FREE PILOTAGE IS PORT BOARD'S AIM

Attraction of Shipping Would Offset Financial Loss Is Commission's Belief.

PERMANENT RATE ADVISED

Authorization of New Dredge Calls for Opening of Bids November 9. Towage Reduction of Opposition Factor in Schedule.

Establishment of free pilotage on sailing vessels carrying outward lumber cargoes, as is done on wheat vessels in order to absorb the differential as compared with Puget Sound charges, and the giving of tramp steamers free guidance in and out of the river to offset the expense shouldered in going elsewhere for coal when loading full cargoes here, were suggestions made at an adjourned session of the Port of Portland Commission yesterday afternoon that will be given decisive consideration later.

Such a move would materially increase the deficit of the Port, but it is argued that the function of the Commission is to provide a towage and pilotage service on the lowest possible basis as a means of attracting shipping to the Columbia River. The elimination of pilotage charges would not mean the reduction of the force of pilots employed, but their salaries and expense would be borne by the Commission, absorbed as is the differential on wheat ships.

Steamer May Be Recalled.

It was proposed that the pilot schooner Joseph Pulitzer be recalled from her station if practicable, the tugs Wallula and Oneonta being used outside as much as possible and the expense of maintaining the schooner could be used on the steam vessels.

Another subject taken up was the question of cutting rates on towage at the mouth of the river. Commissioner Dodge pointed out that the Puget Sound Tugboat Company had not seen fit to send a representative before the board and make known on what sort of a plan it proposed to operate. The Commission knows nothing of its future moves, so when a cut in rates is authorized it will be with the idea of making the reduction permanent, so that shipowners who have contracted with the opposition this season at 5 per cent below the published tariff will have knowledge that the charges have been further reduced.

A summary statement was given each member of the board showing the expense and earnings of the pilotage service for the year ending June 30, 1911, the expense and salary of pilots being $11,556.52 and operating expenses of the pilot schooner were $12,935.27, a total of $25,485.79.

Captain Tells of Reduction.

On pilotage only it was set forth that from steam vessels $9970.37 was the revenue and $5487.81 from sailing vessels and the absorption was $5271.15, leaving $12,097.63, so the deficit on pilotage was $12,388.76. Other figures are to be compiled covering all revenue-producing channels.

Superintendent Campion, of the pilotage and towage service, told the Commission that in a conversation with Captain Lindquist, of the Russian bark Isabel Browne, which arrived in the harbor from Callao Saturday night in tow of the steamer Monarch, which is acting for the opposition, he had contracted for all harbor moves in addition to being towed to sea again and was to receive 5 per cent reduction on the bill.

Commissioner O'Reilly said that if it was contemplated to make a reduction in rates, he did not favor simply lowering them to meet the opposition if it was thought there might be another drop later, but to fix the new tariff permanently. On his motion the discussion was dropped pending further developments.

Third Dredge Ordered.

The Commission decided to build a third dredge, she to be a duplicate of the Columbia and in accordance with plans and specifications compiled by Consulting Engineer J. B. C. Lockwood. Bids were ordered advertised for to be opened November 9, the regular meeting for that month.

Commissioner Shaver brought up a complaint made by residents of Sauvies Island regarding material that had been dumped by the dredges in past seasons near Willow Bar, which had formed a shoal that made it difficult for river steamers to land for dairy and other supplies coming to Portland. It was also said that the shoal prevented towboats from keeping out of the ship channel, to the detriment of deepwater vessels being handled at that point. President Mears suggested that the obstruction be cut away and it was moved and carried that the Portland be sent there as soon as she can be spared on channel work.

Joseph Supple, conducting shipyards and a dock at the foot of East Morrison street, asked that the Port dredge a shoal south of the Morrison-street bridge that prevents deepwater vessels from being piloted from the main channel to his dock without proceeding a considerable distance up stream. Owing to the fact the dredges are busy and there is no convenient place on which to pump material, it was agreed to request the Pacific Bridge Company to use the dredge Titan there in securing 50,000 cubic yards of material that has been contracted for to be dumped on the Ladd property, on the East Side. The Titan is a dipper type and it is estimated that the removal of the material in that vicinity will afford relief.

