SAN FRANCISCO, Oct. 2 .- Moving sictures and their effects upon lives of children were discussed at the session of the American Humane Assoclation here today and the convention went on record as favoring the strictest consorably of films displayed. James A. Blaffer, former president of the Louislana Society for the Prevention of Cruelly to Children, in his paper, "Child Saving in Louislana." said in least

part:
"Motion pictures have a remarkable effect upon children and wield a woneffect upon children and wield a wonderful influence, either for good or ovil.
The child's mind being in a formative
atate, is extremely receptive and the
suggestions created are not soon forgotten. There is a superahundance of
crime depicted by many present-day
films and their tendency is for exil.

—Portland's request for the 1913 convention of the American Rumane As-

vention of the American Humane Association, now meeting in San Prancisco, was seconded in a telegram sent to President Stillman, of the association, by the Tacoma Commercial Club, and which read in part as follows:

The Northwest has great need of the splendid work you are doing, and no greater impetus can be given it than holding the national meeting here. Portland is ideally located, has unparalleled accommdations, superbellmate and the best people on earth.

GUARD TO BE PUT TO TEST

Surprise Calls Suggested in Lieu of lift for revenue or free trade. Formal Maneuvers

WASHINGTON, Oct. L-The joint WASHINGTON, Oct. I.—The joint maneuvers of the regular Army and the National Guard next year promise to be on very different lines from the maneuvers of 1910 or preceding years, if Congress approves the War Department estimates of a round \$1,500,000 appropriation for such purposes.

Many of the ranking officers of the Army experienced in joint maneuvers have come to the conclusion that little good is accompilished by the present;

good is accomplished by the present system of chasing a lot of raw militia recruits through a camp of regulars, with the upportunity for training lim-ited to ten days or a fortnight at the

A proposition being considered is that instead of having a large maneuver camp to be maintained at one point for three months, a practical turn be given to the mansuvers by unexpectedly call-ing a complete division to be mobilized perhaps in each section of the country, to test the elasticity and responsive-ness of the National Guard.

Fit Lancastr Williams, who was elected director of the Missouri Pacific early last Summer and whom Frank Gould sought to place in a similar position on the St. Louis-Southwestern, said after today's meeting:

"In checking over our list with that held by the management we find that there are a number of duplicates or reversions on both sides. Under these conditions, I am convinced that to insist upon a contest at this time would be likely to lead to controversy and possibly to littgatton."

The President said he was perfectly willing to sign any bill that complied with the Republican platform upon which he was elected, and he hoped that when the people realized the "sincerity of our promises they will see

"The fact is." he added, "that the defection from the Republican party in the last Congressional election, or the defeat of it was not due to an increased number of Democrats. It was due to the defection of Republicans who insisted that we had not performed our promises. Now, if we go shead, as I hope we may, and show to them that that is just what we are doing, acting on the tariff board's report, it seems to me that we are not ever-sanguine in expecting that those Republicans who did not leave us ex-actly, but who withheld their votes. will now return to the place where they

President Taft pleaded for conces-sions upon the part of the convention and suggested that when men were sent to Washington to argue with Congressional committees about mat-ters affecting the public lands and the policy of conservation, they should not be tied with strings so they could have no leeway. ave no leeway. The President said that the discus-

OREGONIAN NEWS BUREAU Washington, Oct. 3 .- The activity of the Taff administration, through the Department of Justice, and the speeches delivered by the President In the West make it certain that trust regulation is to be an important issue in the campaign of 1912-an issue fully as important as tariff readjustment. On

The activity with which the trusts have shown their resentment of the President's attitude toward them is destined to work out to the advantage destined to work out to the advantage of President Taft, for Wall-street opposition has always proved a source of atrength to every candidate for president save Bryan, and supporters of the President are satisfied that Wall streets opposition to Taft will be of wenderful help to him next year. Had the trusts not been so ready to array themselves openly against the Administration, they might have accomplished more, but having laid bare their purposes, they will have to play the game in the open.

Roosevelt Cruxade Continued. Reosevelt Crusade Continued.

