EXTENSION OF KREST-STREET IMPROBABLE.—The extension of Kerby street
from Russell atreet to Broadway
through the Montgomery tract, is not
likely to be undertaken unless an expensive viaduot is built above the present grade of the street. Owners of the
tract have already so sluiced the street
that a viaduct would have to be built
across the tract to extend the street.
The owners have forestalled the movement to open the street by cutting it
down 20 and 40 feet and running the
dirt into the rawines on the east side
of Goldsmith street. George Brown,
one of the owners of the tract, declares
the owners will give right of way for
piers for a viaduct. The cost of a
viaduct would be great. A report of
the proceedings will be read at the
meeting of the Lower Albins Push Club
next Monday. It is generally supposed
that the tract will be occupied by the
Mount Hood Light & Power Company,
which has extended its wires to the
tract. Removal of 1,000,000 cubic yards
