final orisis in the controversy between the Harriman railroads and the Federation of Railway Employes.

An ultimatum giving Vice-President Kruttschnitt until that date to open negotiations with the Federation, represented by the presidents of the nine international shop crafts unions composing it, was dispatched to the railroad official teday, according to union officials here.

officials here. Resolutions declaring for a strike of machinists on the Harriman railroads, unless demands of the Federated Employes are granted, were adopted by the International Association of Machinists in convention here late today.

Minority Report Unheeded. This action was taken over the pro-test of President James McConnell, of the International Association, who presented a minority report to the con-vention. The majority report favoring a strike was signed by President Franklin, of the boilermakers; Presi-dent Ryan, of the carmen; President Kline, of the blacksmiths, and Presi-dent Sullivan, of the sheet metal work-

The failure of the machinists' convention to reach a decision on the question of cailing a strike at previous ses-sions caused the conference of inter-national officers to be held.

It was agreed that the action the in ternational officers decided on would be adopted. The officers falled to agree and after a session lasting until late Monday night majority and minor-

ity reports were drawn up.

James W. Kline, president of the
Blacksmiths and Helpers International
Union, refused to discusse the action taken at the conference.

International Officers Decide. "The matter now rests with the in-ternational presidents," he said. "Until they issue the order no general strike will take place, either on the Southern Pacific or the Illinois Central I found a communication from the Illinois Central Company awaiting me here. It informed me that the members of the union I represent had

violated their contract with the Illi-nois Central at Memphis. Illinois Central and Yazoo & Mississippi Valley railroads at Jackson, Miss, are employing young women to take the places of the striking cierks.

That a general strike of the Federated Employes of the Illinois Central and Yazoo and Mississippi Valley rall-roads is imminent is the belief of W. E. Bowen, secretary of the Federated Employes' Union.

Mr. Bowen is directing the clerks' strike here and said it was with the utmost difficulty that he kept the 1800 shopmen at McComb City, Miss., and New Orleans from going out today in New Orleans from going out today in

sympathy with the clerks.

The first violence of the clerks' strike occurred today and H. E. Haines, a nonunion clerk was attacked near the Illinois Central watehouse. He was

not badly injured. Strikers deny they struck him. All but four of the 280 union clerks here walked out. In their places about 20 strikebreakers have been employed. Railroad officials are confident of being able to resume normal working conditions tomorrow or the next day. No outbound freight was received to-day, but inbound and through ship-ments in car lots were not delayed.