At the instance of Commissioner O'Reilly it was ordered that in the future the amount of premiums paid insurance concerns for liability protection be diverted to a fund so the Commission can care for its liability claims. Those in charge of different departments are to familiarize themselves with the state liability act and place safeguards about all machinery and plants.

"OUR NAVY" MAN IS IN TOWN

Official Publication Will Devote Number to Oregon Militia.

For the next three weeks T. B. Brown, associate editor of "Our Navy," a monthly publication issued under the sanction of the Navy Department and which is owned and published by officers and chief petty officials of the United States Navy, will make Portland his headquarters in gathering data for a special issue on the Oregon Naval Militia, which will be published as the Christmas number.

Mr. Brown returned recently from the Orient, where he gathered material for feature stories that are to be run in the magazine, dealing with conditions of interest to the sea fighters. He has a store of yarns covering Navy subjects and there are many concerning the cruiser Boston, now here as a training ship, that will be unfolded for the edification of her crew. As the naval militia forces of the United States are closely allied with the regular service in point of interest and the prospect of being called on in time of need, "Our Navy" devotes considerable space to the exploits and growth of the citizen tars. It is the purpose in connection with the Oregon Naval Militia to assist as much as possible in making known its efficiency and prospects.

Marine Notes.

To load wheat for the United Kingdom under charter to Kerr, Gifford & C., the British steamer Strathness arrived in the river last evening.

M. H. Houser was yesterday reported to have chartered the British bark Arracan, which arrived at San Francisco September 5, from Hamburg. She had been offered here as late as Saturday and at a high rate. The vessel is 2222 tons net register and will load here for the United Kingdom.

Bringing 195 passengers and 2100 tons of cargo, the steamer Bear arrived at 4 o'clock yesterday afternoon from California ports. The steamer Beaver sailed south in the morning

with 440 passengers and 440 tons of freight. The Bear sails Saturday morning and will be the last vessel to get away on the Summer schedule, the Rose City sailing at 4 o'clock in the afternoon October 4.

W. P. Fritchard, vice-president of Frank Waterhouse & Co., spent yesterday in the city from Seattle in connection with the loading of the British steamer Orteric, some cargo intended for which has been curtailed and that withdrawn will be carried on the Norwegian steamer Ryuja. He left last night for the north. His brother is to have charge of the local office and is expected to reach here about October 10.

Having finished the cut between Fale's Light and Henrici's, the dredge Portland will shift today to Upper Martin's Bar, working on the Columbia City range.

Wheat laden for the United Kingdom the French bark Edouard Detaille shifted to the stream yesterday and will leave down tomorrow. She cleared for Queenstown or Falmouth for orders with 112,045 bushels valued at $95,238. The Norwegian tramp Hans B., which is working wheat, is expected to be finished tomorrow and will leave Thursday, drawing about 24 feet. The French bark Bonchamps was yesterday moved from the Linnton ballast dock to Irving and will begin working wheat there today.

Lumber laden for the West Coast the schooner William Nottingham is to leave down from Westport today. Her cargo is being dispatched by W. R. Grace & Co. The British steamer Oswestry will begin loading lumber at Inman-Poulsen's this morning under charter to the China Import & Export Lumber Company.

In general cargo from Coos Bay the steamer Breakwater entered yesterday at the Custom-House and cleared for the return, while the French bark Edouard Detaille cleared for Queenstown or Falmouth with wheat.

Later information received by Statter & Co. covering the increase in Oriental wheat and flour tariffs, shows that the old rate was restored to Manila, Shanghai and Hongkong, while to Japanese ports it it $2.50 a ton, instead of $3, the increase being 50 cents.

Superintendent Harrison, of the Lewis River Transportation Company, says that as yet no money has passed for the sale of that line to Harry Hembree, that no papers have been made out effecting the transfer and he has no assurances that it will be made. The price has been agreed on but the sum has not been proffered.

Another voyage is being made to Puget Sound from the Golden Gate by the popular steam schooner Klamath, making two consecutive trips to that territory, but she may return here on the next voyage.

2 SENT TO PRISON

White Slaver Must Serve 5 Years, Woman Consort 3.