President Roosevelt's anti-trust crusade was one of his star plays, and did as much as anything else to enhance his popularity with the people. President Taft, after having been accused of playing with Wall Street, has taken up the anti-trust crusade where Roosevelt left off, and has schieved more in the way of enforcing the anti-trust law than did Roosevelt and his predecessors. Moreover, President Taft has laid out a plan for future operation, following the precedents es-Taff has laid out a plan for future op-eration, following the precedents es-tablished in the Standard Oil and to-bacco trust cases, which makes plain the ends he will undertake to achieve, and the methods he will follow. Through his speeches he has told the public he is not seeking to disrupt business; not seeking to injure any legitimate concern proceeding in aclegitimate concern proceeding in ac-cordance with the law, or playing to the gallery, but is after the corpora-tions that are violating the law, and in a manner that is injurious to competitive but less powerful business in-terests. He intends to go that far, and no further: he is insisting simply that the law be obeyed, and is asking nothing beyond that.

It is true that some of the corporations, convinced that the Administra-tion is in carnest, have volunteered to readjust their business so as to comply with the law, but the Administration, while assenting to this, has insisted that all readjustments be so made that the Government can know the details and be convinced that the requirements of the law are fully met. Wall Street Wants Harmon Wall street is disgruntled.

Wall street is disgruntled. At last this made plain to the country that it is not in harmony with President Taft, and has no more use for him than it had for his predecessor. It has discovered that the rumors about the President were inaccurate, and that he is not under Wall street domination any more than was Hoosevelt. Therefore, Wall street is casting about for condidate to back against Taft and candidate to back against Taft and as turned to Governor Harmon, of thio, Democrat,

Had Woodrow Wilson, as candidate or President, held to the same ideas for President, held to the same ideas h voiced as non-political college professor, he undoubtedly would have been Wall street's favorite at this time, but since he entered the Presidential race, Wilson has abandoned many of his old theories, has subscribed for Bryanism and is now listed by the "interests" as unsafe. This by the "interests" as unsafe. This change made it necessary for Wall street to look elsewhere, and Judson Harmon is the only man who fills their

Harmon, to begin with, is a corporation lawyer, with intimate friends in
Walt street. His courage as Governor
of Ohio has met the approval of Wall
street, to a large degree, and while
he is not an ideal candidate, he is far
and away the most acceptable in the
fleid. Hence, he has been chosen to
receive Wall street's support. He, at
least will "listen to reason." Wall receive Wall street's support. Wall least, will "listen to reason." Wall street did not want to turn to a Democrat, but Wall street figures that Taft is bound to be renominated, with or is bound to be renominated, with or without its support. Moreover, Wall street could not turn to La Follette, the only other Bepublican mentioned for the nomination, for it fears La Follette the nomination, for it fears La Follette would wreck not only its own business interests, but business generally. It could not stand for La Follette's ex-treme radicalism.

Whether Wall street can swing the

Democratic convention to Harmon is quite another question, for Harmon has already met with opposition from Bryan, and if he goes to the convention wearing the Wall street brand tion wearing the Wall street brand he will likely prove a marked man. **

"It might be supposed that the bond issue here was worked out from the initiative and referendum, but such was not the case. The question is solely whether or not the amendment is self-executing or not. That is, whether it was addressed to the Legislature or was sufficient in itself.

"In the voters' pamphlet in which the intent of the amendment was given it was expressly stated that by a majority vote of the people the county had the right to bond itself for permanent roads. The power to create indebtedness resis with the County Court. It cannot create an indebtedness recess with the County court. It cannot create an indebtedness received the supress rebellion or to construct permanent roads. It can by the constitutional amendment exceed this amount of \$5000 for the construction of permanent roads if specifically authorized by a majority vote of the people.

On the train coming south the two Jeffries boys remained by themselves and the numerous friends whom they met respectfully left them alone.

CASE WILL BE REVIEWED

Navy Department Dissatisfied With Verdict About Pippin.

VALLEJO, Cal., Oct. 3 -- Acting under orders recently received from the Judge Advocate-General of the Navy, the Navai Court, which tried Paymaster Arthur M. Pippin and Pay Clerk James V. Fuller, retired, of the receiving ship independence on charges of emberalement and misconduct of the pay office, reassembled today at Mare Island to review its findings. The session is be-ing held behind closed doors and the new findings will be forwarded tomor-

row to Washington.

The review of the case was ordered on the ground that the testimony taken before the court was sufficient to prove one charge against both officers, upon which the court did not render a verdict of guilty. The court was instructed to ender its verdict in accordance with the testimony. The nature of the verdicts on the sev-

eral other charges is not known, but it is believed that the action of the department in ordering a review is un-favorable to the accused officers.
