch in time" would save many a disastrous blowout.