THREE ARE INDICTED

Frank Robinson and Mabel Henderson Sentenced for Ruin of East Side Girl—Two Held on Eight Counts.

Steve Panigada, alias Pinnagatto, alias Bocci Bonni, who is said to have taken a 15-year-old girl to Sacramento as a white slave, was among three indicted by the Federal grand jury yesterday. Two others were sentenced by Judge Bean, one to serve five years at McNeil's Island Penitentiary on Puget Sound, and the other to serve three years in the state prison at Lansing, Kan.

Frank Robinson was the slaver sentenced to McNeil's Island for a five-year term. In passing sentence Judge Bean remarked that because of the seriousness of the offense, in which a 14-year-old East Side girl was the victim, he regretted that the law did not permit him to give the slaver a longer term.

Mabel Henderson, Robinson's consort, was sentenced to serve a three-year term. The reason for sending her to Lansing, Kan., state prison was that there are facilities there for caring for women prisoners, while at McNeil's Island there are none. It is understood that the woman is in need of medical attention.

The woman broke into tears as sentence was pronounced and became hysterical after she left the courtroom. In the office of United States Marshal Scott the pair had a tearful parting.

Steve Panigada is accused on eight counts of having first transported Lillian Thompson from Spokane to Portland in October, 1910, and with having then enticed 15-year-old Babe Vernon to go to Sacramento to lead a life of shame. He was arraigned before Judge Bean yesterday and will plead today. His bail was fixed at $5000.

Chris Lewis was indicted on four counts for the alleged transportation to Portland of Grace Dillman from Walla Walla, Wash., August 16. She is said to be less than 18 years old. He was arraigned and his bail fixed at $4000. He also will plead today.

G. A. Blake was indicted for alleged participation in the white slave traffic. Four counts are laid against him, for the alleged transportation from Seattle to Portland in June, last, of Mrs. J. R. Lawrence. His bail is $4000. He will plead today.

Grace Dillman, held as a witness against Lewis, was ordered placed in the Louise Home by Judge Bean yesterday, "because there is no suitable place in the County Jail to detain female witnesses of tender years."

HOLIDAY SALE TABOO

LICENSE COMMITTEE REFUSES JEWELRY PERMIT.

Local Jewelers Protest Against Disposal During Best Season of Cheap Stocks.

That licenses covering the auctioning of jewelry during the holiday season should not be granted because they work a hardship upon the legitimate jeweler who depends upon his holiday trade to even up the slack period during the Summer and who contributes to the business activity of the city by taxation and subscription to enterprises and institutions, was the contention of J. P. Jaeger and Felix Bloch, representing the jewelers of the city before the license committee of the Council yesterday. This action was taken when it became known that R. M. Harding, who recently bought a stock of jewelry on Morrison street, intended to apply for a license to sell his jewelry at auction during the holidays. The license committee took the views of Messrs. Jaeger and Bloch, much to the disgust of Harding, who left the committee chamber in a temper.

"We do not feel that auctioneers should be granted licenses whereby they are permitted to bring in stocks and sell them in competition with the legitimate jeweler who is here permanently," said Mr. Jaeger yesterday. "Particularly is this the case when he is a supporter of civic enterprises, such as the Rose Festival and commercial institutions like the Chamber of Commerce and Commercial Club, and pays taxes, rent and wages.

"Aside from this, when the legitimate jeweler sells an article he guarantees it and is here to make the guarantee good, whereas an auctioneer is gone after he has conducted a sale and usually leaves a lot of disappointed customers behind him. We were asked by the representative jewelers of Portland to protest against the granting of auction licenses during the holidays, and were glad to find the license committee so strong in support of our contention. The members of the committee expressed themselves as of the opinion that the legitimate business interests of the city should be protected.

"We make no objection to auctions where conditions demand a quick sale, but auctions under other circumstances are not good for business and upset public confidence in legitimate business houses."

$5000 GIVEN FOR ARREST

Woman Placed in Seattle Jail Awarded Damages by Jury.

A jury which heard in Judge Gantenbein's court the case of Isa E. Crosby against W. H. Maxwell, a loan agent, decided yesterday afternoon that the defendant should pay Mrs. Crosby $5000 as compensation for causing her arrest at Seattle in November, 1909, on a charge of larceny by bailee.

The trouble arose over a loan. Alleging that Mrs. Crosby, previous to her departure for Seattle, had disposed of furniture held as security for a loan, Maxwell caused her arrest and she remained for 49 hours incarcerated in the Seattle City Jail. She was forced to have her minor child in the cell with her.

A Multnomah County grand jury, which subsequently investigated the case, exonerated Mrs. Crosby.

BRITISH YEOMAN IS COMING

McCormick Mill Will Also Load 1,000,000 Feet on Tramp.

Instead of loading in the North, as has been reported, the British bark Yeoman, which is en route from Newcastle, N. S. W., for San Francisco with coal under charter to J. & A. Brown, will be given a full cargo at St. Helens, the material having been sold by the Charles I. McCormick Lumber Company. The vessel left the coal port August 15. She is of 1862 tons net register and her cargo will be discharged for Australia.

The British steamer Strathblane, which is loading at Tongue Point, will also take on lumber at the McCormick mill, where at least 1,000,000 feet will be loaded. The rush of flour and wheat shipments to the Far East has curtailed the movement of lumber to that territory until about January 1, though there will be small lots to go forward. The diminishment of the business will not seriously affect Fall exports in the average, as there has been an increase in the Australian buying and the last half of 1911 will be credited with a much greater exportation than the first six months.

Boy Who Hates School Is Missing.

CHEHALIS, Wash., Sept. 25.—(Special.)—Dewey Saunders, the 14-year-old son of A. Saunders, a pioneer resident of Chehalis, is missing and the police of the Coast cities are watching for the lad. The boy did not want to attend school.

THE EXPERT SPECIALIST AGAINST THE QUACK

C.K. Holsman, M.D.

The true specialist possesses the experience of years—the right kind of experience—doing the same thing the right way hundreds and perhaps thousands of times with unfailing and permanent results. His experience has taught him just what to do and when to do it. There is no guesswork, no experiment, hence no failure. He does not have to resort to fake methods. His scientific knowledge has made him the master. The quack experience is based on everlasting misrepresentation—upon doing hte same thing wrong as many times as the unsuspecting will permit. He is ever experimenting upon the patient—if one thing fails, he tries another, and keeps on changing until the patient despairs and leaves. He is ever ready to promise anything and everything. He drugs the system with powerful medicines, just to obtain temporary results. He is here today and gone tomorrow. He has as many names as fingers and toes. He constantly apes the specialist. He is a wolf in lamb's clothes. Beware of him.

I am the only EXPERT specialist in Portland who owns his office and equipment, advertises his full and correct name, publishes his recent and true photograph and personally conducts his office. I make this statement so that you will know when you come to my office no deceit will be practiced. I offer you my services, the result of 18 years of honest experience. Such service should not be compared with quack service. Quacks are here today and gone tomorrow. They keep their offices, but change their names whenever it suits their convenience, and sometimes some unfortunate doctor is paid a few paltry dollars for the use of his name. These offices depend upon the false promises they advertise, and ordinary doctors of questionable ability give consultation, examination and treatment. I want you to always keep before you the fact that I am trying to drive medical humbug and quackery out of Oregon.

A thorough investigation should be made by every ailing man as to the specialist he consults. You owe this to your family, yourself and your future happiness. The best medical service is none too good for you, and I offer it for a very reasonable fee, with an absolute guarantee of honest and fair treatment and permanent cure.

I am licensed in Oregon, Washington and California and the only expert specialist in Portland—18 years' experience—yet I am not a magician—I do not work magic. I do not offer 1-minute or 5-day impossible cures. I do not make false promises. I cannot cure every disease under the sun, nor every case included in the diseases I treat, for some of them are incurable, and the sooner the patient learns the truth the happier he will be. I simply apply the scientific knowledge my years of experience have given me, and I do this honestly and faithfully. I never accept a case for treatment until I have made a thorough examination, and then only when I am satisfied I can effect a permanent cure. This is your best guarantee. If you wish my services, they are yours at a fair and reasonable fee, which every sensible man expects and is glad to pay. You cannot get anything of value for nothing, and the sooner you wake up to this fact and regards the doctor who offers it to you with suspicion the happier you will be and the more money you will save. I offer you the services of the best doctor at a fair price and you will everlastingly thank me for the permanent cure received at my hands. My office is the largest and best equipped on the Pacific Coast.

VARICOSE VEINS.

I do not tie off the veins and destroy the vitality. My method is direct and positive. No loss of time, no pain, no humbug, but an absolute guarantee of a radical and permanent cure.

WEAKNESS.

Mentally strong, but vitally weak is the sad condition of many men who, eager to have their strength restored, become easy victims to the quacks who promise to make young men out of old and decrepit ones, and who, for the consideration of a few miserable dollars, offer to find the fountain of youth for the aged and helpless. You take the quack's promise, he takes your money. That's all you get—no result—just his promise. A fool and his money are soon parted. Why play the fool forever There are many distinct local conditions and causes of weakness. It cannot be cured by internal medicine, but by local treatment only. The cause must first be determined and until this is done, no cure can be effected by local or any other treatment. I do not use a single dose of internal medicine, and yet, without it, I absolutely and permanently restore complete vitality in every case I accept for treatment, which is the best evidence of the truth of my contention. MY TREATMENT MAKES MEN STRONG. It is unfailing and absolute. It is painless and permanent, and given under my absolute guarantee. The quacks who pretend to cure you as I do, begin drugging with powerful stimulants, just as soon as they succeed in separating you from your money. I can do no more than caution you against them.

BLOOD POISON.

Quacks reap a harvest by pretending that every little rash, skin eruption or pimple is a symptom of blood poison. The Wassermann blood test tells you whether or not you have the disease. The doctor may lie, but the test never does. This test is yours at my office for the asking. I use the new German Remedy and introduce it directly into the blood. From my experience with it I am prepared to say it is no longer an experiment, but a positive cure and a blessing to mankind. It is the salvation of the human race. My equipment for the proper administration of this remedy is the finest in Oregon and second to none in the United States. You are quite welcome to bring your family doctor with you and I will be pleased to have him present during your treatment.

I also treat all diseases of men, including Bladder and Kidney diseases. My treatment for Piles and Fistula is absolutely painless, does not detain you from your work or home and a permanent cure is effected without the aid of a knife.

You Are Always Welcome to Consultation and Examination.

My office is open all day from 9 A. M. to 8 P. M.; Sundays from 10 to 12. All correspondence treated confidentially. Letters cheerfully answered.

HOW TO TREAT OLD SORES

The proper way—the only successful way—to treat an old sore is to destroy its source. Not by dangerous surgical operations or irritating "drawing" plasters, but by Nature's true method of purifying the blood and filling the circulation with rich, nourishing properties; then the cure will be natural and lasting. We can easily understand how impurities in the blood will infect some weak point on our bodies, and by continually discharging impurities into it keep the place open and inflamed until a chronic ulcer is formed. Nothing then is so sure to produce a cure of these old sores as S. S. S. This medicine is Nature's perfect blood remedy, composed of the most healing and at the same time the most penetrating and blood-purifying properties. It removes every particle of impurity or morbid matter from the circulation, and assists nature in the increasing of healthful, nutritious corpuscles in the blood. S. S. S. makes pure blood and pure blood is Nature's unfailing cure for old sores. We want every sufferer with an old sore to commence the use of S. S. S., because we know it is the remedy they most need. Book on Sores and Ulcers and medical advice free to all. S. S. S. is sold at drug stores.

QUACK AND HUMBUG EXPOSED

DR. A. G. SMITH, The Leading Specialist.

I am a registered and licensed physician, confining my special practice to the ailments of MEN.. I have more money invested in my establishment than all other Portland specialists combined. I will give $500 to any charity if I cannot prove this.

When I began my work in cleaning out the "medical companies" and "medical institutes' of Portland by making a fair and square plea that every weak and ailing man should investigate and find out WHO the doctor was that promised him a cure, I knew that there would be a great upheaval among the advertising specialists. In less than six months I have already driven out some of the medical companies. Others are struggling against hope by offering the cheapest of fees as a bait to trap the unwary. I have already accomplished a great deal, and, while I welcome honest competition, I want to say some more words of warning to those who are still in doubt as to which doctor to choose. I warn you above all things—INVESTIGATE. Never accept the promises or advice of the first doctor you go to. He may be all that is right and honest, but get other opinion also. My advice is FREE, and I can give you some valuable information about medical quackery and humbug.

Your first consideration should be to know the doctor whom you consult. Take along his announcements and compare his picture with the man you meet in the office. INSIST upon seeing his license to practice medicine in Oregon, and his diploma. Ask him his name, and BE SURE IT IS THE DOCTOR YOU CAME TO CONSULT. If he is not in, make another call when he IS in. When you come to my office you see Dr. A. G. Smith, and I will show you my credentials and identification before you ask for them.

The difference between the quack and the doctor that does not advertise, does not depend solely upon the advertising. It is just as legitimate and honest for a doctor to announce his specialty and explain his methods in the newspapers as it is for a bank to publish its financial standing, or a minister to announce his Sunday services. Only a few days ago the non-advertising doctors were told by one of their leaders that the reason they were not effecting the cures expected of them was because they did not give their patients the care and attention necessary, and that there were twice as many doctors in Portland as there should be.

Cured in 5 Days

I cure Varicose Veins, Piles, Blood Poison, etc., in five days. If another doctor tells you this can't be done, it means only that he does not know my methods. Let me prove it to you.

VARICOSE VEINS

impair vitality. I daily demonstrate that varicose veins can be cured in nearly all cases by one treatment, in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly re-established, instead of the depressing conditions. I guarantee you a cure to stay cured or refund the money.

KIDNEY AND BLADDER AILMENTS.

With these ailments you may have more complications than are presented by any other ailing organs. By my searching illumination of the bladder I determine accurately the ailment, and by microscopical examination and urinalysis I make doubly sure the condition of the kidneys, thus laying foundations for scientific treatment.

"606" FOR BLOOD POISON.

I use Professor Ehrlich's wonderful new discovery, "606," in cases of Specific Blood Poison. It cures, and is the greatest marvel of medical science. This new remedy has been successfully used in thousands of cases. Let me explain it to you.

WEAKNESS.

I have long been a close student of the condition known as weakness in men. Sufferers from this trouble are nearly always told by their family physician that there is no help; that it means wornout nature, and that some powerful stimulant for temporary effect is the only help. I go deeper into the cause of the trouble and usually find a deranged or damaged local condition responsible. As long as a man lives he should be as strong in every vital function as he is physically constituted. I have a scientific, powerful and permanent treatment for weakness, which is as natural and direct as it is efficient.

FACTS FOR MEN

Should you happen to be afflicted with any of the AILMENTS to which men are prone, such as VARICOSE VEINS, BLOOD DISORDERS, NERVOUS DEBILITY, SKIN or BLADDER AILMENTS, consider well the Specialist with whom you are going to treat. Don't be deceived by quackish announcements of One Treatment or Five-Day Cures, for you are certainly sufficiently intelligent to know that such statements are impossible and simply alluring. Don't you know that you cannot be cured by those who are inexperienced and unqualified to treat you? You are paying your good money and should certainly insist upon more than promises for results.

Be sure that the person you consult is not misleading you. Is he practicing his profession under his true name? Has he visible qualifications such as diplomas and licenses to assure you of his standing and ability? Is he lending his name as a cloak for a medical company? If you cannot assure yourself on these points it is perhaps as well to save your time and money.

MY QUALIFICATIONS.

I am duly and legally qualified to practice my profession in the States of Oregon, Washington, California and Nevada. I publish my own photograph in all my announcements, I practice under my true name, personally conduct my own office, consult with and treat all my own patients until a cure is effected and have no connection with any "medical company," "institute" or "museum." I therefore offer to men afflicted with any ailment included in my specialty a service unexcelled by any other specialist in Oregon. All medicines dispensed under the direct supervision of a graduate in PHARMACY. SATISFACTION GUARANTEED.
